Massimo M. Augello

Marx Schumpeter And Keynes A Centenary Celebration Of Dissent:

Marx, Schumpeter, & Keynes Suzanne Wiggins Helburn, David F. Bramhall, 1986 Starting with the Victorian age this study moves through the shifting power of US Protestantism and Catholicism into an intense period of immigration and pluralism Later chapters include the Jewish experience African American religion evangelical movements and 20th century religious thought

Marx, Schumpeter and Keynes Suzanne W. Helburn, David F. Bramhall, 1986-01-01

Marx, Schumpeter, and Keynes Suzanne Wiggins Helburn, David F. Bramhall, 1986

Neoclassical Economic Theory, 1870 to 1930 Klaus Hennings, Warren J. Samuels, 2012-12-06 Warren J Samuels Each book in this series explores the present status of its field in terms of where it is how it got there the existing tensions within the field and something of how the field might develop in the future Each book presumes that work in each field is neither settled nor unequivocal Each book attempts to comprehend its field as an evolving developmental process or set of efforts This particular book covering neoclassical economics is the third of three in the field of the History of Economic Thought The others are Pre Classical Economic Thought edited by S Todd Lowry and Classical Political Economy edited by William O Thweatt Each one conducts the same kind of analysis as the others in the series with the understanding that here we are dealing with the history of interpretation rather than a substantive body of analysis of a certain aspect of the economy for example labor or international trade That understanding must be complex and subtle inasmuch as revision of interpretation of earlier ideas is part of the process both cause and consequence of re-analyzing the economy In this group we are interested in how recent and contemporary writers have interpreted the history of economic thought differently both among themselves and from earlier writers

1 NEOCLASSICAL ECONOMIC THEORY 2 Several topics must be discussed to place such work in perspective in part as it is here applied to the history of the interpretation of neoclassical economics

Keynes' General Theory Thomas Cate, 2012-01-01 This volume a collection of essays by internationally known experts in the area of the history of economic thought and of the economics of Keynes and macroeconomics in particular is designed to celebrate the 75th anniversary of the publication of *The General Theory* The essays contained in this volume are divided into four sections The first section contains three essays that explore the concept of fundamental uncertainty and its unique role in *The General Theory* The second section contains five essays that examine the place of *The General Theory* in the history of macroeconomics since 1936 The third section contains three essays that explore the interrelationships among Keynes Friedman Kaldor Marx and Sraffa and their approaches to macroeconomic theory and policy The final section contains four essays that provide several new interpretations of *The General Theory* and its position within macroeconomics Keynes's *General Theory* is intended for those students and scholars who are interested in the economics of Keynes and the rich variety of approaches to macroeconomic theory and policy

Revolutionary Subjectivity in Post-Marxist Thought Oliver Harrison, 2016-04-08 Since the onset of the Global Financial Crisis the ideas of Karl Marx have once again become prominent in social and political

thought This book turns to Marx's theory of revolutionary subjectivity as a means of assessing the work of three contemporary global theorists Ernesto Laclau Antonio Negri and Alain Badiou considered here together for the first time

Joseph Alois SCHUMPETER Massimo M. Augello, 2012-12-06 This book is the outcome of a bibliographical research and historical analysis of the evolution of the international literature on J A Schumpeter The research has been carried out in the last few years with the organizational support of the International Joseph A Schumpeter Society and through the establishment of connections with libraries universities and research institutes throughout the world Schumpeter's papers at the Harvard University archives have also been scrutinized The volume includes a historical and critical assessment of the literature on the Austrian economist according to the most important and specific Schumpeterian categories biography methodology development money cycle sociology politics and history The book is characterized by the completeness and richness of its information and by the homogeneous treatment of all the possible sources which could have provided news on Schumpeter Besides Europe and the US the research has been extended to the USSR Latin America Eastern Europe and above all to Japan where the Schumpeterian tradition is very deep rooted

