Rearming Israel Defense Procurement Through The 1990s:

Rearming Israel Aharon Klieman, Reuven Pedatzur, 2019-09-16 This study analyzes the key functions of arms planning and procurement in the ongoing Israeli defence effort Part I addresses individual constraints placed on the shaping of arms control policy Part II asks how Israel might best meet its arms needs over the next decade **Arms Procurement Decision Making: China, India, Israel, Japan, South Korea and Thailand** Ravinder Pal Singh, 1998 SCOTT copy 1 From the John Holmes collection **Military Industry and Regional Defense Policy** Timothy D. Hoyt, 2017-07-05 Military Industry and Regional Defense Policy re examines military industrialization in the developing world focusing on policy making in producer states and the impact of security perceptions on such policy making Timothy D Hoyt reassesses the role of regional state sub systems in international relations and recent historical studies of international technology and arms transfers Looking at Israel Iraq and India the three most powerful regional powers in the Cold War era he presents an expert analysis of the three sided phenomena of the regional hegemony the regional competitor and the small over achiever This new book breaks away from existing literature on military industries in the developing world which has focused on their economic and development costs and benefits These past studies have used primitive methodologies that focus on the production of complete weapons systems a misleading gauge in a world of growing international defense cooperation They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict and of the defence planning and concerns that drove development of indigenous military industries in key regional powers This new text delivers an incisive new perspective *A History of Israel* Howard M. Sachar, 2013-07-31 First published in 1976 Howard M Sachar's *A History of Israel From the Rise of Zionism to Our Time* was regarded one of the most valuable works available detailing the history of this still relatively young country Decades later readers can again be immersed in this monumental work The second edition of this volume covers topics such as the first of the Aliyahs in the 1880s the rise of Jewish nationalism the beginning of the political Zionist movement and later how the movement changed after Theodor Herzl the Balfour Declaration the factors that led to the Arab Jewish confrontation Palestine and its role both during the Second World War and after the war of independence and the many wars that followed it over the next few decades and the development of the Israeli republic and the many challenges it faced both domestic and foreign and still faces today This is a truly enriching and exhaustive history of a nation that holds claim to one of the most complicated and controversial histories in the world *The Global Arms Trade* Andrew T. H. Tan, 2014-05-22 The Global Arms Trade is a timely comprehensive and in depth study of this topic a phenomenon which has continued to flourish despite the end of the Cold War and the preoccupation with global terrorism after 11 September 2001 It provides a clear description and analysis of the demand for and supply of modern weapons systems and assess key issues of concern This book will be especially useful to scholars policy analysts those in the arms industry defence professionals students of international relations and security studies media professionals

government officials and those generally interested in the arms trade *Defence Industries in the 21st Century* Çağlar Kurç, Richard A. Bitzinger, Stephanie G. Neuman, 2021-05-13 *Defence Industries in the 21st Century* explores the transformation in the global defence industrial production through examining the interaction between international and domestic factors With the global defence industry and arms market likely continue to expand and mature the ways in which this progression could influence international politics remain obscure In practice as the contents of this book show the defence industrial bases and arms export policies of emerging states display significant variance This variance is the result of a unique balance between domestic and international factors that has shaped the defence industrialisation behaviour and policies of the less industrialised states One of the most important conclusions of the book is that the interplay between domestic and international factors clearly influences the variation in the emerging states defence industrialisation policies as well as their success or failure While international factors create opportunities they also limit the options available to emerging economies Domestic factors also play an important role by shaping the policy choices of the states decision makers Exploring the balance between international and domestic factors and the ways in which they influence defence industrialisation in emerging states *Defence Industries in the 21st Century* will be of great interest to scholars of Defence Industries Arms Manufacturing and Defence Strategic and Security Studies more generally The chapters were originally published in *Defence Studies Comparative Strategy and All Azimuth* *China's Military Procurement in the Reform Era* Yoram Evron, 2015-06-26 The decisions that shape the policy of weapons procurement are an important area of national security policy This is all the more true for China which during recent decades has vacillated between different sources and directions of military build up This book explores the politics of military procurement in China under the successive leaderships of Deng Xiaoping Jiang Zemin and Hu Jintao It shows how China s political and military leaders have sought to adjust military procurement policy to meet China s strategic objectives to relate it to non military needs to strike a balance between the import of weapons and indigenous production and to determine the connections between hardware and other components of military power Exploring in detail five major shifts in the nation s military procurement it traces the considerations and negotiations among China s civilian and military leaderships By doing so it offers both a conceptual framework and empirical grounds for evaluating the factors that shape China s military procurement directions as well as their limitations prospects and operational implications As the first book to study comprehensively and systematically the attributes shaping China s military procurement it will be of great interest to students and scholars of Chinese politics Chinese history and military and strategic studies **Threat of Ballistic Missiles in the Middle East** Arieh Stav, 2004-06-01 This addresses the complex issue of defence against ballistic missiles by intercepting them at various stages of their trajectory The book poses both technical and conceptual questions regarding the issue of missile to missile interception and other options *War In The Gulf* Joseph Alpher, 2019-03-20 A study by a team of researchers at the Jaffee

