Longtime Californ:

Longtime Californ' Victor Nee, Brett De Bary, 2014-10-29 Beginning with the immigrants who left poverty ridden villages in China to try for a better livelihood in America the narratives and extensive interviews of Longtime Californ tell the true story of the Chinese in America A young Chinese girl tells of being sold into slavery brought to America and rescued by a missionary men of Chinatown recall the awful conditions and long waits on Angel Island before being allowed into the country and remember the backbreaking experience of building the railroads that opened the West The young Chinese are also here some are angry and frustrated spending their time on street corners and in gang fights other are Marxist radicals trying to create social political and economic change in Chinatown ghetto And there are the workers who go back and forth each day to the garment factories and the shops each with his or her own story to tell each contributing his or her share to the country that is San Francisco Chinatown Throughout these and other stories the intricate patterns of Chinese life emerge as Chinese traditions and American customs combine to create the unique experience of Chinese Americas Longtime Californ goes beyond the hand laundries and restaurants with which Americans often associate the Chinese and unveils the secret societies the powerful family associations and the daily lives of the people of Chinatown *Longtime Californ'* Victor Nee, Brett de Bary Nee, 1981

The Fall of the House of Labor David Montgomery, 1987-08-28 This book studies the changing ways in which American industrial workers mobilised concerted action in their own interests between the abolition of slavery and the end of open immigration from Europe and Asia Sustained class conflict between 1916 and 1922 reshaped governmental and business policies but left labour largely unorganised and in retreat The House of Labor so arduously erected by working class activists during the preceeding generation did not collapse but ossified so that when labour activism was reinvigorated after 1933 the movement split in two These developments are analysed here in ways which stress the links between migration neighbourhood life racial subjugation business reform the state and the daily experience of work itself

Race Relations in the United States, 1900-1920 John F. McClymer, 2008-11-30 In the first decades of the twentieth century virulent racism lingered from Reconstruction and segregation increased Hostility met the millions of new immigrants from Eastern and southern Europe and immigration was restricted Still even in an inhospitable climate blacks and other minority groups came to have key roles in popular culture from ragtime and jazz to film and the Harlem Renaissance This volume is THE content rich source in a desirable decade by decade organization to help students and general readers understand the crucial race relations of the start of modern America Race Relations in the United States 1900 1920 provides comprehensive reference coverage of the key events influential voices race relations by group legislation media influences cultural output and theories of inter group interactions The volume covers two decades with a standard format coverage per decade including Timeline

Manning, 2015-03-30 Much of Missoula's history lies beneath the surface As in many Old West cities cavernous underground tunnel systems purportedly hid countless nefarious activities from clandestine prostitution and Chinese opium dens to booze running during Prohibition These sordid tales captivate today's residents and beg questions about the city's furtive past Did local elite gentlemen mask their carnal habits there Did John Wayne really use the passageways to run personal errands unnoticed Author and urban archaeologist Nikki Manning ventures below to reconcile oral history with archaeological data in a fascinating exploration of Missoula's subterranean labyrinths The Population of Modern China Dudley L. Poston Jr., David Yaukey, 2013-11-11 Student interested in world populations and demography inevitably need to know China As the most populous country of the world China occupies a unique position in the world population system How its population is shaped by the intricate interplays among factors such as its political ideology and institutions economic reality government policies sociocultural traditions and ethnic divergence represents at once a fascinating and challenging arena for investigation and analysis Yet for much of the 20th century while population studies have developed into a mature science precise information and sophisticated analysis about the Chinese population had largely remained either lacking or inaccessible first because of the absence of systematic databases due to almost uninterrupted strife and wars and later because the society was closed to the outside observers for about three decades since 1949 Since the end of the Cultural Revolution things have dramatically changed China has embarked on an ambitious reform program where modernization became the utmost goal of societal mobilization China could no longer afford to rely on imprecise census or survey information for population related studies and policy planning nor to remaining closed to the outside world Both the gathering of more precise information and access to such information have dramatically increased in the 1980s Systematic observations analyses and reporting about the Chinese population have surfaced in the population literature around the globe **The Asian American Movement** William Wei, 2010-06-18 The first history and analysis of the Asian American Movement **Empress San Francisco** Abigail M.