Guerrillas of Desire Kevin Van Meter, 2017-05-22 Few have approached radical theory with the rigor and skill of Kevin Van Meter Empowering lucid and inspiring Guerrillas of Desire provides an exhaustive and much needed retooling of anarchism that will align the dreams of becoming revolutionaries with the reality of everyday resistance Alexander Reid Ross author of Against the Fascist Creep Looking for the political in the everyday and bringing anarchism into a productive dialogue with Autonomist Marxism Kevin Van Meter challenges many of the left's usual assumptions and forces a reconsideration of what we mean by struggle Kristian Williams author of Our Enemies in Blue Behind the smiling faces of cashiers wait staff and workers of all sorts a war is being planned usually without the knowledge of official political and labor organizations Guerrillas of Desire begins with a provocation The Left is wrong It's historical and current strategies are too often based on the assumption that working and poor people are unorganized acquiescent to systems of domination or simply uninterested in building a new world The fact is as C L R James has noted they are rebelling every day in ways of their own invention pilfering sabotaging faking illnesses squatting fleeing and counter strategizing Kevin Van Meter maps these undercurrents illustrating that everyday resistance is an important factor in revolution and something radicals of all stripes must understand Kevin Van Meter is an activist scholar based in the Pacific Northwest He is coeditor of Uses of a Whirlwind Movement Movements and Contemporary Radical Currents in the United States

Profitability and the Great Recession Ascension Mejorado, Manuel Roman, 2013-10-23 From the mid 1980s investors in the US increasingly directed capital towards the financial sector at the expense of non financial sectors lured by the perception of higher profits This flow of capital inflated asset prices creating the stock market and housing bubbles which burst when the imbalance between stagnant incomes and rising debts triggered the banking meltdown Profitability and the Great Recession analyses these trends in profitability and capital accumulation which the

authors identify as the root cause of the financial crisis in the context of the US and other major OECD countries Drawing on insights from Adam Smith David Ricardo John Stuart Mill and Karl Marx the authors interpret the relationship between capital accumulation and profitability trends through the conceptual lens of classical political economy The book provides extensive empirical evidence of declining rates of US non financial corporate accumulations from the mid 1960s and profitability trends in that sector falling from post war highs In contrast to this it is shown that there was a vigorous rise of profitability in the financial sector from a 1982 trough to the early part of the twenty first century which led to the bloating of that sector The authors conclude that the long term falling accumulation trend in the non financial corporate sector highlighted by the bankruptcy of major automobile corporations stands out as the underlying force that transformed the financial crisis into a fully fledged Great Recession This book will be of interest to students and researchers in the areas of economics political economy business and finance

Heterodox Macroeconomics Jonathan P. Goldstein, Michael G. Hillard, 2009-06-02 This book focuses on an integrated heterodox approach to the original contributions of Keynes Marx and early institutionalists featuring an international set of authors from the US the UK Japan and Korea

Keynes and the Neoclassical Synthesis Dario Togati, 1998-08-20 This book is a critical assessment of the Neoclassical Synthesis long regarded as the standard interpretation of Keynes It offers a fresh interpretation of Keynes and makes an important contribution to post Keynesian economics

Revitalizing Marxist Theory for Today's Capitalism Paul Zarembka, Radhika Desai, 2011-11-07 Amidst a capitalist crisis that has upturned mainstream orthodoxies this title underscores the importance of historical and materialist understandings of capitalist economies It exposes the limitations of neoclassical economics endogenous growth theory and how it in fact gropes for understandings well established within Marxism

