**Living Martyrs in Late Antiquity and Beyond** Diane Fruchtman, 2023-02-01 This book demonstrates that living martyrdom was an important spiritual aspiration in the late antique Latin west and argues that consequently attempts to define study or locate martyrdom must move away from conceptualizations that require or center on death After an introduction that traces the persistence of living martyrs as real objects of spiritual devotion and emulation across the span of Christian history and discusses why such martyrs have been overlooked the book focuses on three significant authors from the late ancient Latin west for whom martyrdom did not require death the Spanish poet Prudentius c 348 413 the senator turned ascetic Paulinus of Nola 353 431 and the influential North African bishop Augustine of Hippo 354 430 Through historically and literarily contextualized close readings of their work this book shows that each of these three authors attempted to create a new paradigm of martyrdom focused on living rather than dying for God By focusing on these living martyrs we are able to see more clearly the aspirations and agendas of those who promoted them as martyrs and how their martyrological discourse illuminates the variety of ways that martyrdom is and can be mobilized in any era to construct new community creating worldviews *Living Martyrs in Late Antiquity and Beyond* is an important resource for historians of Christianity scholars of religious studies and anyone interested in exploring or understanding martyrological discourse The Introduction of this book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com) It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

*The Making of the New Martyrs of Russia* Karin Christensen, 2017-10-02 Following the end of the Soviet Union the Russian Orthodox Church has canonized a great number of Russian saints Whereas in the first millennium of Russian Christianity 988 1988 the Church recognized merely 300 Russian saints the number had grown to more than 2 000 by 2006 This book explores the remarkable phenomenon of

new Russian martyrdom It outlines the process of canonization examines how saints are venerated and relates all this to the ways in which the Russian state and its people have chosen to remember the Soviet Union and commemorate the victims of its purges The book includes in depth case studies of particular saints and examines the diverse ways in which they are venerated The Martyrdom of the Franciscans Christopher MacEvitt, 2020-03-06 A study of three hundred years of medieval Franciscan history that focuses on martyrdom While hagiographies tell of Christian martyrs who have died in an astonishing number of ways and places slain by members of many different groups martyrdom in a Franciscan context generally meant death at Muslim hands indeed in Franciscan discourse death by Saracen came to rival or even surpass other definitions of what made a martyr The centrality of Islam to Franciscan conceptions of martyrdom becomes even more apparent and problematic when we realize that many of the martyr narratives were largely invented Franciscan authors were free to choose the antagonist they wanted Christopher MacEvitt observes and they almost always chose Muslims However martyrdom in Franciscan accounts rarely leads to conversion of the infidel nor is it accompanied as is so often the case in earlier hagiographical accounts by any miraculous manifestation If the importance of preaching to infidels was written into the official Franciscan Rule of Order the Order did not demonstrate much interest in conversion and the primary efforts of friars in Muslim lands were devoted to preaching not to the native populations but to the Latin Christians mercenaries merchants and captives living there Franciscan attitudes toward conversion and martyrdom changed dramatically in the beginning of the fourteenth century however when accounts of the martyrdom of four Franciscans said to have died while preaching in India were written The speed with which the accounts of their martyrdom spread had less to do with the world beyond Christendom than with ecclesiastical affairs within MacEvitt contends The Martyrdom of the Franciscans shows how for Franciscans martyrdom accounts could at once offer veiled critique of papal policies toward the Order a substitute for the rigorous pursuit of poverty and a symbolic way to overcome Islam by denying Muslims the solace of conversion **Glory of the Martyrs** Gregorius, 1988 Contains a series of anecdotes about the lives and cults of Christians who suffered and usually died for their beliefs These anecdotes provide important historical evidence first for the ways bishops and their congregations manipulated traditions about the development of the early Church and second for the contemporary functions and meanings of the cults of saints during the sixth century The spontaneity and literary modesty of many of the anecdotes make them especially valuable for modern historians intent upon understanding the early Frankish Church In addition to the translation this volume includes an introduction and commentary The introduction summarizes essential information about the chronology composition and purposes of the Glory of the Martyrs and also discusses other relevant topics such as the role of these anecdotes in the celebration of the liturgy and the contrast between rusticity and correct behaviours and belief The commentary provides only basic identifications dates background and references to other secondary scholarly literature
