Looking At China:

China Walter F. Mondale, 1979 **Looking for Balance** Steve Chan, 2013-07-15 Debate surrounding China's rise and the prospects of its possible challenge to America's preeminence has focused on two questions whether the United States should contain or engage China and whether the rise of Chinese power has inclined other East Asian states to balance against Beijing by alignment with the United States or ramping up their military expenditures By drawing on alternative theoretic approaches most especially balance of threat theory political economic theory and theories of regime survival and economic interdependence Steve Chan is able to create an explanation of regional developments that differs widely from the traditional strategic vision of national interest He concludes that China's primary aim is not to match U.S. military might or the foreign policy influence that flows from that power and that its neighbors are not balancing against its rising power because in today's guns versus butter fiscal reality balancing policies would entail forfeiting possible gains that can accrue from cooperation economic growth and the application of GDP to nonmilitary ends Instead most East Asian countries have collectively pivoted to a strategy of elite legitimacy and regime survival based on economic performance **The Urban Code of China** Dieter Hassenpflug, 2012-12-13 When reading the Chinese city which this book sets out to do it is not the well known cities such as Beijing Shanghai and Xi'an that are in the focus of attention but rather the essentially Chinese of the Chinese city those characteristics or attributes that are more or less shared by all Chinese cities The spotlight is on their spatial grammar their syntax in short their code Only by deciphering their common traits a view to the underlying structure of Chinese cities is opened and we can begin to reasonably evaluate and classify the diversity of impressions Deciphering the code of the Chinese city also enables the author to read new Chinese towns designed by Western architects Thus readers are provided with valuable insight on China's booming urbanization and urban development Look Again at China Willis Church Lamott, 1948 **Engineers and Engineering**, 1920 **Looking Toward Sunset**, 1883 *Passage to China* John Elliot Bingham, 1842 The Journal of the Engineers' Club of Philadelphia and Affiliated Societies Engineers Club of Philadelphia, 1920 China's Millions, 1900 Narrative of the Expedition to China, from the Commencement of the War to the Present Period; with Sketches of the Manners and Customs of that Singular and Hitherto Almost Unknown Country J.