Routledge Handbook of Marxian Economics David M. Brennan, David Kristjanson-Gural, Catherine P. Mulder, Erik K. Olsen, 2017-03-16 Most developed economies are characterized by high levels of inequality and an inability to provide stability or opportunity for many of their citizens Mainstream economics has proven to be of little assistance in addressing these systemic failures and this has led both scholars and students to seek alternatives One such alternative is provided by Marxian economics In recent decades the field has seen tremendous theoretical development and Marxian perspectives have begun to appear in public discourse in unprecedented ways This handbook contains thirty seven original essays from a wide range of leading international scholars recognized for their expertise in different areas of Marxian economics Its scope is broad ranging from contributions on familiar Marxist concepts such as value theory the labor process accumulation crisis and socialism to others not always associated with the Marxian canon like feminism ecology international migration and epistemology This breadth of coverage reflects the development of Marxian economic and social theory and encompasses both the history and the frontiers of current scholarship This handbook provides an extensive statement of the current shape and future direction of Marxian economics The Routledge Handbook of Marxian Economics is an invaluable resource for students researchers and

policy makers seeking guidance in this field It is designed to serve both as a reference work and as a supplementary text for classroom use with applications for courses in economics sociology political science management anthropology development studies philosophy and history

Constructivism and International Relations Stefano Guzzini, Anna Leander, 2005-12-12 This book addresses both Wendt's social theory and international relations theory exploring a variety of constructivist debates without reducing constructivism to one single position

Macroeconomics William Mitchell, L. Randall Wray, Martin Watts, 2019-02-08 This groundbreaking new core textbook encourages students to take a more critical approach to the prevalent assumptions around the subject of macroeconomics by comparing and contrasting heterodox and orthodox approaches to theory and policy The first such textbook to develop a heterodox model from the ground up it is based on the principles of Modern Monetary Theory (MMT) as derived from the theories of Keynes Kalecki Veblen Marx and Minsky amongst others The internationally respected author team offer appropriate fiscal and monetary policy recommendations explaining how the poor economic performance of most of the wealthy capitalist countries over recent decades could have been avoided and delivering a well reasoned practical and philosophical argument for the heterodox MMT approach being advocated The book is suitable for both introductory and intermediate courses offering a thorough overview of the basics and valuable historical context while covering everything needed for more advanced courses Issues are explained conceptually with the more technical mathematical material in chapter appendices offering greater flexibility of use Accompanying online resources for this title can be found at bloomsburyonlineresources.com/mitchell/macroeconomics These resources are designed to support teaching and learning when using this textbook and are available at no extra cost

Marxian Reproduction Schema Andrew Trigg, 2006-04-18 In this book Andrew Trigg relates Marx's reproduction schema to Keynes's multiplier Leontieff's input output analysis Domar's growth model and Kalecki's principle in the process offering intriguing and innovative clarifications

Dynamism, Rivalry, and the Surplus Economy János Kornai, 2013-11-06 In *Dynamism Rivalry and the Surplus Economy* János Kornai examines capitalism as an economic system and in comparison to socialism Kornai explains his view of capitalism as an economy of surplus a chronic excess of supply of goods and labor This environment breeds rivalry among producers which in turn encourages innovation Socialism on the other hand is defined by a shortage of goods and labor and excess of demand Whereas socialism is slothful and imitative capitalism is dynamic and progressive The two essays of this book will explore these differing ideologies on macro and micro levels ending with definitive explanations of how the systems work and how they develop

John Maynard Keynes, Critical Assessment John Cunningham Wood, 1994

Reforming Capitalism for the Common Good Whalen, Charles J., 2022-08-23 In this book of carefully selected essays Charles Whalen presents constructive analyses of vital economic problems confronting the United States since the 1970s giving special attention to challenges facing working families The analyses are grounded in Whalen's career of more than three decades during which he has gleaned insight from institutional and post Keynesian economics and

contributed to national economic policy making equitable regional development and worker engagement in business decisions The result is a compelling case for reforming capitalism by addressing workers interests as an integral part of the common good and for reconstructing economics in the direction of post Keynesian institutionalism *Economic Thought Since Keynes* Michel Beaud,Gilles Dostaler,2005-09-27 *Economic Thought Since Keynes* provides a concise overview of changing economic thought in the latter part of the twentieth century Offering a concise biography of 150 influential economists since Keynes it is an invaluable reference tool
