Dinosaurs and Other Prehistoric Life DK, 2021-10-12. A comprehensive guide to dinosaurs and prehistoric animals and the world they inhabited millions of years ago. Includes more than 700 full-color illustrations. This definitive guide paints a vivid portrait of extraordinary dinosaurs and prehistoric animals and the ecosystems they lived in millions of years ago. This guide features authoritative text, crystal-clear illustrations, and a straightforward approach to revealing the fascinating lives and habitats of dinosaurs, pterosaurs, marine reptiles, and prehistoric beasts. The introductory section explains classification systems, geological timelines, the evolution of the dinosaurs, and how fossils form and are discovered by paleontologists. For ease of reference, the main body of the ebook is divided into three sections: the Precambrian and Paleozoic eras when animals first began evolving; the Mesozoic era which saw the flourishing and eventual extinction of the dinosaurs; and the Cenozoic era when giant mammals walked the Earth. Each section is broken down into its geological time periods, and within these, the species are organized according to habitat: whether they lived on land, in the water, or in the air. There are detailed profiles of 200 dinosaurs and other ancestors of modern animals. Each entry combines a precise jargon-free description with full-color illustrations, skeletons, and replica models annotated to showcase the unique features of the species. Maps show where each animal's fossils have been found, and many profiles are supported by photographs to show actual excavation sites.

An Illustrated Timeline of Dinosaurs Patricia Wooster, 2012. Presents a timeline of the history of dinosaurs.
