Maru Killer War Patrols Of The Ww Ii Submarine Seahorse:

Maru Killer Dave Bouslog,2001 *Surface and Destroy* Michael Sturma,2011-03-25 World War II submariners rarely experienced anything as exhilarating or horrifying as the surface gun attack Between the ocean floor and the rolling whitecaps above submarines patrolled a dark abyss in a fusion of silence shadows and steel firing around eleven thousand torpedoes sinking Japanese men of war and more than one thousand merchant ships But the anonymity and simplicity of the stealthy torpedo attack hid the savagery of warfare a stark difference from the brutality of the surface gun maneuver As the submarine shot through the surface of the water confined sailors scrambled through the hatches armed with large caliber guns and met the enemy face to face *Surface and Destroy The Submarine Gun War in the Pacific* reveals the nature of submarine warfare in the Pacific Ocean during World War II and investigates the challenges of facing the enemy on the surface The surface battle amplified the realities of war bringing submariners into close contact with survivors and potential prisoners of war As Japan s larger ships disappeared from the Pacific theater American submarines turned their attention to smaller craft such as patrol boats schooners sampans and junks Some officers refused to attack enemy vessels of questionable value while others attacked reluctantly and tried to minimize casualties Michael Sturma focuses on the submariners reactions and attitudes toward their victims exploring the sailors personal standards of morality and their ability to wage total war *Surface and Destroy* is a thorough analysis of the submariner experience and the effects of surface attacks on the war in the Pacific offering a compelling study of the battles that became intolerably personal *The Submariner's Dictionary Or Submariner's Compendium of Terms & Tar's Handbook of Naval Verbiage and Retired Guy's Re-familiarization Manual* Ron Martini,2005 Submariners are a tight knit group of men bound together by training and experience and with a language all their own That language is perhaps a little vulgar but never intentionally demeaning and a little irreverent but still worldly This work is an attempt to preserve and explain some of these curious guys who so proudly wear a shiny metal pin that looks like a strange pair of fish on their left breast This process of accumulating this new language begins in Boot Camp and is added to with every change of duty station the sailor undergoes It is heard aboard the boats and unknowingly by family members who can t understand terms like head deck and overhead and who think SOS is a distress signal **Crash Dive** Larry Bond,2011-03-29 They are the ultimate unseen deterrent in modern warfare Thousands of tons of steel missiles torpedoes and men lurking silently hundreds of feet underwater able to lie off any coastline and unleash a devastating hail of destruction with pinpoint accuracy They are the true masters of the oceans striking swift and unseen before slipping away ready to do it all over again at a moment s notice Submarines and their crews have long held a revered place in the military with a special place of honor reserved for those men who willingly seal themselves in what could amount to a nuclear powered coffin for months on end Although the submarine is a relatively recent development in the field of warfare many of the men who live and fight in these steel fish have already become legends Edited by bestselling author Larry Bond *Crash*

