Real Drugs in a Virtual World Edward Murguia,Melissa Tackett-Gibson,Ann Lessem,2007-02-01 Drug Abuse NIDA funded research project on drug information and online drug related communities The editors of this pivotal text Edward Murguia Ann Lessem and Melissa Tackett Gibson elevate the debate about drug use and the Internet from a polemic discourse to social scientific investigation The essays confront issues related to the study of drug communication online including the causal factors of abuse as discussed in online forums the relationship between music and drug use in virtual communities and the ways in which individuals assess the accuracy of online drug information This book highlights the variety of ways to examine drug use as a social problem and presents several theoretical perspectives valuable to online research Real Drugs in a Virtual World is an enlightening and thought provoking read that will appeal to sociology students and those interested in virtual communities Books In Print 2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004 The Reality of Drugs Don Merki,1996 Hypocrisy Vincent Shing Cheng,2019-10-25 Although the official propaganda surrounding the drug detainees in China is that of helping educating and saving them from their drug habits and the drug dealers who lure them into drug abuse it is clear according to Vincent Shing Cheng that those who have gone through the rehabilitation system lost their trust in the Communist Party s promise of help and consider it a failure Based on first hand information and established ideas in prison research Hypocrisy gives an ethnographic account of reality and experiences of drug detainees in China and provides a glimpse into a population that is very hard to reach and study Cheng argues that there is a discrepancy between the propaganda of helping and saving drug users in detention or rehabilitation centres and the reality of humiliating them and making them prime targets of control Such a discrepancy is possibly threatening rather than enhancing the party state s legitimacy He concludes the book by demonstrating how the gulf between rhetoric and reality can illuminate many other systems even in much less extreme societies than China This book is highly original meticulously researched and insightful The study comes to very informative conclusions that contrast empirical data with the way drug rehabilitation is displayed in the media and government propaganda It is a must read for scholars in prison studies but should also be recommended to criminologists political scientists and lawyers Saskia Hufnagel Queen Mary University of London The book is an excellent account of the state s handling of drug abuse in China and convincingly argues that the institutions official purpose of helping the offenders is poorly served and largely hypocritical A compelling study based on solid and in depth empirical research James D Seymour Columbia University **The Reality Record and Builder** ,1911
