James Agee and the Legend of Himself Alan Spiegel, 1998 James Agee s literary reputation has grown enormously since his death in 1955 He wrote novels short stories poetry film criticism screenplays and investigative journalism but these accomplishments earned him only a modest public reputation during his brief life Ironically Agee s greatest recognition as a writer came posthumously when his novel A Death in the Family won the Pulitzer Prize In James Agee and the Legend of Himself Alan Spiegel examines these accomplishments and treats Agee not simply as a celebrity journalist or Depression writer but as a self interrogating literary artist who created a homemade legend from his earliest family memories sifting his experience through an automythology composed of his mother his father and himself

Hollywood As Historian Peter C. Rollins, 2014-07-11 Motion picture images have influenced the American mind since the earliest days of film and many thoughtful people are becoming ever more concerned about that influence as about the pervasive influence of television In eras of economic instability and international conflict the film industry has not hesitated to use motion pictures for definite propaganda purposes During less troubled times the American citizen s ability to deal with political and social issues has been enhanced or thwarted by images absorbed in the nation s theatres Hollywood As Historian tracks the interaction of Americans with important motion picture productions Considered are such topics as racial and sexual stereotyping censorship of films comedy as a tool for social criticism the influence of great men and their screen images and the use of film to interpret history Opportunities for future study are suggested for those who wish to conduct their own examinations of American film in a cultural context Hollywood As Historian benefits from a variety of approaches Literary and historical influences are carefully related to The Birth of a Nation 1915 and Apocalypse Now 1979 two highly tendentious epics of war and cultural change How political beliefs of filmmakers affected cinematic styles is illuminated in a short survey of documentary films made during the Great Depression Historical distance has helped analysts to decode messages unintended by filmmakers in the study of The Snake Pit 1948 and Dr Strangelove 1964 While pluralism of approach has been encouraged balance has also been a goal a concern for institutional and thematic considerations never obscures matters of film aesthetics In twelve chapters dealing with more than sixteen films Hollywood As Historian offers a versatile

text for classes in popular culture American studies film history or film as history The visual awareness promoted by this text has immediate application in that students can begin to consider the impact of motion pictures and television on their own lives The films considered The Birth of a Nation 1915 The Plow that Broke the Plains 1936 The River 1937 March of Time 1935 1953 City Lights 1931 Modern Times 1936 The Great Dictator 1940 The Grapes of Wrath 1940 Native Land 1942 Wilson 1944 The Negro Soldier 1944 The Snake Pit 1948 On the Waterfront 1954 Dr Strangelove 1964 Who's Afraid of Virginia Woolf 1966 and Apocalypse Now 1979 **Hollywood's New Yorker** Marc Raymond, 2013-04-01 A fresh look at the director's career **Hitchcock** Robert E. Kapsis, 2022-02-21 From the beginning of his career Alfred Hitchcock wanted to be considered an artist Although his thrillers were immensely popular and Hitchcock himself courted reviewers he was for many years regarded as no more than a master craftsman By the 1960s though critics began calling him an artist of unique vision and gifts What happened to make Hitchcock's reputation as a true innovator and singular talent Through a close examination of Hitchcock's personal papers scripts production notes publicity files correspondence and hundreds of British and American reviews Robert Kapsis here traces Hitchcock's changing critical fortunes Vertigo for instance was considered a flawed film when first released today it is viewed by many as the signal achievement of a great director According to Kapsis this dramatic change occurred because the making of the Hitchcock legend was not solely dependent on the quality of his films Rather his elevation to artist was caused by a successful blending of self promotion sponsorship by prominent members of the film community and most important changes in critical theory which for the first time allowed for the idea of director as auteur Kapsis also examines the careers of several other filmmakers who like Hitchcock have managed to cross the line that separates craftsman from artist and shows how Hitchcock's legacy and reputation shed light on the way contemporary reputations are made In a chapter about Brian De Palma the most renowned thriller director since Hitchcock Kapsis explores how Hitchcock's legacy has affected contemporary work in and criticism of the thriller genre Filled with fascinating anecdotes and intriguing excerpts and augmented by interviews with Hitchcock's associates this thoroughly documented and engagingly written book will appeal to scholars and film enthusiasts alike Required reading for Hitchcock scholars scrupulously researched invaluable material for those who continue to ask what made the master tick Anthony Perkins

Filming Shakespeare's Plays Anthony Davies, 1990-06-29 Shakespeare's plays provide wonderfully challenging material for the film maker While acknowledging that dramatic experiences for theatre and cinema audiences are significantly different this book reveals some of the special qualities of cinema's dramatic language in the film adaptations of Shakespeare's plays by four directors Laurence Olivier Orson Welles Peter Brook and Akira Kurosawa each of whom has a distinctly different approach to a film representation Davies begins his study with a comparison of theatrical and cinematic space showing that the dramatic resources of cinema are essentially spatial The central chapters focus on Laurence Olivier's Henry V Hamlet and Richard III Orson Welles Macbeth Othello and Chimes at Midnight Peter Brook's King Lear and Akira

Kurosawa's *Throne of Blood* Davies discusses the dramatic problems posed by the source plays for these films for the film maker and he examines how these films influenced later theatrical stagings He concludes with an examination of the demands that distinguish the work of the Shakespearean stage actor from that of his counterpart in film *American Studies* Jack Salzman, American Studies Association, 1986-08-29 A major three volume bibliography including an additional supplement of an annotated listing of American Studies monographs published between 1900 and 1988 *The Celluloid Atlantic* Saverio Giovacchini, 2025-02-01 Offers a fresh look at American and Italian cinema in the postwar period The Celluloid Atlantic changes the way we look at American and Italian cinema in the postwar period In the thirty years following World War II American and Italian film industries came to be an integrated transnational unit rather than two separate nation based entities Written in jargon free prose and based on previously unexplored archival sources this book revisits the history of Neorealism World War II combat cinema the Western all Italiana and the career of John Kitzmiller the African American star who made Italy his home and was the first person of color to win the Best Actor Award at the Cannes Film Festival The Celluloid Atlantic makes the trailblazing argument that culturally hybrid genres like the so called spaghetti Western were less the exceptions than the norm Giovacchini argues that the waning of the Celluloid Atlantic in the early 1970s was due to the economic policies of the first Nixon administration specifically its important but largely neglected Revenue Act of 1971 as well as to the ideological debates between Europeans and Americans that intensified during the American intervention in Vietnam