Divecollects the best nonfiction writing about these near silent killers of the deep and their crews From the toughGatoclass boats that harassed the Japanese Navy during World War II to the cat and mouse games played by U S and Soviet submarines during the Cold War Crash Divewill take you inside the deep and deadly world of the military submarine *USS Pampanito* Gregory F Michno,2016-01-12 Most World War II submarine stories are glorifications of war written by submarine captains about their own boats But the USS Pampanito was not a typical submarine The sub and its crew caused plenty of destruction but they found the pinnacle of their honor and fame in a dramatic sea rescue Gregory F Michno relates the experiences of the crewmen both enlisted men and officers who served on the USS Pampanito The Pampanito story begins with the boat s construction in 1943 continues through its six combat missions and concludes with its decommissioning after the war in 1945 The heart of the book is the September 12 1944 attack on a Japanese convoy carrying English and Australian POWs from the Burma Siam Railway of Bridge on the River Kwai fame to prison camps in Japan The Pampanito helped sink two of the prison ships unwittingly killing hundreds of Allied soldiers but then returned to rescue the survivors The crew picked a record seventy three men from the sea **Maru Killer** Dave Bouslog,1996 **Patrol Area 14** Dave Lotz,2018-01-05 As the war in the Pacific progressed the role of the US submarines evolved to meet the challenges confronting the United States Navy in the Western Pacific This story is vividly portrayed in Patrol Area 14 and details the exploits of the US submarines in one specific patrol area of the Pacific Ocean the waters of the Mariana Islands whose control became essential to victory in the Pacific for the United States and defeat for Japan Patrol Area 14 describes the submarine patrols from solitary patrols beginning in 1942 to aggressively patrolling the offshore waters to bold approaches to harbor entrances to sinking ships within sight of the islands in spite of determined Japanese air and sea anti submarine efforts and supporting the US invasions of the islands in 1944 Death on the Hellships Gregory F Michno,2016-07-15 Now available in paperback Death on the Hellships chronicles the true dimensions of the Allied POW experience at sea It is a disturbing story many believe the Bataan Death March even pales by comparison Survivors describe their ordeal in the Japanese hellships as the absolute worst experience of their captivity Crammed by the thousands into the holds of the ships moved from island to island and put to work they endured all the horrors of the prison camps magnified tenfold Gregory Michno draws on American British Australian and Dutch POW accounts as well as Japanese convoy histories declassified radio intelligence reports and a wealth of archival sources to present a detailed picture of the horror **The Bravest Man** William Tuohy,2009-03-04 There s no margin for mistakes in submarines You re either alive or dead Richard O Kane Hailed as the ace of aces captain Richard O Kane winner of the Congressional Medal of Honor for his consummate skill and heroism as a submarine skipper sank more enemy ships and saved more downed fliers than anyone else Now Pulitzer Prize winning author William Tuohy captures all the danger the terror and the pulse pounding action of undersea combat as he chronicles O Kane s wartime career from his valiant service as executive officer under Wahoo skipper Dudley Mush Morton to his

electrifying patrols as commander of the USS Tang and his incredible escape with eight other survivors after Tang was sunk by its own defective torpedo Above all The Bravest Man is the dramatic story of mavericks who broke the rules and set the pace to become a new breed of hunter killer submariners who waged a unique brand of warfare These undersea warriors would blaze their own path to victory and transform the Silent Service into the deadliest fighting force in the Pacific *Hot Straight and Normal* Ron Martini,2001 *Hot Straight and Normal* is a submarine bibliography with over 6000 references to books videos articles and Internet sources It is designed to assist reseachers historians students teachers collectors and others with an interest in submarines their history construction and use in wars worldwide It s unique format of listing the books by title will assists the researcher and casual reader alike in finding or searching for familiar words and subjects Fiction book titles are also included Each listing contains title author date published publisher page count ISBN number and other informative descriptions if known This is the only submarine bibliography currently in publication The article index includes all articles in all issues of Naval Submarine League s Submarine Review and Naval Institute s Naval Proceedings magazine There are Web sites and other Internet sources listed and even information on obtaining more information through the Freedom of Information Act Also included is how to find materials inside government archives Collected and edited by a former U S submariner and member of U S Submarine Veterans Inc Presumed Lost Stephen Moore,2009-10-01 When submarines failed to return to port from patrol they were officially listed by the Navy as overdue and presumed lost Loved ones were notified by the War Department that their siblings spouses and sons were missing in action and presumed lost While 52 U S submarines were sunk in the Pacific the Japanese took prisoners of war from the survivors of only seven of these lost submarines Presumed Lost is the compelling story of the final patrols of those seven submarines and the long captivity of the survivors Of the 196 sailors taken prisoner 158 would survive the horrors of the POW camps where torture starvation and slave labor were common This is the most complete and accurate record of their captivity experiences ever compiled Author Stephen L Moore draws on personal interviews with the survivors as well as on diaries family archives and POW statements to reveal new details and correct longstanding errors in previously published accounts Moore s research brought to light the following facts Most crewmen from USS Perch endured 1 298 days of captivity without their families ever being told that they were still alive The Perch and USS Grenadier were so badly damaged by enemy depth charge attacks that their crews were forced to scuttle their ships USS Sculpin and USS S 44 went down fighting with only forty two men from the Sculpin being taken prisoner and half of them perishing on the way to Japan USS Tang and USS Tullibee victims of their own faulty circling torpedoes had few survivors five of whom managed to escape from the sunken burning Tang when it was 180 feet below the ocean surface As many as six men survived the loss of USS Robalo after it struck a mine off Palawan but none of those survived the prison camps The book includes dozens of rare photos of the POWs many of which have never before been published Appendices include final muster rolls of the seven submarines and a complete list of the U

