Heroic Hearts Jennifer J. Popiel,2021-06 Heroic Hearts Sentiment Saints and Authority in Modern France examines how young women authorized by a widespread cultural discourse that privileged public action over love and marriage sought to change the world **The Wholehearted Marriage** Greg Smalley,Shawn Stoevers,2009-06-02 The Wholehearted Marriage offers practical tools for helping couples keep a passionate connection with one another and understand the role their hearts play in their lives Drs Smalley and Stoevers maintain that circumstances such as busy lifestyles differences between spouses personal baggage the loss of a loved one childhood trauma etc trigger reactions that condition us to close up our hearts for protection blocking the flow of love A disengaged protected heart makes it impossible to experience an intimate connected marriage As a result couples drift apart trying to find some version of contentment or they give up altogether and look for

love somewhere else Through their experiences in marriage counseling Drs Smalley and Stoeber discovered that the commonly heard phrase I don't love him/her anymore is merely a camouflaged misunderstanding about what true love is and God's design for it They affirm that love is more than just a feeling and that to have true lasting intimacy couples need to learn to love wholeheartedly

Lifestyle in Siberia and the Russian North Joachim Otto Habeck, 2019-11-25 Lifestyle in Siberia and the Russian North breaks new ground by exploring the concept of lifestyle from a distinctly anthropological perspective Showcasing the collective work of ten experienced scholars in the field the book goes beyond concepts of tradition that have often been the focus of previous research to explain how political economic and technological changes in Russia have created a wide range of new possibilities and constraints in the pursuit of different ways of life Each contribution is drawn from meticulous first hand field research and the authors engage with theoretical questions such as whether and how the concept of lifestyle can be extended beyond its conventionally urban Euro American context and employed in a markedly different setting Lifestyle in Siberia and the Russian North builds on the contributors clear commitment to diversifying the field and providing a novel and intimate insight into this vast and dynamic region This book provides inspiring reading for students and teachers of Anthropology Sociology and Cultural Studies and for anyone interested in Russia and its regions By providing ethnographic case studies it is also a useful basis for teaching anthropological methods and concepts both at graduate and undergraduate level Rigorous and innovative it marks an important contribution to the study of Siberia and the Russian North

Excess and Masculinity in Asian Cultural Productions Kwai-Cheung Lo, 2010-08-04 In Excess and Masculinity in Asian Cultural Productions Kwai Cheung Lo explores the excesses associated with the phenomenal economic growth in East Asia including surplus capital environmental waste and the unbalanced ratio of men to women in the region connecting the production of capitalist excess to the production of new forms of transnational Asian masculinity Lo draws on Lacanian psychoanalysis and Marxist ideas as well as gender theory in his examination of East Asian cultural products such as religious and parenting books transgender literary fantasies travel writing gangster movies female action heroes and online games Through this analysis Lo argues that the excess of Asia's masculine modernization throws into relief the internal inconsistencies of capitalism itself posing new challenges to the

order of global capitalism and suggesting new possible configurations of global modernity

Bronner, 2021-08-11 *Americanness* Inquiries into the Thought and Culture of the United States analyzes several core themes that connect Americans because of and despite their pronounced diversity The book investigates shared ideas and ideals such as individualism mobility materialism and future orientation that drive an overarching American worldview Simon J Bronner begins with ideas of space and time as they formed and changed through the history of the United States before moving to the emergence of modern American culture He examines reasons America is characterized as having a victory culture that extends to the American legal military and business complexes This victory culture is further analyzed by looking at the country's relationship with the game of football a sport that thrives in America but has not caught on in other countries Finally the volume probes American consumerism driven by a desire for individual prosperity in a supposedly egalitarian society Using interdisciplinary approaches drawn from psychology sociology ethnology and history Bronner seeks explanations for people invoking and evoking ideas that they perceive as American This book would be an invaluable addition to courses on American history sociology cultural studies and American studies
