**Landscapes of W. H. Auden's Interwar Poetry** Ladislav Vít,2021-12-14 This is the first book length study foregrounding  
Auden s sense of place as a means for enhancing our grasp of this crucial twentieth century poet Proposing that Auden had a  
remarkable spatial sensibility this book concentrates on his treatment of his homeland England as well as the North Pennines  
and Iceland both of which served as his good places holy grounds and sources of topophilic sentiment The readings draw on  
the scholarship of humanistic geography tracing patterns of mental constructs which emerge from spatial experience In a  
scholarly but engaging way this book argues that focusing on Auden s poetics of place as it emerged and evolved can be  
instrumental to our understanding of this influential poet not only in relation to his epoch but also to the Anglophone poetic  
tradition Precisely because of his stature these elaborations on Auden s preoccupation with places escapism borders and  
local identity promise to enrich our understanding of the cultural and intellectual climate of the interwar period when  
established notions of local places and cultures were beginning to be contested by internationalisation This study will be of  
interest to both academics and students in the field of Anglophone literary studies while also appealing to those attracted to
