Realism Today Aspects Of The Contemporary West German Novel

Helen Watanabe-O'Kelly

Realism Today Aspects Of The Contemporary West German Novel:

Realism Today Keith Bullivant, 1987-05 Analyzes the rich body of contemporary German novels and provides fresh insights into a number of particularly controversial works The Cambridge Companion to the Modern German Novel Graham Bartram, 2004-04-05 The Cambridge Companion to the Modern German Novel first published in 2004 provides a broad ranging introduction to the major trends in the development of the German novel from the 1890s to the present Written by an international team of experts it encompasses both modernist and realist traditions and also includes a look back to the roots of the modern novel in the Bildungsroman of the late eighteenth and nineteenth centuries The structure is broadly chronological but thematically focused chapters examine topics such as gender anxiety images of the city war and women's writing within each chapter key works are selected for close attention Unique in its combination of breadth of coverage and detailed analysis of individual works and featuring a chronology and guides to further reading this Companion will be indispensable to students and teachers **Beyond 1989** Keith Bullivant, 1997 With the opening up of the East in the autumn of 1989 claims were being made on the one hand that German literature had never in fact been divided while others were proclaiming the end of East and West German literatures as they had existed and the beginning of a new era **The Oxford Guide to Contemporary World Literature** John Sturrock, 1997 opinion the Guide offers a discriminating and sometimes controversial view of a broad range of contemporary literatures Business Rhetoric in German Novels Ernest Schonfield, 2018 Argues on the evidence of nine major German novels that literature and business have in common a reliance on language understood in a creative performative and rhetorical sense *Poetic Writing and the Vietnam War in West Germany* Mererid Puw Davies, 2023-05-30 In the 1960s and 1970s in the Federal Republic of Germany FRG or West Germany newspaper readers and television viewers were appalled by terrible images of fires burning half a world away The Vietnam War was a decisive catalyst for the era's wider protest movements and gave rise to an ardent anti war discourse This discourse privileged writing in many forms Within it poetry and poetic writing were key and because coverage of the conflict in Vietnam often focused on spectacular destructive conflagrations ignited by hi tech machines of war their dominant trope was fire Hundreds of poems and related writings about Vietnam circulated in the FRG yet they are almost entirely forgotten today *Poetic Writing and the Vietnam War in West Germany* uncovers and explores some of this rich production in order to present a new history of engaged poetic writing in the FRG in the 1960s and 1970s and to draw out distinctive characteristics of wider protest culture In doing so it makes the case for attending to marginal non canonical or neglected literary and cultural forms and for critical thinking about why they might over time have been obscured This book offers too a case study for reflection on the representation of war on ways in which German oppositional culture could imagine its others and the ways in which other voices could speak to it in turn and on the relationship of poetry to the historical world

Visions of Violence Richard Langston, 2008 Nazi Germany's campaign against degenerate art and its persecution of

experimental artists pushed the avant garde in Germany to the brink of extinction This book examines how the avant garde came back after the war reconfiguring its aesthetics in the light of those years **Constructing Authorship in the Work of Günter Grass** Rebecca Braun, 2008-06-26 This book traces a longstanding concern with issues of authorship throughout the work of Günter Grass Germany's best known contemporary writer and public intellectual Through detailed close readings of all of his major literary works from 1970 onwards and careful analysis of his political writings from 1965 to 2005 it argues that Grass's tendency to insert clearly recognisable self images into his literary texts represents a coherent and calculated reaction to his constant exposure in the media led public sphere It underlines the degree of play which has characterised Grass's relationship to this sphere and himself as part of it and explains how a concern with the very concept of authorship has conditioned the way his work as a whole has developed on both thematic and structural levels The major achievement of this study is to develop a new interpretative paradigm for Grass's work It explains for the first time how his playful tendency to manipulate his own authorial image conditions all levels of his texts and is equally manifest in literary and political realms

