The Threatening Storm Kenneth Pollack, 2003-03-25 In *The Threatening Storm* Kenneth M Pollack one of the world s leading experts on Iraq provides a masterly insider s perspective on the crucial issues facing the United States as it moves toward a new confrontation with Saddam Hussein For the past fifteen years as an analyst on Iraq for the Central Intelligence Agency and the National Security Council Kenneth Pollack has studied Saddam as closely as anyone else in the United States In 1990 he was one of only three CIA analysts to predict the Iraqi invasion of Kuwait As the principal author of the CIA s history of Iraqi military strategy and operations during the Gulf War Pollack gained rare insight into the methods and workings of what he believes to be the most brutal regime since Stalinist Russia Examining all sides of the debate and bringing a keen eye to the military and geopolitical forces at work Pollack ultimately comes to this controversial conclusion through our own mistakes the perfidy of others and Saddam s cunning the United States is left with few good policy options regarding Iraq Increasingly the option that makes the most sense is for the United States to launch a full scale invasion eradicate Saddam s weapons of mass destruction and rebuild Iraq as a prosperous and stable society for the good of the United States the Iraqi people and the entire region Pollack believed for many years that the United States could prevent Saddam from threatening the stability of the Persian Gulf and the world through containment a combination of sanctions and limited military operations Here Pollack explains why containment is no longer effective and why other policies intended to deter Saddam ultimately pose a greater risk than confronting him now before he gains possession of nuclear weapons and returns to his stated goal of dominating the Gulf region It is often said that war should be employed only in the last resort Pollack writes I reluctantly believe that in the case of the threat from Iraq we have come to the last resort Offering a view of the region that has the authority and force of an intelligence report Pollack outlines what the leaders of neighboring Arab countries are thinking what is necessary to gain their support for an invasion how a successful U S operation would be mounted what the

likely costs would be and how Saddam might react He examines the state of Iraq today its economy its armed forces its political system the status of its weapons of mass destruction as best we understand them and the terrifying security apparatus that keeps Saddam in power Pollack also analyzes the last twenty years of relations between the United States and Iraq to explain how the two countries reached the unhappy standoff that currently prevails Commanding in its insights and full of detailed information about how leaders on both sides will make their decisions The Threatening Storm is an essential guide to understanding what may be the crucial foreign policy challenge of our time

criminal organizations in the region *Great Muslim Leaders* Melanie C. Brooks, Miriam D. Ezzani, 2023-03-01 *Great Muslim Leaders* presents Islamic informed alternatives to Eurocentric Christian understandings of education and educational leadership. It does so by interrupting and displacing the West's centuries long dismissive stance and monolithic gaze on Islam by showcasing outstanding diverse Muslim leaders across space and time. Each chapter focuses on a single leader and includes a biographical sketch, a discussion of their context and activities as a leader, key lessons readers can learn from their leadership, and recommendations that are relevant for teachers and educational leaders. This collection of Muslim leaders chosen by Muslim scholars brings to education discourse the breadth of Islamic intellectual history, giving the book a global appeal and facilitating a sharing of innovative and classic ideas across cultures, faith traditions, and national boundaries. *Great Muslim Leaders* introduces to readers Muslim intellectuals, spiritual leaders, philosophers, poets, artists, activists, scientists, celebrities, politicians, educators, film makers, historical figures, theorists, and academics whose lives have positively shaped their community, society, and the world. Their lived experiences are underpinned by deep spirituality and faith, revealing the significance and import religious belief has on moral and ethical action. The book concludes with seven lessons that cut across the chapters that encapsulate the immense value Islamic spirituality and faith bring to education and leadership.

ENDORSEMENTS In recent years many books have been written on Islam and Muslims. However, *Great Muslim Leaders: Lessons for Education* is a must read. In this unique, well-written and engaging study, Melanie Brooks and Miriam Ezzani demonstrate how faith and spirituality have informed the lives and accomplishments of major Muslim leaders in a broad section of professions. John L. Esposito, Georgetown University. Scholars of leadership ignore spiritual and religious exemplars at their peril. By seeking such exemplars from Islam in such an organic manner, this volume models the central lessons it conveys: promoting pluralism, thoughtfully questioning, critically reflecting, and most vitally, helping us recognize and embrace the sacred trust of leadership. Martin Scanlan, Boston College. *Great Muslim Leaders: Lessons for Education* is timely, inspirational, and packed with lessons for educators and learners alike. At a time when Islamic education is moving toward renewal, this book will provide much needed insight, real life lessons, and direction. This is a must read for anyone seeking to be enriched by the lives of great Muslim leaders, be they learners, educators, or leaders. Mohamad Abdalla, AM University of South Australia. So many popular leadership books tell the same story of a great white American man who overcame obstacles to build an empire. It is refreshing to read this book featuring educational leaders whose Muslim faith is central to their practice and whose work is bigger than themselves. The biographies of these diverse leaders from across the world offer lessons in humility and hope, as well as practical tips for other leaders who seek to apply their faith, whether Muslim or not, to a more connected way of being and of leading. Joanne M. Marshall, Iowa State University.