S submariners who were held as POWs with details of their various camps of internment *American Book Publishing Record*, 1996-09 **Forthcoming Books** Rose Army, 2002-02 Wahoo Richard O'Kane, 2009-11-11 The career of the USS Wahoo in sinking Japanese ships in the farthest reaches of the Empire is legendary in submarine circles Christened three months after Pearl Harbor Wahoo was commanded by the astonishing Dudley W Mush Morton whose originality and daring new techniques led to results unprecedented in naval history among them successful down the throat barrage against an attacking Japanese destroyer voracious surface running gun attacks and the sinking of a four ship convoy in one day Wahoo took the war to Japan's front porch and Morton became known as the Navy's most aggressive and successful sea raider Now in a new quality paperback edition her full story is told by the person most qualified to tell it her executive officer Richard O Kane who went on to become the leading submarine captain of the Second World War Praise for Wahoo The accounts of the patrols are spine tingling both in triumph and tragedy It is a tale of great courage brilliant leadership and daring innovation in a new type of submarine warfare fought largely on the surface in waters closely controlled by the enemy Well written a gripping story for anybody with a love of the sea or adventure in submarine combat Naval War College Review This is an exceptional story of American men who rose to the occasion time and again under dangerous circumstance Abilene Reporter News A first hand and first rate narrative told by the former executive officer of this legendary WWII submarine which gives readers an intimate feel for life aboard the boats that helped beat the odds in the battles of the Pacific and put Japan on the defensive Sea Power Like Clear the Bridge Richard O Kane's bestselling account of the Tang's 33 confirmed sinkings Wahoo is a rousing authentic war adventure that could well become a classic of its type crackling with the tensions boredom and occasional exhilaration of submarine life under the Pacific O Kane is a superb storyteller and his credentials are impeccable Springfield Sunday Republic Subs on the Hunt Richard Sheffield, 2009-05-12 On December 7 1941 the order was issued to the U S Navy EXECUTE UNRESTRICTED AIR AND SUBMARINE WARFARE AGAINST JAPAN On that order the subs flooded out of Pearl Harbor and towards the Japanese Empire Those that returned came back with tales of unbelievable heroism hard won victory crushing defeats faulty equipment deadly mistakes unexpected humor and haunting decisions Starting with the story of the brave little S 44 It was very questionable as to whether or not she would even survive the crossing to Japanese waters Despite the fact that she left a continuous oil slick wherever she went she carried the fight to the enemy and sunk the 8800 ton Kato the first Japanese warship to be sunk by a lone submarine Continuing with stories from the Silversides Wahoo Trigger Harder Bowfin and finishing with all five war patrols of the unmatched Tang here are all the details and insights straight from the men who fought the battles **U.S.S. Wahoo (SS-238)** J. T. McDaniel, 2005 The American fleet type submarine may well have been the single most effective naval weapon of World War II While the submarine forces never made up more than 2% of the Navy submarines sank more than half of all Japanese tonnage sunk during the war in the Pacific One of the most successful boats Wahoo was credited with sinking 20 enemy ships for a total of

