## **Looking For Harlem Urban Aesthetics In African American Literature:**

**Looking for Harlem** Maria Balshaw, 2000-12-20 Taking the incredible flowering of African American literature in the 1920s as its starting point *Looking for Harlem* offers a cogent and persuasive new reading of a diverse range of twentieth century black American writing From the streets subways hotels and cabarets of New York s Harlem and Chicago s Southside Maria Balshaw moves beyond the canon to encompass often neglected writing by Rudolph Fisher Wallace Thurman and Claude McKay as well as the more familiar work of Richard Wright Ralph Ellison Nella Larsen and Toni Morrison In a provocative revision of African American literary history Balshaw examines the creation of an urban aesthetic and explores the links between the engagement with the city and fictional reconstructions of racial identity and race writing Focusing on the material culture of the city the visual sense of the urban environment the class dynamics of urban culture and the crucial importance of consumerism this study presents a critically astute challenging and very welcome new approach to a much studied area of contemporary American fiction *African American Literature in Transition, 1920-1930: Volume 9* Miriam Thaggert, Rachel Farebrother, 2022-04-07 This book analyses historical literary and cultural shifts in African American literature from the 1920s 1930s *The Geographies of African American Short Fiction* Kenton Rambsy, 2022-03-25 Perhaps the brevity of short fiction accounts for the relatively scant attention devoted to it by scholars who have historically concentrated on longer prose narratives *The Geographies of African American Short Fiction* seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple locations small towns a famous metropolis city sidewalks a rural wooded area apartment buildings a pond a general store a prison and more In the process these writers highlighted the extents to which places and spaces shaped or situated racial representations Presenting African American short story writers as cultural cartographers author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century Anthology editors solidified the significance of a core group of short story authors including James Baldwin Toni Cade Bambara Charles Chesnutt Ralph Ellison Zora Neale Hurston and Richard Wright Using quantitative information and an extensive literary dataset *The Geographies of African American Short Fiction* explores how editorial practices shaped the canon of African American short fiction *Imagining New York City* Christoph Lindner, 2015-02-02 Using examples from architecture film literature and the visual arts this wide ranging book examines the significance of New York City in the urban imaginary between 1890 and 1940 In particular *Imagining New York City* considers how and why certain city spaces such as the skyline the sidewalk the slum and the subway have come to emblemize key aspects of the modern urban condition In so doing Christoph Lindner also considers the ways in which cultural developments in the late nineteenth and early twentieth

centuries set the stage for more recent responses to a variety of urban challenges facing the city such as post disaster recovery the renewal of urban infrastructure and the remaking of public space      *The Cambridge History of American Modernism* Mark Whalan,2023-07-20 The Cambridge History of American Modernism examines one of the most innovative periods of American literary history It offers a comprehensive account of the forms genres and media that characterized US modernism coverage ranges from the traditional such as short stories novels and poetry to the new media that shaped the period s literary culture such as jazz cinema the skyscraper and radio This volume charts how recent methodologies such as ecocriticism geomodernism and print culture studies have refashioned understandings of the field and attends to the contestations and inequities of race sovereignty gender sexuality and ethnicity that shaped the period and its cultural production It also explores the geographies and communities wherein US modernism flourished from its distinctive regions to its metropolitan cities from its hemispheric connections to the salons and political groupings that hosted new cultural collaborations      **The Wiley Blackwell Anthology of African American Literature, Volume 2** Gene Andrew

most US dictionaries have in fact long recognised tantalise's origins in The Odyssey so they have defined it as the unique desire we feel for objects that like the fruit and water once cruelly placed before Tantalus lie within our reach yet withdraw from our attempts to touch them On these terms American Tantalus shows tantalise not only describes a particular kind of thwarted desire but also one that dominates modern US fiction to a remarkable extent For this term specifically evokes the yearning to touch alienated or virginal objects that we find examined by F Scott Fitzgerald Toni Cade Bambara Richard Wright and Toni Morrison and it also indicates the insatiable pursuit of the horizon so important to Willa Cather and Edith Wharton among others This eclectic canon indeed prefers the dictionary to the thesaurus unreachable destinations and untouched commodities here indeed tantalise inviting gestures of inquiry from which they then recoil This focus while lodging cycles of tantalisation at the very heart of American myth holds profound implications for our understanding of modernity and in particular of the cultural genesis of the commodity as a form

**Encyclopedia of American Urban History** David Goldfield, 2007 Publisher description **How the Streets Were Made** Yelena Bailey, 2020-10-12 In this book Yelena Bailey examines the creation of the streets not just as a physical racialized space produced by segregationist policies but also as a sociocultural entity that has influenced our understanding of blackness in America for decades Drawing from fields such as media studies literary studies history sociology film studies and music studies this book engages in an interdisciplinary analysis of the how the streets have shaped contemporary perceptions of black identity community violence spending habits and belonging Where historical and sociological research has examined these realities regarding economic and social disparities this book analyzes the streets through the lens of marketing campaigns literature hip hop film and television in order to better understand the cultural meanings associated with the streets Because these media represent a terrain of cultural contestation they illustrate the way the meaning of the streets has been shaped by both the white and black imaginaries as well as how they have served as a site of self assertion and determination for black communities