Centre for Strategic Studies at Tel Aviv University It assesses the strategic ramifications for Israel of military political economic and social aspects of the Gulf War and concludes with a set of policy recommendations for Israel

The Sword And The Olive Martin Van Creveld, 2008-08-06 Combining razor sharp analysis with dramatic narrative vivid portraits of soldiers and commanders with illuminating discussions of battle tactics and covert actions The Sword and the Olive traces the history of the IDF from its beginnings in Palestine to today The book also goes beyond chronology to wrestle with the political and ethical struggles that have shaped the IDF and the country it serves struggles that are manifesting themselves in the recent tragic escalation of the Palestinian Israeli conflict Often revisionist in attitude surprising in many of its conclusions this book casts new light on the struggle for peace in the Middle East

Military, State, and Society in Israel Eyal Ben-Ari, 2018-04-17 There have been many books on the place of war security or military service in Israeli society The Military State and Society in Israel makes contributions to the debate theoretical empirical and polemical that are related to the Israeli case and to wider debates about the place of war and the military in contemporary industrialized societies The Israeli case is important in the development of more macro approaches to the study of things military as war has played a central role in Israel's history and continues to do so The book encapsulates in a very explicit manner tensions in the relationships between the military state and society and stands at the core of contemporary debates between two fundamental approaches to the study of the relations between the military society and the state the armed forces and society school and the state making and war perspective Contemporary Israel is the site of debates about many of the fundamental assumptions that have undergirded the Jewish nation state the ethnic character of nationhood and statehood the role of the Jewish diaspora vis vis Israel the legitimacy of Jewish ethnic pluralism the meaning of the Holocaust privatization of social life and the spread of consumerism and weakening of the centralized state as the agent of social transformation affecting housing language health technology production dress and child rearing One important consequence of these internal conflicts and struggles has been a significant erosion in the almost sacred status once enjoyed by state institutions and especially the military among the majority of Jewish population Theoretical and Comparative Perspectives situates Israel in its wider theoretical and comparative context and shows how the study of Israel contributes to the theoretical understanding of contemporary changes in civil military relations The Politics of Civil Military Relations concentrates on current changes in Israeli politics the character of the conflict with the Palestinians and the place of military in society The State and War Making Creating Citizens Soldiers and Men and Women indicates how war and the military are not only instruments for state making but are also important factors in the formation of individual identities The Notion of National Security Institutions and Concepts raises the basic question of whether the institutional mechanisms and the strategic conceptions crystallized during the first 50 years of Israel's existence are still relevant in a changing post cold war world The Armed Forces as Organization Continuity and Change focuses on the lines of continuity and trends of change in several aspects of the Israeli

