Power In Business And The State:

Power in Business and the State Frank Bealey, 2002-11-01 It is commonplace that political power is becoming more centralized and remote faceless people sometimes in unknown places determine our circumstances and our opportunities This ground breaking book argues that this happened through a slow development which began before globalization Power in Business and the State queries our freedom to make our own history Current circumstances may be so far from our own choosing that our history is now being made for us rather than something we control ourselves Political power is so centralized and economic power so concentrated that popular control of democratic government has become increasingly difficult The sheer magnitude of the author s research underpinning this book and the uncluttered methodological framework in which it is presented provides a highly readable text Reforming the State Without Changing the Model of Power?

Anton Oleinik, 2013-10-18 This book places administrative reform in post socialist countries in a broad context of power and domination This new perspective clarifies the reasons why reforms went awry in Russia and some other post Soviet countries whereas they produced positive outcomes in the Baltic States and most East European countries The contributors analyse the idea that administrative reform cannot produce sustainable changes in the organization of the state apparatus as long as it does not touch the underpinning model of power and domination Using an interdisciplinary and comparative approach the essays combine elements of philosophy sociology political science and economics including a wealth of primary and secondary data surveys in depth interviews with state representatives and participant observation The book focuses on Russia and analyses recent developments in this country by the way of comparison with the experience of carrying out administrative reform in Ukraine Bulgaria Poland Germany and North America This book was published as a special issue of the Journal of Communist Studies and Transition Politics **Reports of Cases Argued and Decided in the Supreme**
