Marriage And Inequality In Classless Societies:

Marriage and Inequality in Classless Societies Jane Fishburne Collier, 1993-02-01 This study presents three ideal typical models for analyzing inequality in kin based non stratified societies that are commonly described as bands tribes or ranked societies but not chiefdoms Each model discusses the organization of inequality associated with a particular way of validating marriages The book is a serious and complex attempt to understand the bases and dynamics of inequality in classless societies It offers a sophisticated argument for the position that there is a culturally structured basis for women's universal subordination An important strength of Collier's theoretical interpretation is that it makes the case for universality of subordination without slipping into biological reductionism

Sacred Marriages Martti Nissinen, Risto Uro, 2008-06-30 The title of this volume Sacred Marriages consciously plays with the traditional concept of sacred marriage but the plural form sacred marriages gives the reader an idea that something more is at stake here than a monomaniacal idea of manifestations deriving from a single prototype Following the guidelines of one of the contributors Ruben Zimmermann the editors tentatively define sacred marriage as a real or symbolic union of two complementary entities imagined as gendered in a religious context Sacred marriages plural then refers to various expressions of this kind of union in different cultures that seek to overcome to cite Zimmermann again the great dualism of human and cosmic existence The subtitle indicates that the contributors are primarily interested in different aspects of the divine human sexual metaphor that is the imagining and reenactment of a gendered relationship between the human and divine worlds This metaphor which is essentially about relationship rather than sexual acts can find textual ritual mythical and social expressions in different times and places Indeed the sacred marriage ritual itself should be considered not a manifestation of the sacralized power of sexuality experienced in sexual intercourse but one way of objectifying the divine human sexual metaphor

Trade before Civilization Johan Ling, Richard J. Chacon, Kristian Kristiansen, 2022-09-15 This volume analyses the relationship between long distance trade and the rise of inequality and social complexity

History, Power, Ideology Donald L. Donham, 2023-09-01 Is Marxism a reflection of the conceptual system it fights against rather than a truly comprehensive approach to human history Drawing on recent work in anthropology history and philosophy Donald Donham confronts this problem in analyzing a radically different social order the former Maale kingdom of southern Ethiopia Unlike capitalist societies wherein inequality is organized by contracts between free individuals in Maale powerful men were thought to beget others through control of biological fertility and material fortune Donham scrutinizes this unusual system of domination in order to sharpen issues in social and cultural theory He concludes that the interpretation of symbols and analysis of historical contingency should be crucial steps in any Marxist investigation The result is a provocative and original re-reading of the Marxist tradition and a spirited defense of its continued vitality and relevance Every once in a while there appears a book that opens up new ways of inquiring into the ways of the world Donald Donham has written such a book The style is quiet and judicious but the effect is

stunning In putting inherited partisan approaches to the test of explaining the realities of Maale society and culture Donham enriches anthropology and imparts new vigor to the analytical Marxian traditions History Power Ideology embodies a major accomplishment From the Foreword Is Marxism a reflection of the conceptual system it fights against rather than a truly comprehensive approach to human history Drawing on recent work in anthropology history and philosophy Donald Donham confronts this problem in analyzing a radically

Getting Justice and Getting Even Sally Engle Merry,1990-05-15

Ordinary Americans often bring family and neighborhood problems to court seeking justice or revenge The litigants in these local squabbles encounter law at its boundaries in the corridors of busy city courthouses in the offices of court clerks and in the church parlors used by mediation programs Getting Justice and Getting Even concerns the legal consciousness of working class Americans and their experiences with court and mediation Following cases into and through the courts Sally Engle Merry provides an ethnographic study of local law and of the people who use it in a New England city The litigants primarily white native born and working class go to court because as part of mainstream America they feel entitled to use its legal system Although neither powerful nor highly educated they expect the law s support when they face intolerable infringements of their rights privacy and safety Yet as personal problems enter the legal system and move through mediation sessions clerk s hearings and prosecutor s conferences the citizen plaintiff rapidly loses control of the process Court officials and mediators interpret and characterize the meaning of these experiences reframing and categorizing them in different discourses Some plaintiffs yield to these interpretations but others resist struggling to assert their own version of the problem Ultimately Merry exposes the paradox of legal entitlement While going to court allows an individual to dominate domestic relationships the litigant must increasingly yield control of the situation to the court that supplies that power

