Seventy Years Among Savages Henry S. Salt, 1921 What is Knowledge? Jose Ortega y Gasset, 2012-02-01 Appearing in English for the first time this book comprises two of Ortega's most important works *Qu es conocimiento* and the essay *Ideas y creencias* This is Ortega's attempt to systematically present the foundations of his metaphysics of human life and on that basis to provide a radical philosophical account of knowledge In so doing he criticizes idealism and overcomes it Accordingly this book goes well beyond a treatise on epistemology in fact as understood in modern philosophy this discipline and its questions are shown to be derivative and in that sense they are transcended here by Ortega's systematic effort Written during the time of his maturity these works are representative of his fruitful and radical period Both *Qu es conocimiento* and *Ideas y creencias* are equally decisive not only for the understanding and radical completion of Ortega's work but also for their relevance to the work of continental philosophers during the same period and for years to come e.g. Husserl, Jaspers, Heidegger, Sartre and others **The Classic Horror Stories** H. P. Lovecraft, 2013-05-09 Loathsomeness waits and dreams in the deep and decay spreads over the tottering cities of men A time will come but I must not and cannot think H. P. Lovecraft 1890-1937 was a reclusive scribbler of horror stories for the American pulp magazines that specialized in Gothic and science fiction in the interwar years He often published in *Weird Tales* and has since become the key figure in the slippery genre of weird fiction Lovecraft developed an extraordinary vision of feeble men driven to the edge of sanity by glimpses of malign beings that have survived from human prehistory or by malevolent extra-terrestrial visitations The ornate language of his stories builds towards grotesque moments of revelation quite unlike any other writer This new selection brings together nine of his classic tales focusing on the Cthulhu Mythos a cycle of stories that develops the mythology of the Old Ones the monstrous creatures who predate human life on earth It includes the Introduction from Lovecraft's critical essay *Supernatural Horror in Literature* in which he gave his own important definition of weird fiction In a fascinating contextual introduction Roger Luckhurst gives Lovecraft the attention he deserves as a writer who used pulp fiction to explore a remarkable philosophy that shockingly dethrones the mastery of man **Arnold Bennett** Marguerite Bennett, 1925