Writing the City Desmond Harding, 2004-06-01 Writing the City examines and challenges the traditional transatlantic axis of urban modernism London Paris New York an axis that has often elided the historical importance of other centers that have shaped metropolitan identities and discourses According to Desmond Harding James Joyce's internationalist vision of Dublin generates powerful epistemic and cultural tropes that reconceive the idea of the modern city as a moral phenomenon in transcultural and transhistorical terms Taking up the works of both Joyce and John Dos Passos Harding investigates the lasting contributions these author's made to transatlantic intellectual thought in their efforts to envisage the city Fictions of Globalization James Annesley, 2009-02-01 The globalization debate has become a dominant question in many disciplines but has only tended to be covered within literary studies in the context of postcolonial literature This book focuses on reading contemporary novels in relation to globalization A History of the Harlem Renaissance Rachel Farebrother, Miriam Thaggert, 2021-02-04 The Harlem Renaissance was the most influential single movement in African American literary history

The movement laid the groundwork for subsequent African American literature and had an enormous impact on later black literature world wide In its attention to a wide range of genres and forms from the roman clef and the bildungsroman to dance and book illustrations this book seeks to encapsulate and analyze the eclecticism of Harlem Renaissance cultural expression It aims to re frame conventional ideas of the New Negro movement by presenting new readings of well studied authors such as Zora Neale Hurston and Langston Hughes alongside analysis of topics authors and artists that deserve fuller treatment An authoritative collection on the major writers and issues of the period A History of the Harlem Renaissance takes stock of nearly a hundred years of scholarship and considers what the future augurs for the study of the New Negro

**Re-Covering Modernism** David Earle,2016-03-03 In the first half of the twentieth century modernist works appeared not only in obscure little magazines and books published by tiny exclusive presses but also in literary reprint magazines of the 1920s tawdry pulp magazines of the 1930s and lurid paperbacks of the 1940s In his nuanced exploration of the publishing and marketing of modernist works David M Earle questions how and why modernist literature came to be viewed as the exclusive purview of a cultural elite given its availability in such popular forums As he examines sensational and popular manifestations of modernism as well as their reception by critics and readers Earle provides a methodology for reconciling formerly separate or contradictory materialist cultural visual and modernist approaches to avant garde literature Central to Earle s innovative approach is his consideration of the physical aspects of the books and magazines covers dust wrappers illustrations cost which become texts in their own right Richly illustrated and accessibly written Earle s study shows that modernism emerged in a publishing ecosystem that was both richer and more complex than has been previously documented The Cambridge Companion to the Black Body in American Literature Cherene Sherrard-Johnson,2024-05-16

Whether invisible or hyper visible adored or reviled from the inception of American literature the Black body has been rendered in myriad forms This volume tracks and uncovers the Black body as a persistent presence and absence in American literature It provides an invaluable guide for teachers and students interested in literary and artistic representations of Blackness and embodiment The book is divided into three sections that highlight Black embodiment through conceptual flashpoints that emphasize various aspects of human body in its visual and textual manifestations This Companion engages past and continuing debates about the nature of embodiment by showcasing how writers from multiple eras and communities defined and challenged the limits of what constitutes a body in relation to human and nonhuman environment

**Future-founding Poetry** Sascha Pöhlmann,2015 An investigation of how American poetry since Whitman makes its beginnings with what means and to which political and aesthetic ends and how it addresses

fundamental questions about what the future is and how it may be affected now      **The Negritude Movement** Reiland Rabaka, 2015-05-20 The Negritude Movement provides readers with not only an intellectual history of the Negritude Movement but also its prehistory W E B Du Bois the New Negro Movement and the Harlem Renaissance and its posthistory Frantz Fanon and the evolution of Fanonism By viewing Negritude as an insurgent idea to invoke this book's intentionally incendiary subtitle as opposed to merely a form of poetics and aesthetics The Negritude Movement explores Negritude as a traveling theory la Edward Said's concept that consistently crisscrossed the Atlantic Ocean in the twentieth century from Harlem to Haiti Haiti to Paris Paris to Martinique Martinique to Senegal and on and on ad infinitum The Negritude Movement maps the movements of proto Negritude concepts from Du Bois's discourse in *The Souls of Black Folk* through to post Negritude concepts in Fanon's *Black Skin White Masks* and *The Wretched of the Earth* Utilizing Negritude as a conceptual framework to on the one hand explore the African intellectual tradition in the twentieth century and on the other hand demonstrate discursive continuity between Du Bois and Fanon as well as the Harlem Renaissance and Negritude Movement The Negritude Movement ultimately accents what Negritude contributed to arguably its greatest intellectual heir Frantz Fanon and the development of his distinct critical theory Fanonism Rabaka argues that if Fanon and Fanonism remain relevant in the twenty first century then to a certain extent Negritude remains relevant in the twenty first century