Encyclopedia of Contemporary German Culture John Sandford, 2013-04-03 Pre and post unification culture Includes Austria and Switzerland Annotated suggestions for further reading English and German language works *The German-speaking Countries of Europe* Margrit Beran Krewson, 1989 Going Beyond Helga Schier, 2011-07-22 No detailed description available for Going Beyond *German History and German Identity* D.G. Bond, 2023-12-18 Uwe Johnson's major novel *Jahrestage* is recognized as one of the most important and ambitious works of post war German literature The core to this novel is remembrance and *Jahrestage* is a stunning requiem for the victims of twentieth century German history D.G. Bond concentrates on the text analysing the novel and the calendar form of this work and paying particular attention to the ways in which even the minutest details of Johnson's narrative reveal its historical themes The author discusses Johnson's poetics offers readings of his other major works and considers the most recent trends in Johnson reception He shows how an uncompromising view of German identity after the crimes of the Third Reich constitutes the very heart of Johnson's work

The German Genius Peter Watson, 2010-09-16 From the end of the Baroque age and the death of Bach in 1750 to the rise of Hitler in 1933 Germany was transformed from a poor relation among western nations into a dominant intellectual and cultural force more influential than France Britain Italy Holland and the United States In the early decades of the 20th century German artists writers philosophers scientists and engineers were leading their freshly unified country to new and undreamed of heights and by 1933 they had won more Nobel prizes than anyone else and more than the British and Americans combined But this genius was cut down in its prime with the rise and subsequent fall of Adolf Hitler and his fascist Third Reich a legacy of evil that has overshadowed the nation's contributions ever since Yet how did the Germans achieve their pre eminence beginning in the mid 18th century In this fascinating cultural history Peter Watson goes back through time to explore the origins of the German genius how it flourished and shaped our lives and most importantly to reveal how it

continues to shape our world As he convincingly demonstrates while we may hold other European cultures in higher esteem it was German thinking from Bach to Nietzsche to Freud that actually shaped modern America and Britain in ways that resonate today **1870/71 - 1989/90** Walter Pape,2013-08-08 No detailed description available for 1870 71 1989 90

The Cambridge History of German Literature Helen Watanabe-O'Kelly,2000-06-12 This is the first book to describe German literary history up to the unification of Germany in 1990 It takes a fresh look at the main authors and movements and also asks what Germans in a given period were actually reading and writing what they would have seen at the local theatre or found in the local lending library it includes for example discussions of literature in Latin as well as in German eighteenth century letters and popular novels Nazi literature and radio plays and modern Swiss and Austrian literature A new prominence is given to writing by women Contributors all leading scholars in their field have re examined standard judgements in writing a history for our own times The book is designed for the general reader as well as the advanced student titles and quotations are translated and there is a comprehensive bibliography **Second-generation Holocaust**

Literature Erin Heather McGlothlin,2006 This volume aims to expand the commonly used definition of second generation literature which refers to texts written from the perspective of the children of survivors to include texts written from the point of view of the children of Nazi perpetrators *On the Rationality of Poetry* Frank Finlay,2024-03-25 This study explores Heinrich B ll s aesthetic thinking as it is expressed in the author s disparate and voluminous writings on literature B ll s work in this field is situated in the multi faceted context of social political and cultural developments in post war Germany and is shown to be an important adjunct to the novels and stories which were honoured with the Nobel Prize for Literature An understanding of Heinrich B ll s aesthetic thinking can illuminate the writer s fiction in an intriguing way In particular B ll s defence of the rationality of poetry raises issues which reverberate in continuing debates on the social validity of literature

The Future of German Literature Keith Bullivant,1994-02-17 The future of German literature like the future of united Germany is a fascinating question and will be vigorously debated throughout the 1990s In this the first book length study in English to tackle this controversial subject Professor Bullivant analyses the main aspects of German literature since 1945 from the perspective of the 1990s The author pays particular attention to the periodization of this literature and especially to major new developments in the 1980s to the social role of writers as intellectuals to the treatment of the German Question and to Berlin in German letters The Return of Storytelling in Contemporary German Literature and Film David N.

Coury,2004 German literature and film have kept to the true path all this time according to Coury s German and humanistic studies U of Wisconsin Green Bay construction and it is storytelling that went wayward for a while but is now returning home He begins by discussing the origins and definitions of the art of storytelling and looking at contemporary *European Socialist Realism* Michael Scriven,Dennis Tate,1988 Provides a broad European and cross cultural perspective on the theory and practice of literature and the Left over the past 50 years
