Markets Morals And The Law:

Markets, Morals and the Law Jules L. Coleman, 1988-07-29 A collection of essays by one of America's leading legal theorists
Markets, Morals, and the Law Jules L. Coleman, 1988 This collection of essays by one of America's leading legal theorists shows how traditional problems of philosophy can be understood more clearly when considered in terms of law economics and political science

Markets, Morals, and Policy-Making Enrico Colombatto, 2012-03-29 This book offers the reader a new perspective on free market economics one in which the defense of markets is no longer based upon the utilitarian claim that free markets are more efficient rather the defense of markets rests upon the moral argument that top down coercive policy making is necessarily in tension with the rights based notion of justice typical of the Western tradition

Medieval Market Morality James Davis, 2011-11-24 This important study examines the market trade of medieval England by providing a wide ranging critique of the moral and legal imperatives that underpinned retail trade James Davis shows how market goers were influenced not only by practical and economic considerations of price quality supply and demand but also by the moral and cultural environment within which such deals were conducted This book draws on a broad range of cross disciplinary evidence from the literary works of William Langland and the sermons of medieval preachers to state civic and guild laws Davis scrutinises everyday market behaviour through case studies of small and large towns using the evidence of manor and borough courts From these varied sources Davis teases out the complex relationship between morality law and practice and demonstrates that even the influence of contemporary Christian ideology was not necessarily incompatible with efficient and profitable everyday commerce
Markets, Morals, and Religion Jonathan B.

Imber, 2017-07-05 The examination of the relationship of economic activity to other important aspects of human life and social behavior has inspired some of the most interesting and provocative social scientific research in the past one hundred years This book of original essays by leading thinkers across many disciplines offers new insights into enduring questions about how modern and modernizing market economies are both shaped by and shapers of morality values and religion Part 1 Markets and Morals offers eight contributors who provide analyses of the various ways in which the market operates in relation to morality An empirical presentation of moral values and market attitudes is given Other essays take aim at how markets serve and disserve moral interests Economic growth has moral consequences the manipulation of markets exposes a moral underside the nature of market failure has implications for understanding moral vulnerability preference change has moral implications In other chapters a broad consideration of the positive moral effects of market economies is offered along with historical essays on the role that intellectuals have played in debates about the positive and negative effects of commercial life and on the ways in which the American idea of the pursuit of happiness reveals much about the morality of economic life In Part 2 Markets and Religion nine contributors address both the historical and contemporary emergence of religious factors in the growth and transformation of global capitalism Major religious traditions including Judaism

Christianity and Islam are examined for their contributions to answering questions about the nature and function of economic life in light of religious ideas and ideals Several essays present original approaches to the importance of religious values to modern forms of consumption and to the political economy of reconciliation and forgiveness in nations coming to terms with past conflict Finally t

Agency, Morality and Law Joshua Jowitt,2023-01-12 How does law possess the normative force it requires to direct our actions This book argues that this seemingly innocuous question is of central importance to the philosophy of law and by extension of the very concept of law itself It advances a position grounded in the secular natural law tradition and in doing so addresses the two success criteria for this position head on Firstly that commitment to the existence of a supreme moral principle is required Secondly that any supreme moral principle must be identifiable through human reason The book argues that these conditions are met by Alan Gewirth s Principle of Generic Consistency PGC which through a dialectically necessary argument locates the existence of universally applicable moral norms in the concept of agency Given the very purpose of law is to guide action legal norms must be located in a unified hierarchy of practical reason It follows that if law is to succeed in claiming to be capable of guiding our action moral permissibility with reference to the PGC is a necessary condition of a rule s legal validity This strong theory of natural law is defended throughout both against moral sceptics and positions within contemporary legal positivism

Markets, Morals and Development Wahiduddin Mahmud,2021-10-12 This book presents or rather re presents the intricacies of a developing economy in the light of recent theoretical developments in economics while also providing a fresh perspective on the perceived inadequacies of the discipline in addressing the discontents of the contemporary global economic order The book argues that there is scope for economics to be a more humane discipline and more relevant to contemporary economic problems by embracing new ideas including those from other disciplines It attempts to show how economic concepts and theories can be contextualised to help better understand real life economic phenomena how to rethink the ways in which the market economy can address the moral issues of human wellbeing and social justice and overall how the study of economics and public discourses on economic issues can be made more engaging as well as more relevant to the problems of developing countries Based on public lectures given by the author in Dhaka and using illustrations from Bangladesh India and other countries the book offers an authoritative understanding of diverse economic realities by taking a fresh look at the familiar Comprehensive and accessible the book will be of interest to students and researchers of economics development economics and policy sociology and business studies as well as to journalists public intellectuals and policymakers in developing countries

Moral Combat Heidi Margaret Hurd,1999-03-28 This book explores the thesis that legal roles force people to engage in moral combat an idea which is implicit in the assumption that citizens may be morally required to disobey unjust laws while judges may be morally required to punish citizens for civil disobedience Heidi Hurd advances the surprising argument that the law cannot require us to do what morality forbids The role relative understanding of morality is shown to be incompatible with both

consequentialist and deontological moral philosophies In the end Hurd shows that our best moral theory is one which never makes one actor's moral success turn on another's moral failure *Moral Combat* is a sophisticated well conceived and carefully argued book on a very important and controversial topic at the junction between legal and political philosophy It will be of interest to moral legal and political philosophers as well as teachers and students of professional ethics in law