The Real Economy Federico Neiburg,Jane I. Guyer,2020-05-01 This collection highlights a key metaphor in contemporary

discourse about economy and society The contributors explore how references to reality and the real economy are linked both to the utopias of collective well being supported by real monies and good economies and the dystopias of financial bubbles and busts in which people s own lives crash along with the reality of their economies An ambitious anthropology of economy this volume questions how assemblages of vernacular and scientific realizations and enactments of the economy are linked to ideas of truth and moral value how these multiple and shifting realities become present and entangle with historically and socially situated lives and how the formal realizations of the concept of the real in the governance of economies engage with the experiential lives of ordinary people Featuring essays from some of the world s most prominent economic anthropologists *The Real Economy* is a milestone collection in economic anthropology that crosses disciplinary boundaries and adds new life to social studies of the economy

Capturing Women Sarah A. Carter,1997-11-17 Consisting of a series of stories events and episodes the book highlights shifting patterns attitudes and perspectives toward women in the Prairies One of Carter s overarching themes is that women are seldom in a position to invent or project their own images identities or ideas of themselves nor are they free to fully author their own texts Focusing on captivity narratives a popular genre in the United States that has received little attention in Canada Carter looks at depictions of white women as victims of Aboriginal aggressors and explores the veracity of a number of accounts including those of Fanny Kelly and Big Bear captives Theresa Delaney and Theresa Gowanlock Canada s most famous captives Carter also examines depictions of Aboriginal women as sinister and dangerous that appeared in the press as well as in government and some missionary publications These representations of women and the race and gender hierarchies created by them endured in the Canadian West long after the last decades of the nineteenth century *Capturing Women* fits into a growing body of literature on the question of women race and imperialism Carter adopts a colonial framework arguing that while the Prairies do not readily conjure up the powerful images of Empire fundamental features of colonialism are clearly present in the extension of the power of the Canadian state and the maintenance of sharp social economic and spatial distinctions between the dominant and subordinate populations She highlights similarities between images of women on the Prairies and symbols of women in other colonial cultures such as the memsahib in Britain and the Indian captive in the United States

Victims and Warriors Casey High, 2015-03-30 In 1956 a group of Waorani men killed five North American missionaries in Ecuador The event cemented the Waorani s reputation as wild Amazonian Indians in the eyes of the outside world It also added to the myth of the violent Amazon created by colonial writers and still found in academia and the state development agendas across the region *Victims and Warriors* examines contemporary violence in the context of political and economic processes that transcend local events Casey High explores how popular imagery of Amazonian violence has become part of Waorani social memory in oral histories folklore performances and indigenous political activism As Amazonian forms of social memory merge with constructions of masculinity and other intercultural processes the Waorani absorb missionaries oil development and logging depredations into their legacy of revenge killings and narratives of victimhood High shows that these memories of past violence form sites of negotiation and cultural innovation and thus violence comes to constitute a central part of Amazonian sociality identity and memory

Decoding Gender Helga Baitenmann, Victoria Chenaut, Ann Varley, 2007-06-22 Gender discrimination pervades nearly all legal institutions and practices in Latin America The deeper question is how this shapes broader relations of power By examining the relationship between law and gender as it manifests itself in the Mexican legal system the thirteen essays in this volume show how law is produced by but also perpetuates unequal power relations At the same time however authors show how law is often malleable and can provide spaces for negotiation and redress The contributors including political scientists sociologists geographers anthropologists and economists explore these issues not only in courts police stations and prisons but also in rural organizations indigenous communities and families By bringing new interdisciplinary perspectives to issues such as the quality of citizenship and the rule of law in present day Mexico this book raises important issues for research on the relationship between law and gender more widely

Greed Unbound: Official Misdeeds in Political Economies of Kin Groups and Chiefdoms (Volume 1) Eugene L Mendonsa, Ph.D., 2016-02-10 The first volume of *Greed Unbound* is about the ways elites siphoned off value from workers in the early Neolithic farming and herding societies In the broadest terms it highlights the consequences of greed in officialdom the offices of kin groups cults secret societies and chiefdoms Greed in all of these groups has consistently led to severe inequality Prior to the Agricultural Revolution inequality had been held in check being restricted to such things as respect for the elderly and male chauvinism In the mild inequality of the Long Paleolithic no one person or faction could siphon value from the labor of others But all that changed once food was stored in farming societies allowing greedy chiefs to exploit the common people in stark contrast to the egalitarian nature of life before

the development of stored wealth With the change exploitation flourished as did warfare and mystical institutions that functioned to mislead and appease the masses