60 038 tons This volume contains the complete text of the official reports submitted by her two commanding officers Marvin G Kennedy and Dudley W Morton Also includes an Introduction notes and other additional material including an article on the problems with the Mark 14 torpedo which were to prove so frustrating for Wahoo during her sixth war patrol **Red Scorpion** Peter Sasgen,2012-04-15 The USS Rasher had an extraordinary record in World War II she sank 18 enemy ships and destroyed 99 901 tons the second highest tonnage of the war Her fifth war patrol is the stuff of legends In August 1944 during a single night surface attack on a Japanese convoy off the Philippines she sank the escort carrier Taiyo and three marus and later during that same patrol she sank another ship Reading more like a novel than an operational history this book covers all aspects of the Rasher s combat history in a way that both the general reader and veteran submariner will appreciate Author Peter Sasgen is the son of a Rasher crew member and from his father s perspective he follows the sub from the builder s way through eight action packed patrols to war s end His richly detailed descriptions of submarine operations include lively commentary by former shipmates and excerpts from patrol reports along with a close examination of patrol procedures communications life guarding and other topics rarely covered in such detail Sasgen also explores the essence of submarine combat aggressive leadership and its role in the Rasher s success Unrestricted Warfare James F. DeRose,2008-04-21 Unrestricted Warfare reveals the dramatic story of the harsh baptism by fire faced by U S submarine commanders in World War II The first skippers went to battle hamstrung by conservative peacetime training and plagued by defective torpedoes Drawing extensively from now declassified files Japanese archives and the testimony of surviving veterans James DeRose has written a fascinating account of the men and vessels responsible for the only successful submarine campaign of the war They clearly charted a new course to victory in the Pacific ADVANCE PRAISE FOR UNRESTRICTED WARFARE James DeRose has done an excellent job surprisingly so in view of his lack of true WWII submarine experience He obviously contacted everyone he could find who served on one of the three boats he concentrated on and he read as well everything he could find that was written about them DeRose shines by his interpretation of events as the Japanese must have seen them His reconstruction of how Wahoo came to her end may well be pretty close to correct He does the same with Tang CAPTAIN EDWARD L BEACH USN author of Submarine and Run Silent Run Deep An outstanding addition to the literature of the Silent Service The depth of research is wonderful This is fine history that rivals Blair s Silent Victory PAUL CROZIER sitemaster Legends of the Deep www warfish com Web site on the USS Wahoo I knew all of the book s main characters quite well I am also completely familiar with submarine operations in the Pacific With that background I couldn t fail to thoroughly enjoy DeRose s book It is well written and has the right feel CHESTER W NIMITZ JR rear admiral USN Ret Sail with American submariners into tightly guarded Japanese home waters undergo the horror of a depth charge attack experience the thrill of victory with some of the U S Navy s ace submarine skippers All this and much more is contained in James F DeRose s compelling Unrestricted Warfare No one interested in the naval side of World War II should

be without it NATHAN MILLER author of War at Sea A Naval History of World War II **Battle Surface!** Stephen L. Moore, 2011 To tell Parche's dramatic story author Stephen Moore draws on recently discovered wartime diaries and interviews with dozens of the boat's crew who add rich detail to the official record Through them Moore takes readers beneath the surface exposing them to the horrors of torpedo and depth charge attacks as well as the stress of wartime patrols in the Pacific The only book to focus exclusively on Parche and the incredible Red Ramage it offers a rare up close look at the war record of the legendary World War II submarine whose conning tower and periscopes are on permanent display at Pearl Harbor Book jacket *Dark is the Harbor* Jeweldeen "Deen" Brown, RMCM (SS), USN Ret., 2024-05-18

What would motivate men to seek out what may have been the most dangerous branch of the service By the end of the war over 3 500 submariners over to 23 percent of the force never returned from their missions fifty two World War II submarines are still on patrol The enlisted men had even fewer benefits from this choice of military service But they sought out a place on the boats out of desire to perform a meaningful useful military task in a front line position where there was a very high likelihood that would not come back Jeweldeen Deen Brown was one of these men that started out his career as a battleship sailor who became captivated by submarines after visiting the S boats stationed at San Diego as he waited for transport to Pearl Harbor and his first assignment onboard the battleship USS Nevada When he arrived days after the Japanese attack one of his first sight was of the Nevada decks awash sunk in the harbor by Japanese torpedo bombers Unable to report to his assigned duty station Brown convinced a harried personnel officer to reassign him to the submarine base where his skills as a radioman were immediately put to use From the Subbase radio shack to submarine relief crew then he eventually made it onboard the USS Trout SS 202 where he served as one of the radiomen for eight war patrols Brown's first war patrol on the Trout was in support of the Doolittle Raid on Tokyo where two submarines provided weather and logistics information to the attacking fleet After that the Trout participated in the Battle of Midway numerous battles and several special missions to Japanese occupied Philippines landing men and materials and rescuing escaped P O W's Brown was on scene for surface attacks against enemy coastal shipping and torpedo attacks against ships as large as aircraft carriers and as rare as an enemy submarine His tales contain scenes of both hostile aggression against Japanese warships as well as exceptional humanity towards rescued Japanese shipwrecked sailors He related these experiences with the energy detail and authenticity that only an on scene observer could Stephen Leal Jackson was privileged to work with Mr Brown to edit research and source verify his stories A skilled researcher Jackson's doctoral dissertation was on the characterization of African American sailors in submarine themed American films A veteran of the United States Navy Jackson spent eight years in the submarine force serving on the USS Los Angeles SSN 688 and the USS Florida SSBN 728 This shared experience along with Jackson's training as an historical researcher facilitated understanding and explaining the enlisted man's experiences in the World War II American submarine service
