Osho, 2023-08-01 Hyakujo was the direct heir of Ma Tzu and became most well known for his establishment of the first truly Zen monasteries and his treatise on sudden enlightenment To understand Hyakujo the first thing is to understand that enlightenment can only be sudden The preparation can be gradual but the illumination is going to be sudden You can prepare the ground for the seeds but the sprouts will come suddenly one day in the morning they don't come gradually Existence believes in suddenness Nothing is gradual here although everything appears to be gradual that is our illusion *Intensive Culture* Scott Lash, 2010-07-14 This thought provoking innovative book is dedicated to the study of such intensive culture

The Square and the Circle of the Indian Arts Kapila Vatsyayan, 1997 *The Square and the Circle of the Indian Arts* is a major contribution in Indian art history More than a book on the theories of arts it has far reaching implications for the way one thinks about the future of indology and art history It provides a model to be emulated for inter disciplinary research not only between the arts but also the sciences and the arts The book begins by re examining the imagery of the Vedas and the Upanisads highlighting some aspects of early speculative thought which influenced the enunciation of aesthetic theories particularly of Bharata in the *Natyasastra* The next chapter introduces a new methodology of analyzing the rituals *yajna* as laid down in the *Yajurveda* and the *Satapatha Brahmana* the best way to focus the relationship between the text and the practice Four chapters follow one each on drama *natya* architecture *vastu* sculpture *silpa* and music *sangita* Each presents some fundamental concepts of speculative thought concerned with each of the arts and purposefully correlates these with actual examples both of the past and the present The afterward to this second edition remains an event not only because the book benefits from the works published since the first edition but also because it presents the author's integral vision and her unique adventure into the boundaries of several disciplines It demonstrates the efficacy of her earlier approach of investigating the imagery and the metaphors as basic to the discourse of the Indian tradition She proposes a multi layered cluster of concepts and metaphors which enable one to uncode the complex multi dimensional character of the Indian Arts Also significantly she suggests a deeper comprehension of the relevance of the developments in the field of traditional