Defense Forces internal organizational structure Studies based on Israeli cases data and scholarship have been central to the development of expertise in such fields as applied psychology and psychotherapy This volume contributes to these areas of study and will be of central importance to professionals interested in civil military The Economics of Producing Defense Yaacov Lifshitz,2003-08-31 The Economics of Producing Defense Illustrated by the Israeli Case begins with an overview of the development of defense economics as a sub discipline of the general theory of economics and points at the new challenges it is facing in the post Cold War era It focuses then on the supply side of defense economics presenting theoretical analyses and empirical findings related to the use of various inputs manpower domestically made defense products imported arms in providing national security Most of the issues under discussion are further elucidated by examples from Israel s experience As a small economy that faces continuously severe security problems Israel s way of coping with defense economic issues may indeed forward some interesting lessons for a wider audience The principal aim of the book is to convince policy makers and the public at large of the contribution defense economics could make to more effective management of national security problems This aim is encouraged by the growing weight attached to economic considerations and consequences in producing and supplying defense as demonstrated in the detailed discussion

Militarization and State Power in the Arab-Israeli Conflict Eligar Sadeh,1997-08 A set of propositions and an accompanying theoretical framework that explains the cause effect linkages between intrastate and interstate power realization that are characterized by militarization are developed This model establishes the foundation for an explanation of how such power is used to deal with the state s Janus faced security dilemma To this end the model provides the tools needed for such an inquiry from a conceptual and typological standpoint The goal is to explain how the internal aspect of state power shapes the external one It was determined that Israel and the primary Arab confrontation states provide important test cases based on the intense interplay prevalent between militarization processes and state power *U.S. - Israeli Strategic Cooperation In The Post-cold War Era* Karen Puschel,2019-03-15 This study moves from a history of the American Israeli strategic relationship since 1967 to an assessment of the permanency of US Israeli strategic ties their purpose in the eyes of both partners and their susceptibility to future pressures It includes an examination of the relationship under the strain of the 1991 Gulf War The Dynamics Of Soviet Policy In The Middle East Mark A Heller,2019-07-09 This study examines the extent to which new political thinking has been applied to Soviet policy in the Middle East and aims to speculate about the possible impact of any changes on patterns of international relations in the region **Israel and the Bomb** Avner Cohen,1998 In the first detailed account of Israel s nuclear record Cohen forges an interpretive political history drawing on thousands of American and Israeli once classified documents **Mastering Soldiers** Eyal Ben-Ari,2001-01-01 Studies of the military that deal with the actual experience of troops in the field are still rare in the social sciences In fact this ethnographic study of an elite unit in the Israeli Defense Force is the only one of its kind As an officer of this unit and a professional

anthropologist the author was ideally positioned for his role as participant observer During the eight years he spent with his unit he focused primarily on such notions as conflict the enemy and soldiering because they are he argues the key points of reference for what we are and what we are trying to do and form the basis for interpreting the environment within which armies operate Relying on the latest anthropological approaches to cognitive models and the social constructions of emotion and masculinity the author offers an in depth analysis of the dynamics that drive the men s attitudes and behavior and a rare and fascinating insight into the reality of military life

Israel's Wars of Attrition Avi Kober,2009-09-11 This book analyzes the way Israel has coped with nine wars of attrition from the 1950s to the recent Second Lebanon War 2006 questioning the belief that Western democracy cannot sustain prolonged wars of attrition Challenging Israel with attrition has been compatible with the Arab way of war which emphasizes staying power and with the belief that democracies cannot tolerate wars of attrition either economically or psychologically Israel for its part developed a self image of incapacity to sustain prolonged wars committing itself to a traditional offensive approach to blitzkrieg whenever possible The book offers an account of nine wars of attrition that Israel was involved in over almost 60 years from Palestinian infiltration and fedayeen activities against Israel in the early 1950s through to the Second Lebanon War in 2006 The author uses these cases to challenge the myth that Israel cannot afford to become involved in a draining war of attrition Focusing on central aspects typical of Western democracies engaged in wars of attrition operational effectiveness the societal staying power the economic burden of the war moral dilemmas and conflict management problems the book challenges the myth that Israel cannot afford to become involved in a draining war of attrition while at the same time highlighting the fact that in its wars of attrition Israel has not always succeeded in avoiding undesired escalation This book will be of much interest to students of strategic studies Israeli history Middle Eastern politics and security studies in general Avi Kober is a member of the Department of Political Studies at Bar Ilan University Israel and is a Senior Research associate with the BESA Center for Strategic Studies
