Personalities Of Language:

World of Words Gary Jennings,1984-01-01 Personality Traits in Online Communication Barrie Gunter,2019-06-07

Authoritative and illuminating this book demonstrates how we reveal the secrets of our character through the disclosures we make about ourselves in the online world The author expertly explores whether online information about people derived from their search patterns personal detail disclosures and the language they use when posting text are all related to their personalities The Internet era has given rise to an enormous explosion of data that is refreshed daily on a massive scale The growth of online social network sites has created opportunities for more and more people to reveal intimate details about themselves and their lives While some of these disclosures are consciously made other more subtle forms of person profiling can be produced by examining patterns in our online behavior and the language we use in our online posts As this book will show techniques have been developed which enable researchers to build detailed personality profiles of people without their awareness by examining online behaviour and psycholinguistic analysis Establishing how unlocking the full potential of big data is dependent on having the right analytical tools that can be applied speedily and cost effectively on a massive scale the author also asks how powerful these methods are and can they really be used to influence us in the way their critics fear and proponents claim Explaining how we reveal the secrets of our character through the disclosures we make about ourselves in the online world this is fascinating reading for students and academics in psychology linguistics computer science and related areas *Digital Personality* Kuldeep Singh Kaswan,Jagjit Singh Dhatteerwal,Anand Nayyar,2024-08-30 A computer that imbibes human characteristics is considered to have a digital personality The character is akin to real life human with his her distinguishing characteristics such as history morality beliefs abilities looks and sociocultural embeddings It also contains stable personality characteristics fluctuating emotional cognitive SOAR technology and motivational states Digital Personality focuses on the creation of systems and interfaces that can observe sense predict adapt to affect comprehend or simulate the following character based on behavior and situation behavior based on character and situation or situation based on character and behavior Character sensing and profiling character aware adaptive systems and artificial characters are the three primary subfields in digital personality Digital Personality has attracted the interest of academics from a wide range of disciplines including psychology human computer interaction and character modeling It is expected to expand quickly as technology and computer systems become more and more intertwined into our daily lives Digital Personality is expected to draw at least as much attention as Affective Computing The goal of affective computing is to enable computers to comprehend both spoken and nonverbal messages from people use implicit body language gaze speech tones and facial expressions etc to infer the emotional state and then reply appropriately or even show affect through interaction modalities More natural and seamless human computer connection would be the larger objective Users will benefit from a more individualized experience as a result Additionally this will affect how well the user performs since they will have the

assistance of the robots to do their jobs quickly and effectively This book provides an overview of the character dimensions and how technology is aiding this area of study It offers a fresh portrayal of character from several angles It also discusses the applications of this new field of study *International Academic Staff* Kendall Richards,Nick Pilcher,Gyung Sook Jane Lee,2024-05-28 This book focuses on the experiences of international academic staff in higher education particularly examining the influences of issues such as languages cultures and personalities The qualitative approach taken by the authors provides vignettes of varied international contexts which are then compared and analysed to highlight important considerations for practice in different settings By exploring the experiences of staff teaching within a language that is not their first language and in a different cultural context the authors contribute to a burgeoning area of research and scholars working on Applied Linguistics Higher Education English as a Medium of Instruction and other aspects of

Africa C. de Ridder,2013-11-05 First Published in 1998 This is Volume VI of thirteen in the Urban and Regional Sociology series Written in 1953 this text is a thematic apperception test study which presents the results of some six years research into the urban African personality as it has evolved in the major industrial area of the Union of South Africa is an attempt to bridge this gap between opinions and facts Personalities of Language Gary Jennings,1967 Advances in Personality

Psychology Andrzej Elias,Professor and Chair of the Temperament and Ecological Bases of Personality Development Unit at the Institute of Psychology Andrzej Elias,Sarah E. Hampson,Boele de Raad,2006-01-16 The second volume in the Advances in Personality Psychology series this book presents an authoritative collection of works by leading experts in the field It focuses on three of the major issues in personality psychology personality affect and arousal personality and intelligence and personality structure The first part of the book seeks to analyse cognitive biases dependent on anxiety and the biological foundations of thought and action It also looks at the influence of temperamental traits on reaction to traumatic events In the second part contributions consider the mutual relations between personality and intelligence the similarities and differences between personality and intelligence and the cognitive mechanisms of human intelligence and personality The final part analyses personality structure across cultures and presents a model of personality relevant to situational descriptions All the authors are experienced and renowned experts in the field of personality psychology The volume incorporates critical reviews bringing the reader up to date with key issues and unique data from contemporary empirical research projects reflecting the diversity and vigour of current work on personality psychology **The Praeger Handbook of Personality across**

Cultures A. Timothy Church Ph.D.,2017-07-14 This important multivolume work sheds light on current and future research on cultural universals and differences in personality in their evolutionary ecological and cultural contexts How does culture impact personality traits To answer that question the three volumes in this set address current theory and research on culture and personality in an effort to determine how people differ and how they are alike Detailed chapters by scholars from

around the world unveil a fascinating picture of the relationship between culture and important aspects of personality. They also address the accuracy or meaningfulness of trait comparisons across cultures and the methods and limitations of research on the subject. As most psychological research is conducted on participants from Western industrialized countries, a work that includes a wide range of cultures not only fosters a more complete understanding of human personality but also broadens perspectives on value systems and ways to live. Each of the three volumes concentrates on distinct areas of research, exposing the reader to the diverse theoretical and empirical approaches and topics in the field. Volume 1 focuses on the cross-cultural study of personality dispositions or traits. Volume 2 examines the relationship between culture and other important aspects of personality, including the self, emotions, motives, values, beliefs, and life narratives, as well as aspects of personality and adjustment associated with biculturalism and intercultural competence. Volume 3 looks at evolutionary, genetic, and neuroscience perspectives on personality across cultures, along with ecological and cultural influences. In addition to providing readers with a thorough analysis of current and future directions for research, this unrivaled work brings together multiple perspectives on personality across cultures, thereby promoting a more integrative understanding of this important topic.