Morality and Self-Interest Paul Bloomfield, 2008 The relationship between morality and self interest is a perennial one in philosophy For Plato Hobbes Kant Aristotle Hume Machiavelli and Nietzsche it lay at the heart of moral theory This text introduces the topic and looks at its place in philosophical history In the Realm of Legal and Moral Philosophy M. Kramer, 1998-12-06 In this wide ranging investigation of many prominent issues in contemporary legal political and moral philosophy Matthew Kramer combines penetrating critiques with original theorising as he examines the writings of numerous major theorists including Ronald Dworkin H L A Hart Alan Gewirth Ronald Coase and Richard Posner Among the many topics covered by Kramer's essays are the relative merits of legal positivism and natural law theory the appropriate understanding of justice the role of consequences in moral decision making and the ultimate foundations of moral judgements Corporate Ethics for Turbulent Markets Oswald A. J. Mascarenhas, SJ, 2018-10-30 *Corporate Ethics for Turbulent Markets* The Market Context of Executive Decisions focuses on the HOW of doing business the economic social ethical moral and spiritual values we bring to our business ventures and how thereby we impact the world **Autonomy, Authority and Moral**

Responsibility T. May, 2013-03-14 Questions about the relationship between autonomy and authority are raised in nearly every area of moral philosophy Although the most obvious of these is political philosophy especially the philosophy of law the issues surrounding this relationship are by no means confined to this area Indeed as we shall see as this work progresses the issues raised are central to moral psychology religion professional ethics medical ethics and the nature of moral systems generally Although the title of this work is *Autonomy Authority and Moral Responsibility* we shall be concerned with the more general question about the relationship between autonomy or self direction and external influences which I take to be any guide to behavior whose presence content or substance is dependent upon something beyond the control of the agent Something is beyond the control of the agent if the agent cannot determine whether or not it is present what its content consists of or whether or not or in what way it influences her These external influences may include but are not necessarily limited to religious convictions which guide behavior according to a doctrine whose content is established independently of the agent moral obligations which require action in accordance with some moral theory and desires for objects or states of affairs whose presence or absence is beyond the control of the agent Of course external influences may also include the requirements of authority or law **Risks and Wrongs** Jules L. Coleman, 1992-11-27 Jules Coleman discusses the conflict between the goals of justice and economic efficiency in the allocation of risk especially risk pertaining to safety *Law and Economics* Margaret Oppenheimer, Nicholas Mercuro, 2015-06-01 The economic analysis of legal and regulatory issues need

not be limited to the neoclassical economic approach The expert contributors to this work employ a variety of heterodox legal economic theories to address a broad range of legal issues They demonstrate how these various approaches can lead to very different conclusions concerning the role of the law and legal intervention in a wide array of contexts The schools of thought and methodologies represented here include institutional economics new institutional economics socio economics social economics behavioral economics game theory feminist economics Rawlsian economics radical economics Austrian economics and personalist economics The legal and regulatory issues examined include anti trust and competition corporate governance the environment and natural resources land use and property rights unions and collective bargaining welfare benefits work time regulation and standards sexual harassment in the workplace obligations of employers and employees to each other crime torts and even the structure of government Each contributor brings a different emphasis and provides thoughtful sometimes provocative analysis and conclusions Together these heterodox insights will provide valuable supplementary reading for courses in law and economics as well as public policy and business courses at both the graduate and undergraduate levels

Politics and Process Geoffrey Brennan, Loren E. Lomasky, 1989-09-29 This book explores the strengths and weaknesses of democratic institutions

The Limits of Freedom of Contract Michael J. Trebilcock, 1997-03-25 Our legal system is committed to the idea that private markets and the law of contracts that supports them are the primary institutions for allocating goods and services in a modern economy Yet the market paradigm this book argues leaves substantial room for challenge

Law and Economics in Europe Klaus Mathis, 2013-11-11 This anthology illustrates how law and economics is developing in Europe and what opportunities and problems both in general and specific legal fields are associated with this approach within the legal traditions of European countries The first part illuminates the differences in the development and reception of the economic analysis of law in the American Common Law system and in the continental European Civil Law system The second part focuses on the different ways of thinking of lawyers and economists which clash in economic analysis of law The third part is devoted to legal transplants which often accompany the reception of law and economics from the United States Finally the fourth part focuses on the role economic analysis plays in the law of the European Union This anthology with its 14 essays from young European legal scholars is an important milestone in establishing a European law and economics culture and tradition

Legal Positivism in American Jurisprudence Anthony J. Sebok, 1998-10-28 This work represents a serious and philosophically sophisticated guide to modern American legal theory demonstrating that legal positivism has been a misunderstood and underappreciated perspective through most of twentieth century American legal thought
