Marxism And History:

Marxism and History Stephen Henry Rigby, 1987 Marx's theory of history is often regarded as the most enduring and fruitful aspect of his intellectual legacy. His historical materialism has been the inspiration for some of the best historical writing in the works of scholars such as Eric Hobsbawm, E. P. Thompson, Rodney Hilton and Robert Brenner. S. H. Rigby establishes Marx's claims about social structure and historical change, discusses their use in his own and his followers' writings, and assesses the validity of his theories. He argues that Marx's social theories were profoundly contradictory and that Marxism has proved most useful when it is seen as a source of questions, concepts and hypotheses rather than as a philosophy of historical development.

Marxism and History Matt Perry, 2021 This textbook examines Marxism's enormous impact on the way historians approach their subject. Tackling current historiographical questions in an accessible way, the author offers a clear introduction to Marxist views of history, key Marxist historians and thinkers, and the relevance of Marxist theory and history to students' own work. This is a concise, thorough overview of an important area of historiography. The second edition incorporates significant new developments in research, including Marxist contributions to the emergence of global, maritime and transnational history; the discovery of Marx's ecologism and the historical critique of fossil capitalism as a source of environmental disaster; a reassessment of gender oppression through social reproduction theory; and the contribution of Marxism to debates on race, Eurocentrism and whiteness.

Reflections on the Marxist theory of history Paul Blackledge, 2013-07-19 A decade after Francis Fukuyama announced the End of History, anti-capitalist demonstrators at Seattle and elsewhere have helped reinvigorate the Left with the reply: another world is possible. More than anyone else, it was Marx who showed that slogans such as this were no utopian fantasies and that capitalism was just as much a historical mode of production, no more natural and certainly no less contradictory than were the feudal and slave modes which preceded it. Paul Blackledge opens this study with a defence of the Marxist approach to the study of history against what he argues as being the naive empiricism of traditional historians and the relativism of the postmodernists. He moves on to outline Marx and Engels' analyses of concrete historical processes and their critiques of the alternative historiographic methodologies of their contemporaries. He then discusses neglected historical works produced by Marxists in the half century or so after Marx and Engels' deaths. Two central chapters survey recent Marxist debates on first the nature of modes of production, including slave, feudal and tributary systems, and the revolutionary transitions between them; and second the methodological debate over the issue of structure and agency in the movement of history. Finally, he shows the political relevance of these debates through a concluding survey of competing Marxist attempts to periodise the present postmodern conjuncture. This book should be read by historians, students of cultural, social and political theory, and anti-capitalist activists.

Marxist Historiographies Q. Edward Wang, Georg G. Iggers, 2015-07-16 Marxist Historiographies is the first book to examine the ebb and flow of Marxist historiography from a global and cross-cultural perspective. Since the eighteenth century

few schools of historical thought have exerted a more lasting impact than Marxism and this impact extends far beyond the Western world within which it is most commonly analysed Edited by two highly respected authors in the field this book deals with the effect of Marxism on historical writings not only in parts of Europe where it originated but also in countries and regions in Africa Asia North and South America and the Middle East Rather than presenting the chapters geographically it is structured with respect to how Marxist influence was shown in the works of historians in a particular area This title takes a dual approach to the subject some chapters are national in scope addressing the Marxist impact on historical practices within a country whereas others deal with the varied expressions of Marxist historiography throughout a wider region Taking a truly global perspective on this topic Marxist Historiographies demonstrates clearly the breadth and depth of Marxism s influence in historical writing throughout the world and is essential reading for all students of historiography **Marxism and**

& History D. Ross Gandy, 2014-05-23 Gandy has attempted a much needed reinterpretation of Marx's theory of history one that everything considered deserves the reader's attention American Political Science Review In this book Karl Marx's observations on history which are found scattered throughout his voluminous writings are brought together and subjected to searching analysis in refreshingly direct language without jargon For the first time we have a thoughtful assessment of Marx's views on all the epochs that cross his historical vision D Ross Gandy treats Marx's ideas on primitive societies on ancient Roman and Asiatic civilization on the structure of feudalism on strategies for overthrowing capitalism and on the hypothetical communist future Among the author's departures from traditional readings of Marx are his interpretations of class struggle his conception of social strata and his cogent analysis of the new Marxism Since many aspects of Marxist historical theory have been neglected or distorted Gandy's remarkably clear commentary based on extensive research including an exhaustive study of the forty volume Marx Engels Werke will doubtless stimulate debate among sociologists and other students of social change political scientists and historians

Marxism and Literary History John Frow, 1986 John Frow's book is a novel contribution to Marxist literary theory proposing a reconciliation of formalism and historicism in order to establish the basis for a new literary history Through a critique of his forerunners in Marxist theory the historicist Marxism of Lukács the work of Macherey Eagleton and Jameson Frow seeks to define the strengths and the limitations of this tradition and then to extend its possibilities in a radical reworking of the concept of discourse He develops the notion of literature as a historically specific system within a network of discourses Frow goes on to elaborate a number of central theoretical categories and to explore the historical dimension of those categories Drawing in particular on Russian Formalism he develops a theory of the dynamics of literary change and of the historical pressures that shape the literary system He tests and extends his categories through readings of texts by Petronius Herderlin DeLillo Dickens Frank Hardy and others The final chapter a reading of Derrida and Foucault poses the question of the possibility of setting limits to reading and the power of limits to determine literary history

Reconstructing Marxism Erik Olin Wright, Andrew Levine, Elliott Sober, 1992 Reconstructing Marxism explores fundamental questions about the structure of Marxist theory and its prospects for the future The authors maintain that the disintegration of the old theoretical unity of classical Marxism is in part responsible for what is commonly called the crisis of Marxism Only a reconstructed Marxism can come to terms with this disintegration Addressing a range of problems in historical materialism and class analysis the authors compare historical materialism with Darwinian evolutionary theory and identify what is distinctively historical in Marx's theory of history Through an evaluation of G A Cohen's defense and Anthony Giddens's critique of historical materialism they suggest what a plausible yet still Marxist theory of history might be They analyze the relationship of microanalysis to macro theory and the assignment of causal primacy in explanations and

present a general assessment of the current state of Marxist theory and the prospects for its analytical reconstruction Distinguished by the clarity of its presentation the analytical rigour of its argument and its concern with fundamental philosophical and sociological issues **Reconstructing Marxism** advances at this critical juncture in the history of Marxism a challenging new research programme **Marxism, History, and Intellectuals** Suman Gupta, 2000 This study focuses on that area of revolutionary socialist philosophy which is devoted to conceiving the intellectual and allocating or refusing to do so a role to the intellectual in the revolutionary process and state Through an examination of the intellectual's role the author tries to reach an understanding of the connotations and pragmatics of transformative socialism in our time Primarily this study is a survey and reexamination of the constructions of and attitudes toward intellectuals in different revolutionary socialist philosophies with particular reference to the corresponding theories of history that are implicit therein The actual process of reconceptualizing transformative socialism in our context and in the light of the above reexamination is taken up toward the end of the book in a more or less polemical fashion
