Realismus Zwischen Revolution Und Reaktion 19191939:

Magical Realism Lois Parkinson Zamora, Wendy B. Faris, 1995 On magical realism in literature *Franz Radziwill and the Contradictions of German Art History, 1919-45* James A. Van Dyke, 2011 An exploration of the career of Franz Radziwill investigating the question of art in a Nazi context **Frauenbilder von Otto Dix** Jung-Hee Kim, 1994 *Neue Sachlichkeit and Avant-Garde* Ralf Grüttemeier, Klaus Beekman, Ben Rebel, 2013 One of the aims of the book is to shed more light on the notion Neue Sachlichkeit in its appearance in a variety of fields as painting architecture music photography and literature in order to get a clearer idea of its scope Several contributions will do so by analysing the heterogeneity in the use of the term concerning its function in the fight for recognition in the art fields around 1930 in other words Neue Sachlichkeit will be analysed as a positioning strategy Especially its participation in the broader discourse on modernity as well as its international and intermedial dimension will be highlighted often using the historical avant garde as point of reference From this perspective the present volume wants to be read as a plea for a differentiated description of the many shared aspects and some differences between the avant garde and Neue Sachlichkeit **Legacies of Modernism** P. McBride, R. McCormick, M. Zagar, 2007-01-22 Between 1890 and 1950 modernist art and culture set out to challenge century old notions of the individual and the community culture and politics morality and freedom placing into question the very foundations of Western civilization The essays in this volume present a novel assessment of various manifestations of modernism in Germany and Scandinavia by posing the question of its critical and political impact beyond traditional polarities such as right vs left illiberalism vs Enlightenment apolitical vs engaged In drawing on a wide range of disciplinary perspectives including literary studies art history film and visual studies urban studies musicology political theory and the history of science and technology the essays in this volume reexamine modernism s bold inquiry into areas such as the relation of art to technology and mass politics the limits of liberal democracy the reconceptualization of urban spaces and the realignment of traditional art forms following the rise of new media such as film The volume s contributors share a belief in the timeliness of modernism s critical impulse for a contemporary age confronted with ethical and political dilemmas that the modernists first articulated and to which they attempted to respond **The Long Century's Long Shadow** Kenneth S. Calhoon, 2021-06-01 The Long Century s Long Shadow approaches German Romanticism and Weimar cinema as continuous developments enlisting both in a narrative of reciprocal illumination The author investigates different moments and media as connected phenomena situated at alternate ends of the long nineteenth century but joined by their mutual rejection of the neo classical aesthetic standard of placid and weightless poise in numerous media including film painting sculpture prose poetry and dance Connecting Weimar filmmaking to Romantic thought and practice Kenneth S Calhoon offers a non technological aesthetic genealogy of cinema He focuses on well known literary and artistic works including films such as Nosferatu Metropolis Frankenstein and Fantasia the writings of Conrad Kafka Goethe and Novalis and the paintings of Caspar David

Friedrich one of the leading artists of German Romanticism With an eye to the modernism of which Weimar filmmaking was a part The Long Century s Long Shadow employs the Romantic landscape in poetry and painting as a mirror in which to regard cinema *Die Zukunft der Katastrophe* Manfred O. The Architecture of Oppression Paul B. Jaskot,2002-01-04 This book re evaluates the architectural history of Nazi Germany and looks at the development of the forced labour concentration camp system Through an analysis of such major Nazi building projects as the Nuremberg Party Rally Grounds and the rebuilding of Berlin Jaskot ties together the development of the German building economy state architectural goals and the rise of the SS as a political and economic force As a result The Architecture of Oppression contributes to our understanding of the conjunction of culture and politics in the Nazi period as well as the agency of architects and SS administrators in enabling this process The Total Work of Art David Imhoof,Margaret Eleanor Menninger,Anthony J. Steinhoff,2016-07-01 For two centuries Gesamtkunstwerk the ideal of the total work of art has exerted a powerful influence over artistic discourse and practice spurring new forms of collaboration and provoking debates over the political instrumentalization of art Despite its popular conflation with the work of Richard Wagner Gesamtkunstwerk s lineage and legacies extend well beyond German Romanticism as this wide ranging collection demonstrates In eleven compact chapters scholars from a variety of disciplines trace the idea s evolution in German speaking Europe from its foundations in the early nineteenth century to its manifold articulations and reimaginings in the twentieth century and beyond providing an uncommonly broad perspective on a distinctly modern cultural form

Invisible Cathedrals Neil H. Donahue,1995 Invisible Cathedrals places Wilhelm Worringer in the foreground of discussions of Expressionism and German Modernism for the first time These essays not only reveal the complexities of his individual works such as *Abstraction and Empathy* 1908 and *Form Problems of the Gothic* 1911 they also examine his lesser known books and essays of the post World War I years the 1920s and beyond Invisible Cathedrals offers both a basic introduction to Worringer s writings and their broad influence and a profound and detailed revisionist analysis of his significance in German and European Modernism It also provides the most comprehensive bibliography to date of his own work and of the scattered criticism devoted to Worringer in different disciplines Worringer s works were provocative widely read and often reprinted and were highly influential among artists and writers in Germany As a result they both raised suspicion in his own academic discipline of art history and excited discussion in other diverse fields such as literary and social theory psychology and film theory Worringer emerges here not solely as a scholarly commentator on the history of art but also as an activist scholar who engaged his historical criticism of other periods directly in the production of culture in his own time Contributors are Magdalena Bushart Neil H Donahue Charles W Haxthausen Michael W Jennings Joseph Masheck Geoffrey Waite and Joanna E Ziegler
