Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982 *The Crisis of Capitalism in the Contemporary Novel* Andrew Rowcroft,2024-02-16 This book explores the role of radical ideas in contemporary fiction by nine critically acclaimed authors Jonathan Lethem Dana Spiotta China Mieville Thomas Pynchon Rachel Kushner Teddy Wayne Colson Whitehead Jacqueline Woodson and Kim Stanley Robinson All of them share interests in the politics of the left the problems of protracted economic crisis and the potentiality of post capitalist ideas Novels by these authors this book argues are defined by an imperative to confront current anxieties in left thought while at the same time evincing a nuanced degree of self consciousness about the legacy of political radicalisms the costs they accrue and where they have led The Dialectic of Herbert Marcuse Patrick Gamsby,2024-09-05 Herbert Marcuse 1898 1979 was one of the most recognizable and controversial public intellectuals throughout the 1960s until his death in the late 1970s but today Marcuse s work largely stands in the shadows of other Frankfurt School members and critical thinkers Despite having once held a prominent and influential position amongst scholars activists and readers in the twentieth century it is argued that Marcuse s work nevertheless remains largely misunderstood The Dialectic of Herbert Marcuse offers a new interpretation of Marcuse one that attempts to show how Marcuse s work has so often been turned into something else into its opposite In shining a light on parts of the unknown Marcuse through the use of archival material and published works this book reveals Marcuse s Critical Theory to be one of hope not one of pessimism as it is so often portrayed to be Ultimately it is argued that Marcuse s Critical Theory remains a vital and important body of work for present day society and ought to be revisited Jameson and Literature Jarrad Cogle,2020-09-01 This book demonstrates how Fredric Jameson s understanding of the novel form has heavily influenced his work as a critical theorist It contends that Jameson s idiosyncratic engagements with the literary canon have had a major impact on his theoretical frameworks particularly in his sense of historical change The book investigates Jameson s predominant literary interests in chapters focusing on realism modernism postmodernism and genre fiction These readings provide fresh perspectives on Jameson s career ones that look beyond his most famous contributions to cultural theory and interpretive practice Through this work the book also rethinks the criticism that has surrounded Jameson while suggesting ways in which his literary interpretation remains useful for contemporary reading practices **Blues, Ideology, and Afro-American Literature** Houston A. Baker,2013-11-22 Relating the blues to American social and literary history and to Afro American expressive culture Houston A Baker Jr offers the basis for a broader study of American culture at its vernacular level He shows how the blues voice and its economic undertones are both central to the American narrative and characteristic of the Afro American way of telling it The Politics of Voice Malini Johar Schueller,1992-01-01 This book is an analysis of the social criticism and the political implications of rhetorical strategies in personal political nonfictional narratives by liberal American writers from the 18th century till the 1970s Using the theories of Mikhail Bakhtin Schueller

Colin Danby, 2017-06-26 Why do critics and celebrants of globalization concur that international trade and finance represent an inexorable globe bestriding force with a single logic *The Known Economy* shows that both camps rest on the same ideas about how the world is scaled Two centuries ago romantic and rationalist theorists concurred that the world was divided into discrete nations moving at different rates toward a modernity split between love and money Though differing over whether this history is tragedy or triumph they united in projecting an empty international space in which a Moloch like global capitalism could lurk *The Known Economy* tracks the colonial development of national accounting and re-examines the ways gender and heteronormativity are built in to economic representation It re-interprets the post WWII spread of standardized economic statistics as the project of international organizations looking over the shoulders of national governments rather than the expanding power of national governments over populations **The Rhetorical Power of Children's Literature**

John H. Saunders, 2016-12-21 *The Rhetorical Power of Children's Literature* is an edited volume with contributions from established and new scholars of rhetoric offering case studies that analyze a full array of genres in children's literature from picture books to young adult novels Collectively this volume's contributions interrogate how children's literature is a powerful yet under-examined space of rhetorical discourse that influences one of the most vulnerable segments of our population This book is singularly unique given that it will be the first collection of essays on children's literature from the distinct perspective of the field of Communication Beyond topical novelty the contributors utilize a range of scholarly methods to analyze instances of the rhetoric of children's literature Consequently essays in this volume may be read for both

their specific topical content and as exemplars for multiple methodological approaches to the study of the rhetoric of children's literature. Collectively the contributors set out to contribute to our knowledge of how instances of children's literature operate as rhetorical discourses. The volume is organized by case studies approached through critical rhetorical lenses that analyze specific instances of children's literature from two distinct stages of children's developmental reading experiences including pre-early literacy and fluent reading. Structurally the book includes eight content chapters divided evenly with four chapters analyzing books for young children and four chapters analyzing books targeting audiences from late childhood to adolescence. An overview of each content chapter accompanies this proposal.
