Marriage Divorce Remarriage Revised And Enlarged Edition Social Trends In The United States:

Marriage, Divorce, Remarriage Andrew J. Cherlin, 1992-09-28 With roller coaster changes in marriage and divorce rates apparently leveling off in the 1980s Andrew Cherlin feels that the time is right for an overall assessment of marital trends His graceful and informal book surveys and explains the latest research on marriage divorce and remarriage since World War II Cherlin presents the facts about family change over the past thirty five years and examines the reasons for the trends that emerge He views the 1950s when Americans were marrying and having children early and divorcing infrequently as the aberration and he discusses why this period was unusual He also explores the causes and consequences of the dramatic changes since 1960 increases in divorce remarriage and cohabitation decreases in fertility that are altering the very definition of the family in our society He concludes with a discussion of the increasing differences in the marital patterns of black and white families over the past few decades

The All-or-Nothing Marriage Eli J. Finkel, 2019-01-08 After years of debate and inquiry the key to a great marriage remained shrouded in mystery Until now Carol Dweck author of *Mindset The New Psychology of Success* Eli J Finkel s insightful and ground breaking investigation of marriage clearly shows that the best marriages today are better than the best marriages of earlier eras Indeed they are the best marriages the world has ever known He presents his findings here for the first time in this lucid inspiring guide to modern marital bliss The All or Nothing Marriage reverse engineers fulfilling marriages from the traditional to the utterly nontraditional and shows how any marriage can be better The primary function of marriage from 1620 to 1850 was food shelter and protection from violence from 1850 to 1965 the purpose revolved around love and companionship But today a new kind of marriage has emerged one oriented toward self discover self esteem and personal growth Finkel combines cutting edge scientific research with practical advice he considers paths to better communication and responsiveness he offers guidance on when to recalibrate our expectations and he even introduces a set of must try lovehacks This is a book for the newlywed to the empty nester for those thinking about getting married or remarried and for anyone looking for illuminating advice that will make a real difference to getting the most out of marriage today

[America Becoming](#) National Research Council, Commission on Behavioral and Social Sciences and Education, 2001-02-23

The 20th Century has been marked by enormous change in terms of how we define race. In large part we have thrown out the antiquated notions of the 1800s giving way to a more realistic sociocultural view of the world. The United States is perhaps more than any other industrialized country distinguished by the size and diversity of its racial and ethnic minority populations. Current trends promise that these features will endure. Fifty years from now there will most likely be no single majority group in the United States. How will we fare as a nation when race-based issues such as immigration, job opportunities, and affirmative action are already so contentious today?

In *America Becoming*, leading scholars and commentators explore past and current trends among African Americans, Hispanics, Asian Americans, and Native Americans in the context of a white majority. This volume presents the most up-to-date findings and analysis on racial and social dynamics with recommendations for ongoing research. It examines compelling issues in the field of race relations including:

- Race and ethnicity in criminal justice
- Demographic and social trends for Hispanics, Asian Americans, and Native Americans
- Trends in minority-owned businesses
- Wealth, welfare, and racial stratification
- Residential segregation and the meaning of neighborhood
- Disparities in educational test scores among races and ethnicities
- Health and development for minority children, adolescents, and adults
- Race and ethnicity in the labor market, including the role of minorities in America's military
- Immigration and the dynamics of race and ethnicity
- The changing meaning of race
- Changing racial attitudes

This collection of papers, compiled and edited by distinguished leaders in the behavioral and social sciences, represents the most current literature in the field. Volume 1 covers demographic trends, immigration, racial attitudes, and the geography of opportunity. Volume 2 deals with the criminal justice system, the labor market, welfare, and health trends. Both books will be of great interest to educators, scholars, researchers, students, social scientists, and policymakers.

[Families](#), 2011 **Families** Shirley A. Hill, 2011-06-30

A brief, impactful book that provides a contemporary analysis of how economics and social class affects the concept of family today. This book focuses on the impact of economic systems and social class on the organization of family life. Since the most vital function of the family is the survival of its members, the author gives primacy to the economic system in structuring the broad parameters of family life. She explains how the economy shapes the prospects families have for earning a decent living by determining the location, nature, and pay associated with work.

Vital and Health Statistics, 1977 **"Why Do I Love These People?"** Po Bronson, 2006-12-26

We all have an imaginary definition of a great family. We imagine what it would be like to belong to such a family. No fights over the holidays. No getting on one another's nerves. Respect for individual identity. Mutual support without being intrusive. So many people believe they are disqualified from having a better family experience primarily

because they compare their own family with the mythic ideal and their reality falls short Is that a fair standard to judge against In the pages of *Why Do I Love These People* Po Bronson takes us on an extraordinary journey It begins on a river in Texas where a mother gets trapped underwater and has to bargain for her own life and that of her kids Then a father and his daughter return to their tiny rice growing village in China hoping to rekindle their love for each other inside the walls of his childhood home Next a son puts forth a riddle asking us to understand what his first experience of God has to do with his Mexican American mother Every step and every family on this journey is real Calling upon his gift for powerful nonfiction narrative and philosophical insight Bronson explores the incredibly complicated feelings that we have for our families Each chapter introduces us to two people a father and his son a daughter and her mother a wife and her husband and we come to know them as intimately as characters in a novel following the story of their relationship as they struggle resiliently through the kinds of hardships all families endure Some of the people manage to save their relationship while others find a better life only after letting the relationship go From their efforts the wisdom in this book emerges We are left feeling emotionally raw but grounded and better prepared to love through both hard times and good time In these twenty mesmerizing stories we discover what is essential and elemental to all families and in doing so slowly abolish the fantasies and fictions we have about those we fight to stay connected to In *Why Do I Love These People* Bronson shows us that we are united by our yearnings and aspirations Family is not our dividing line but our common ground *Population Literature* ,1993 *Same-Sex Marriage* Kathleen Hull,2006-02-16 Kathleen Hull provides an exploration of the cultural practices around same sex marriage as well as the legal battle for recognition She shows how couples use marriage related cultural practices such as public commitment rituals to assert the reality of their commitments despite lack of legal recognition *Population Index* ,1993 Annotated bibliography covering books journal articles working papers and other material on topics in population and demography

Jewish Baby Boomers Chaim I. Waxman,2012-02-01 This book critically analyzes American Jewish baby boomers focusing on the implications of their Jewish identity and identification for the collective American Jewish community Utilizing data obtained from the 1990 National Jewish Population Survey the book begins with a demographic portrait of American Jewish baby boomers Realizing that America's Jews are both a religious and ethnic group a comparison is made with Protestant and Catholic baby boomers as well as other ethnic groups The religious patterns of the Jewish baby boomers and their ethnic patterns are examined in depth and placed within the larger contexts of the modern or post modern character of religion and ethnicity The book's extensive presentation of detailed quantitative data is consistently complemented by qualitative examinations of their communal implications for Jewish continuity and the organized American Jewish community **On the Make** David Grazian,2008-09-15 David Grazian's riveting tour of downtown Philadelphia and its newly bustling nightlife scene reveals the city as an urban playground where everyone dabbles in games of chance and perpetrates elaborate cons Entertainment in the city has evolved into a professional industry replete with set designers stage directors and method

actors whose dazzling illusions tempt even the shrewdest of customers As entertaining and illuminating as the confessional stories it recounts On the Make is a fascinating expos of the smoke and mirrors employed in the city at night
