May,2002-09-01 This volume is intended as a companion to the study of Cicero s oratory and rhetoric for both students and experts in the field for the neophyte it provides a starting point for the veteran Ciceronian scholar a place

for renewing the dialogue about issues concerning Ciceronian oratory and rhetoric for all a site of engagement at various levels with Ciceronian scholarship and bibliography The book is arranged along roughly chronological lines and covers most aspects of Cicero's oratory and rhetoric The particular strength of this companion resides in the individual often very original approach to sundry topics by an array of impressive contributors all of whom have spent large portions of their careers concentrating upon the oratorical and rhetorical oeuvre of Cicero A bibliography of relevant items from the past 25 years keyed to specific Ciceronian works completes the volume Brill's Companion to Cicero will become the standard reference work on Cicero for many years

Cicero, Rhetoric, and Empire C. E. W. Steel, 2002-03-07 Cicero manipulated issues relevant to Rome's possession of an empire provincial extortion access to citizenship and the distribution of military commands in an important group of speeches the Verrines de imperio Cn Pompei pro Archia pro Flacco de provinciis consularibus and pro Balbo C E W Steel examines the speeches rhetorical techniques and aims in detail Cicero's presentation of empire concentrates on the power wielded by individuals at the expense of wider questions of administrative structures Thus the problems which arise in the running of an empire can be presented as the result of personal failings rather than endemic to the structures of government as questions of morality rather than of administration Steel argues that this concept is fundamentally flawed The weakness cannot be explained simply as Cicero's lack of insight but as an inevitable consequence of the uses to which he puts oratory in his political career comparison with his contemporaries shows other leading figures producing much more radical approaches to the problems of empire

Lectiones Secundae Waldo E. Sweet, 1992 A graded reader for second year Latin students Lectiones Secundae features units that include prose poetry and aphorisms or sententiae The scope of Latin literature is represented by inclusions of both well known and lesser known authors

The Ghosts of the Past Basil Dufallo, 2007 The ancient Romans quite literally surrounded themselves with the dead masks of the dead were in the atria of their houses funerals paraded through their main marketplace and tombs lined the roads leading into and out of the city In Roman literature as well the dead occupy a prominent place indicating a close and complex relationship between literature and society The evocation of the dead in the Latin authors of the first century BCE both responds and contributes to changing socio political conditions during the transition from the Republic to the Empire To understand the literary life of the Roman dead The Ghosts of the Past develops a new perspective on Latin literature's interaction with Roman culture Drawing on the insights of sociology anthropology and performance theory Basil Dufallo argues that authors of the late Republic and early Principate engage strategically with Roman behaviors centered on the dead and their world in order to address urgent political and social concerns Republican literature exploits this context for the ends of political competition among the clan based Roman elite while early imperial literature seeks to restage the republican practices for a reformed Augustan society Calling into question boundaries of genre and literary form Dufallo's study will revise current understandings of Latin literature as a cultural and performance practice Works as diverse as Cicero

s speeches Propertian elegy Horace s epodes and satires and Vergil s Aeneid appear in a new light as performed texts interacting with other kinds of cultural performance from which they might otherwise seem isolated **Cicero Pro Archia Poeta Oratio 3rd Edition** Steven M. Cerutti, PhD, 2014-06-01 Pro Archia was delivered by Cicero in defense of A Licinius Archias a Greek poet whose eligibility for Roman citizenship was challenged in 62 bce Cicero s emphasis in the speech is on literature s humanizing value
