Pacific Crucible: War at Sea in the Pacific, 1941-1942 (Vol. 1) (The Pacific War Trilogy) Ian W. Toll, 2011-11-14 Winner of the Northern California Book Award for Nonfiction Both a serious work of history and a marvelously readable dramatic narrative San Francisco Chronicle On the first Sunday in December 1941 an armada of Japanese warplanes

appeared suddenly over Pearl Harbor Hawaii and devastated the U S Pacific Fleet Six months later in a sea fight north of the tiny atoll of Midway four Japanese aircraft carriers were sent into the abyss a blow that destroyed the offensive power of their fleet Pacific Crucible through a dramatic narrative relying predominantly on primary sources and eyewitness accounts of heroism and sacrifice from both navies tells the epic tale of these first searing months of the Pacific war when the U S Navy shook off the worst defeat in American military history to seize the strategic initiative

On the Warpath in the Pacific Constance C. Reynolds, 2013-05-11 When J J Clark graduated from the U S Naval Academy at the end of World War I he was ready to be a pioneer in one of the great transformations of the U S Navy in the twentieth century the change from a surface only force to one in which aviation played a key if not determinant role Under the leadership of the key aviation admirals William Moffett and John Towers Jocko Clark with other aviation minded officers battled low budgets and unsympathetic policy makers to champion the development of naval aviation during the 1920s and 30s Pearl Harbor proved them right As captain of the new Yorktown the original was sunk at Midway Clark provided aggressive leadership in the capture of the Gilbert and Marshall Islands As a carrier task group commander Clark was instrumental in the brilliant victory at the Battle of the Philippine Sea which included the Marianas Turkey Shoot He withstood numerous kamikaze attacks at Iwo Jima and Okinawa while seeing that Japan s airpower was destroyed After the war he was instrumental in salvaging naval aviation from the attacks of other services and policy makers During the Korean War he served as Commander Seventh Fleet in the all important naval air support of that conflict Naval historian Clark Reynolds is particularly well placed to write this book because he had access to family papers and was co author of the Admiral Clark s autobiography *The Unknown Battle of Midway* Alvin Kernan, 2019-06-18 A memoir and more Kernan brings this maritime battle superbly to life And he narrates the air assault in gripping detail The Wall Street Journal The Battle of Midway is considered the greatest US naval victory but behind the luster is the devastation of the American torpedo squadrons Of the 51 planes sent to attack Japanese carriers only 7 returned and of the 127 aircrew only 29 survived Not a single torpedo hit its target A story of avoidable mistakes and flawed planning The Unknown Battle of Midway reveals the enormous failures that led to the destruction of four torpedo squadrons but were omitted from official naval reports the planes that ran out of gas the torpedoes that didn t work the pilots who had never dropped torpedoes and the breakdown of the attack plan Alvin Kernan who was present at the battle has written a troubling but persuasive analysis of these and other little publicized aspects of this great battle The standard navy tactics for carrier warfare are revealed in tragic contrast to the actual conduct of the battle and the after action reports of the ships and squadrons involved An incisive and laconic writer Kernan knows his facts and presents them with deep feeling A World War II must read Booklist I read The Unknown Battle of Midway in one sitting It is a momentous piece of work reeking of the authenticity of carrier warfare as experienced by the flight crews Sir John Keegan author of A History of Warfare An emotionally powerful story not merely one of war but of its lasting effects The Times Literary

Gear Up, Mishaps Down Robert F Dunn, 2017-01-15 Less than five years after naval aviation led the forces that defeated Imperial Japan that very organization was in serious trouble

The force had been drastically reduced and despite the Korean War growing sentiment supported by no less than the chairman of the Joint Chiefs argued that the new Air Force could do anything naval aviation might be required to do. Meanwhile the naval aviation mishap rate soared. The very survival of naval aviation was at stake. It took fifty years to turn this around. Today in spite of hot wars, cold wars, contingencies and peacetime operations in support of friends and allies, the Navy and Marine Corps accident rate is at least as good as that of the Air Force and it approaches that of commercial aviation. Gear Up Mishaps Down explains that this accomplishment was achieved through dedicated and professional leadership, a focus on lessons learned from mishaps and near mishaps, a willingness to learn from other enterprises and by better leadership, training, maintenance, supply and more.

Supremacy at Sea Evan Mawdsley, 2024-05-03. The gripping account of the U.S. Navy's fast carrier force and how its Central Pacific campaign in 1944 marked the achievement of American naval supremacy. Task Force 58 was World War II's most powerful battle fleet. Made up in mid-1944 of sixteen aircraft carriers, over a thousand combat aircraft and an armada of escorts, it was vital to victory over Japan. In this compelling account, Evan Mawdsley charts the 3,500-mile dash of the Big Blue Fleet across the Central Pacific in the first six months of 1944, overwhelming enemy opposition and transforming the nature of naval warfare. The Battle of the Philippine Sea in June 1944 crushed the enemy's naval air force and secured war-winning air bases in the Mariana Islands. Mawdsley examines the elements of the rapidly assembled force: ships, planes and 100,000 officers and men, as well as the advanced bases and fleet train that provided such astounding mobility. Task Force 58's campaign marked the achievement of naval supremacy by the United States, a status it maintains to this day.

From POW to Blue Angel Jim Armstrong, 2016-01-18. As only the third fighter pilot to become leader of the Blue Angels, Raleigh E. Dusty Rhodes helped develop the most famous aerobatics team ever formed. *From POW to Blue Angel* tells his story, a fast-paced drama teeming with action and human interest and capturing the initiative and tenacity of a true American hero. Jim Armstrong has drawn on extensive interviews and Dusty's scrapbooks and flight logs to produce a rare account of the Blue Angels in the late 1940s. Readers will experience the stress of practice and the exhilaration of air shows as Armstrong takes them inside Dusty's cockpit during the era when the Blues first found fame perfecting their trademark formations and maneuvers. This book is also a moving account of the degradation that Rhodes suffered for three years as a prisoner of war and includes his rare ground observer's view of the firebombings of Tokyo and Yokohama. Armstrong poignantly captures Dusty's return to a changed postwar America and also recounts his tour as a fighter pilot in Korea. *From POW to Blue Angel* is an intimate story of service and survival that will carve a place in naval aviation history and inspire all who keep their eyes skyward.

Seven at Santa Cruz Ted Edwards, 2018-06-15. This riveting biography details how Stanley Swede Vejtasa became a World War II naval hero. During the Battle of the Coral Sea, Swede flew an SBD Dauntless dive bomber and helped sink Shoho, the first aircraft carrier lost by Japan in World War II. The next day in that same Dauntless, he took off from USS Yorktown and out-flew and out-gunned three Japanese Zeros, making him

the only dive bomber pilot to be awarded Navy Crosses for both bombing and aerial combat Months later the day before the Battle of Santa Cruz Swede was flying an F4F Wildcat fighter off USS Enterprise and had no recourse but to follow orders he knew to be insane He and his squadron mates flew their predictably empty search legs and beyond only to discover upon their return to Point Option in the dark that Enterprise was nowhere to be found Incredibly Swede located the oil slick he had noticed seeping from Enterprise during a morning combat air patrol and was able to track it back to the carrier After their harrowing return during the Battle of Santa Cruz the fate of Enterprise and by extension Guadalcanal lay in the hands of that same Swede Vejtasa He responded by single handedly downing an unprecedented two Japanese dive bombers and five torpedo bombers attacking the carrier Skipper Jimmy Flatley recognized that in all likelihood Swede had saved Enterprise from destruction and he recommended Swede for the Medal of Honor