Acquisition and Variation in World Englishes Mirjam Schmalz, Manuela Vida-Mannl, Sarah Buschfeld, Thorsten Brato, 2023-12-04. This book is the first of its kind to provide an integrative look at World Englishes, second language acquisition, and sociolinguistics in a variety of contexts of English around the globe, with a focus on the language of children and adolescents. It thus aims to bridge the paradigm gaps that have been identified between these approaches but have rarely been explored in greater detail. The range of topics includes the areas of first and second language acquisition, sociolinguistic variation, and awareness, language use and choice, family language policies, language attitudes, and perception, modelling children's and adolescents' language in World Englishes, the role of child language acquisition in processes of language change, as well as methodologies of eliciting speech and writing from children and adolescents. The book combines qualitative and quantitative approaches and draws on psycholinguistic, corpus linguistic, and ethnographic methodologies. What unites the contributions to the volume is that they all address the theoretical implications that a joint approach between World Englishes, sociolinguistics, and language acquisition has, i.e., why it is fruitful and how it can contribute to a deeper understanding of the different research paradigms.

Crossing Cultural Borders Concha Delgado-Gaitan, Henry Trueba, 2022-11-16. *Crossing Cultural Borders* (1991) examines the day-to-day interaction of immigrant children with adults, siblings, and peers in the home, school, and community at large, as these families demonstrate their skill in using their culture to survive in a new society. Children of Mexican and Central American immigrant families in Secoya crossed a national border and continue to cross linguistic, social, and cultural borders that separate the home, school, and outside world.

The Developing Structure of Temperament and Personality From Infancy To Adulthood Charles F. Halverson, Jr., Gedolph A. Kohnstamm, Roy P. Martin, Charles F. Halverson, Gedolph A. Kohnstamm, 2014-05-12. This book is

the first to bring together researchers in individual differences in personality and temperament to explore whether there is any unity possible between the temperament researchers of infancy and childhood and the major researchers in adult personality. Prior to the workshop which resulted in this volume the existing literature seemed to document a growing consensus on the part of the adult personality researchers that five major personality dimensions the Big Five might be sufficient to account for most of the important variances in adult individual differences in personality. In contrast to this accord the literature on child and infant individual differences seemed to offer a wide variety of opinions regarding the basic dimensions of difference in personality or temperament. The editors believed that they could encourage researchers from both the adult and child areas to consider the importance of a lifespan conceptualization of individual differences by discussing their research in terms of a continuity approach. Written by some of the most distinguished scholars from Great Britain, continental Western Europe and Eastern Europe as well as the United States and Canada the chapters present a cross cultural view of both adult personality and temperament in infancy and childhood. By sharing their recent data techniques and theoretical speculations the chapter authors communicate the research enthusiasm engendered by the growing consensus of the adult Big Five as well as the exciting prospects of an integrative program of research from infancy to adulthood that will clarify and consolidate what is now a disparate set of methods, theory and findings across the lifespan. The editors suggest that this volume will have considerable heuristic value in stimulating researchers to conceptualize their work in developmental lifespan approaches that will lead to a consolidation of individual differences research at every age.

Romania, 1960 Practical Considerations for Preventing Police Suicide Olivia Johnson, Konstantinos

Papazoglou, John Violanti, Joseph Pascarella, 2021-11-24 This book takes an in depth look at the phenomenon of police officer suicide. Centered on statistical information collected from cases of officer suicide from 2017 to 2019 this volume helps readers understand the circumstances surrounding death by suicide amongst law enforcement personnel and makes recommendations for identification and prevention. Through interview and case presentations this volume examines the lives and last days and weeks of several officers using findings from social media, departmental surveys, medical examiner reports, toxicology reports and interviews with loved ones and colleagues to create a psychological autopsy. With 14 chapters contributed by former law enforcement researchers and mental health professionals it addresses national, state and local policy implications and strategies presenting a theory for better understanding and preventing the phenomenon of officer suicide. This volume will be of interest to researchers in policing, to law enforcement and first responder leadership and administrative professionals and to mental health practitioners and clinicians working with this unique population.

Personality Traits Gerald Matthews, Ian J. Deary, Martha C. Whiteman, 2009-10-29 This essential textbook examines what personality traits are, how they influence human behaviour and the applications of personality assessment. *The Five-Factor Model of Personality Across Cultures* Robert R. McCrae, Juri Allik, 2012-12-06 ROBERT R MCCRAE it is simply

personality research conducted in different countries The implicit assumption behind this practice is that personality processes are universal and where they are studied is thus of no consequence An insensitivity to cultural context once imputed mostly to Americans now appears to characterize the field worldwide Fortunately recent years have also seen a rise of interest in studies of personality and culture Church 2001 Church Lee McCauley McCrae 2000 What do these new studies show Are personality processes indeed universal or are there significant variations across cultures that necessitate a more nuanced approach to research There is as yet no definitive answer to that question In some respects human personality does seem to transcend the boundaries of language and culture in other respects it is profoundly influenced by social and historical forces Sorting these issues out must be a priority for our field if we are to understand the current personality literature

Being Bilingual Safder Alladina,1995 An attempt to present issues of bilingualism to the bilingual families themselves so that although psycho and socio linguistically sound this book is straightforward and populist in style The text argues for families to maintain their mother tongues and suggests strategies for doing so at home and with schools
