Real World Of City Politics:

The Real World of Texas Politics Robert Locander, Richard Shaw, Kevin Bailey, 2022-09-20 You may think you know Texas but which one Texas is a land shrouded in myths and so is its politics The Real World of Texas Politics pulls back the veil on those myths and reveals the secrets the elites don't want you to know It lays bare the dual worlds of the Lone Star State the one for the elites and the one for the masses Inspired by the works of political scientist James Lamare the authors argue that the privileged few have used their superior resources to dominate all aspects of the Texas political system from voting and elections to government institutions and policymaking This dominance by the elites has resulted in a subsistence life and limited future for millions of people living in twenty first century Texas The authors are insiders Locander a political scientist Shaw a union leader and Bailey a state representative with a combined ten decade involvement in Texas politics and government But they're also outsiders holding views that don't align with the people in power Rather than placate they seek to scrutinize with a skeptical eye the most pressing issues facing one of America's most important and most populous states They lay bare the crass influence of money and power and provide a roadmap for what Texas can do to get state government working for average Texans The Real World of Texas Politics challenges the economic and political status quo It peels back the myths to expose how the state's leaders both Democrats and Republicans have forsaken the masses to cater to the rich and powerful Reversing this trend takes knowledge and this book offers a hefty dose by taking a hard look at how politics and power really work in the Lone Star State

Planning Irving Horowitz, Francine Rabinovitz, 2017-09-04 This volume discusses some of the factors determining the political impact of the city planner on community decision making Rabinovitz bases her book on case studies of planning decisions in six New Jersey communities that were chosen for reputations of both effective and ineffective planning She also uses a reanalysis of an attitude survey of U S planning directors as well as a synthesis of previous studies The materials are presented comparatively thus enabling the reader to identify major themes in the broad and until now largely uncharted area of the interrelationship of politics and planning The author first discusses the variables that influence the effectiveness of planning She then develops a typology of community political systems in the six cities based on such factors as power distribution values style participation conflict and cohesion and potential for program output The typology of urban political systems is matched by a typology of roles for the planner this leads to a careful examination of the usefulness of different roles in different urban political situations Other variables on which the success of particular roles depends such as the ability to command resources for desired actions the norms of the planning community and the needs of the planner are included Finally the author raises three important questions central to the planner's effectiveness Can success spoil the planner What does the planner contribute to decision making To what extent does political utility determine the planner's benefits or reverses City Politics and Planning not only explores some crucial aspects of the city power structure but also shows the importance of who governs and in addition assesses the impact of community values on the types of policies that the community is likely to adopt As such this volume is invaluable to the students of city planning local government political science and urban sociology as well as of course to the **The New Practical Guide to Canadian Political Economy**

Political Engagement in Canadian City Elections R. Michael McGregor, Laura B. Stephenson, 2024-03-12 Municipal elections in Canada don t look much like those held at the federal and provincial levels A key difference is a significant discrepancy in voter turnout but relatively little is known about why far fewer people vote in city elections Voters show less interest in local government seeing it as less influential than other levels yet they believe their views matter more to local politicians Political Engagement in Canadian City Elections explores this apparent contradiction by asking who participates in politics how they go about it and why Drawing from the Canadian Municipal Election Study a novel survey of electors in eight large cities across the country in 2017 and 2018 contributors consider factors ranging from the universal such as the demographic profile of voters or how economic conditions affect them to the specific for example participation in school board and council elections There are more municipal elections than any other kind in Canada The discoveries in Political Engagement in Canadian City Elections collectively represent a major leap forward in our understanding of voter activity at the community and municipal level
