Marry Into Danger Mystiques 16:

The China Mystique Karen J. Leong, 2005-07-25 Throughout the history of the United States images of China have populated the American imagination Always in flux these images shift rapidly as they did during the early decades of the twentieth century In this erudite and original study Karen J Leong explores the gendering of American orientalism during the 1930s and 1940s Focusing on three women who were popularly and publicly associated with China Pearl S Buck Anna May Wong and Mayling Soong Leong shows how each negotiated what it meant to be American Chinese American and Chinese against the backdrop of changes in the United States as a national community and as an international power The China Mystique illustrates how each of these women encountered the possibilities as well as the limitations of transnational status in attempting to shape her own opportunities During these two decades each woman enjoyed expanding visibility due to an increasingly global mass culture rising nationalism in Asia the emergence of the United States from the shadows of imperialism to world power and the more assertive participation of women in civic and consumer culture

The Freudian Mystique Samuel Slipp, 1995-03 Sigmund Freud was unquestionably one of the most influential thinkers of the twentieth century yet over the last few decades his theory about women has suffered severe criticism from feminists and many psychoanalysts How could this great genius have been so wrong about women In The Freudian Mystique Samuel Slipp a training and supervising analyst offers an explanation of how such a remarkable and revolutionary thinker for his time could formulate such incorrect theories about female development Tracing the gradual evolution of patriarchy and phallocentrism in Western society Slipp examines the stereotyped attitudes toward women that were taken for granted in Victorian culture and strongly influenced Freud's thinking on feminine psychology Of even greater importance was Freud's relationship with his mother who emotionally abandoned him the loss of his nanny and the death of his brother Julius all before the age of three These losses occurred during the separation individuation phase disrupting the normal differentiation from his mother and consolidation of his gender identity Slipp examines not only Freud's preoedipal but also the continuing postoedipal conflicts with his mother from both an object relations and family therapy perspective He shows how Freud's unconscious ambivalence toward his mother influenced his personal relationships with women and shaped his theory of child development Freud emphasized the role of the father and the oedipal period while excluding the mother and the preoedipal and postoedipal periods Not limited to one perspective The Freudian Mystique analyzes how the entire contextual framework of his family relations anti-Semitism politics economics science and culture affected Freud's work in feminine psychology The book not only looks backward but also looks forward to formulating a modern biopsychosocial framework for female gender development

Sex, Gender, and Christian Ethics Lisa Sowle Cahill, 1996-08-28 This book endorses feminist critiques of gender yet upholds the insight of traditional Christianity that sex commitment and parenthood are fulfilling human relations Their unity is a positive ideal though not an absolute norm Women and men should enjoy equal personal respect and social power In reply to feminist critics of oppressive gender and sex norms and to communitarian proponents of Christian morality Cahill argues that effective intercultural criticism of injustice requires a modest defence of moral objectivity She thus adopts a critical realism as its moral foundation drawing on Aristotle and Aquinas Moral judgment should be based on reasonable practical prudent and cross culturally nuanced reflection on human experience This is combined with a New Testament model of community centred on solidarity compassion and inclusion of the economically or socially marginalised

Murder on the Reservation Ray B. Browne, 2004-06-30 In *Murder on the Reservation* Ray B Browne surveys the work of several of the best known writers of crime fiction involving Indian characters and references virtually every book that qualifies as an Indian related mystery Browne believes that within the genre of crime fiction all people are equal and the increasing role of Indian characters in criminal fiction proves what an important role this genre plays as a powerful democratizing force in American society He endeavors to both analyze and evaluate the individual work of the authors and at the same time provide a commentary on the various attitudes towards race relations in the United States that each author presents Some Indian fiction is intended to right the wrongs the authors feel have been leveled against Indians Other authors use Indian lore and Indian locales as exotic elements and locations for the entertaining and commercially successful stories they want to write Browne's analysis includes authors and works of all backgrounds with mysteries of first class murder both on and off the reservation

Negotiating Risk Alison Shaw, 2009 Drawing on fieldwork with British Pakistani clients of a UK genetics service this book explores the personal and social implications of a genetic diagnosis Through case material and comparative discussion the book identifies practical ethical dilemmas raised by new genetic knowledge and shows how while being shaped by culture these issues also cross cut differences of culture religion and ethnicity The book also demonstrates how identifying a population level elevated risk of genetic disorders in an ethnic minority population can reinforce existing social divisions and cultural stereotypes The book addresses questions about the relationship between genetic risk and clinical

practice that will be relevant to health workers and policy makers
