Reason And Religious Faith

Roger Trigg

Reason And Religious Faith:

Reason and Religious Faith Terence Penelhum, Emeritus, 2021-06-02 The concerns of philosophy and of religion overlap to a considerable extent each seeks among other things to develop an account of mankind's place in the universe But their relationship has never been an easy one Faith gives rise to philosophical puzzlement just as secular beliefs do but it also generates special philosophical questions that secular beliefs do not This engaging text encourages students and other readers to grapple with these special questions of faith to look at how they relate to other issues in philosophy and in the empirical study of religion Equally accurate and insightful in its treatment of historical authors such as Aquinas and Pascal as it is in treatment of such contemporaries as Plantinga and Alston Reason and Religious Faith is the most up to date and balanced introduction to these issues available It marks an advance over earlier surveys in its recognition of religious pluralism and the relevance of non Christian religious views It is an ideal introduction to the issues of religious epistemology for students of both religious studies and philosophy

Reason and Religious Belief an Introduction to the Philosophy of Religion :, 2015 Reason and Religious Belief now in its fifth edition explores perennial questions in the philosophy of religion Drawing from the best in both classical and contemporary discussions the authors examine religious experience faith and reason the divine attributes arguments for and against the existence of God divine action in various forms of theism Reformed epistemology religious language religious diversity and religion and science *Faith Beyond Reason* C. Stephen Evans, 1998 This volume in the Reason Religion series provides an explanation and defense of a view of faith and reason found in the writings of Søren Kierkegaard and others that is often called fideism a belief in faith beyond reason **Faith and Rationality** Alvin Plantinga, Nicholas Wolterstorff, 1983 A collection of essays by contemporary Calvinist philosophers of religion that examine the epistemology of religious belief between Reformed and Roman Catholic philosophers

Rationality and Religion Roger Trigg, 1998-06-08 Rationality and Religion deals with the perennial question of how far religious faith needs reason *Faith Within Reason* Herbert McCabe, 2007-03-10 Is it possible to think about religious beliefs philosophically Can theologians learn from philosophers Can philosophers learn from theologians Is it possible to be both a good Christian and a good thinker This book examines the nature of religious belief especially belief in God with an eye on both theological and philosophical arguments **Revelation and Reason: The Christian Doctrine of Faith and Knowledge** Emil Brunner, 1946 **Reason & Religious Belief** Michael L. Peterson, 1998 Drawing from both classical and contemporary discussions the authors examine topics of religious experience faith and reason theistic arguments the problem of evil religious language miracles life after death and much more The volume is enhanced by study questions and suggestions for further reading The book also may serve as a companion to the authors 1996 anthology PHILOSOPHY OF RELIGION **Faith with Reason** Paul Helm, 2000 Paul Helm presents a new study of the nature of religious faith investigating what makes it reasonable Religious belief needs to meet and sustain philosophical scrutiny just as any other

type of belief does nothing about religion purchases immunity from this But at the same time religious epistemology must also respect the contours of religion the distinctiveness of the subject matter of religious belief Helm looks sympathetically at two currently prominent ways of defending the rationality of religious belief Reformed epistemology and the cumulative case for theism He argues that the reasonableness of faith depends not only on beliefs about the world but also on beliefs about oneself for instance about what one wants about one's hopes and fears and on what one is willing to trust Helm goes on to look at the relations between belief and trust and between faith and virtue and concludes with an exploration of one particular type of belief about oneself the belief that one is oneself a believer This is a book for anyone interested in the basis of religious faith

Responses to the Enlightenment William Sweet, Hendrik Hart, 2012-01-01 Since the time of the Enlightenment in Western Europe discussions of faith and reason have often pitted the believer against the skeptic the theist against the atheist and the person of one faith against the person of no professed faith But the relation of reason to faith has been a matter of debate among believers as well There are those who hold that religious faith can be proven or supported by rational argument Others say that to try to give reasons and arguments does violence to religious faith or opens it to misunderstanding and doubt or trivializes it *Responses to the Enlightenment An Exchange on Foundations Faith and Community* is a dialogue between Hendrik Hart and William Sweet two philosophers who identify themselves as Christians and who seek to respond to the challenges of the Enlightenment and its legacy The authors approach the relation of faith to reason however in very different ways Hart from the perspective of the Calvinian tradition and postmodern philosophy Sweet from the Catholic tradition and analytic philosophy Among the topics discussed are the nature of religious faith and of reason liberalism and orthodoxy in religion the relation of religious experience and rationality and building community in a religiously and culturally pluralistic world This exchange presents two distinctive perspectives to some of the major challenges of the reason to religious belief but seeks to find common ground between them

Why Believe? C. Stephen Evans, 1996 C. Stephen Evans has written a pointed and personal book directed to those who want to have faith but whose thinking has been obscured by the static of prevailing philosophies illuminating the attraction and reasonableness of Christianity

Religious Reason Ronald Michael Green, 1978 The purpose of this book is to call the separation of reason and religion into question

Faith, Rationality and the Passions Sarah Coakley, 2012-07-20 *Faith Rationality and the Passions* presents a fresh and original examination of the relation of religious faith philosophical rationality and the passions Contributions see leading scholars refute the widely held belief that religious Enlightenment forced passion and reason apart Leading Philosophical experts offer new research on the relation of faith reason and the passions in classic and Enlightenment figures Overturns the widely held presumption that the Enlightenment was responsible for creating a gulf between reason and passion Presents original and innovative research on the importance of the late 19th century creation of the category of emotion and its striking difference from classic ideas of passion Brings together secular science and

philosophy of emotion with philosophical theology to seek a new integration of belief emotion and reason *The Reason for God* Timothy Keller, 2009-08-04 A New York Times bestseller people can believe in by a pioneer of the new urban Christians Christianity Today and the C S Lewis for the 21st century Newsweek Timothy Keller the founding pastor of Redeemer Presbyterian Church in New York City addresses the frequent doubts that skeptics and even ardent believers have about religion Using literature philosophy real life conversations and potent reasoning Keller explains how the belief in a Christian God is in fact a sound and rational one To true believers he offers a solid platform on which to stand their ground against the backlash to religion created by the Age of Skepticism And to skeptics atheists and agnostics he provides a challenging argument for pursuing the reason for God **Reason & the Contours of Faith** Richard Rice, 2013-05-17 Can reason and religion get together Should believers think Can thinking people believe Does religion have to make sense Does careful thinking help or hinder religious experience People have wrestled with such questions for hundreds of years and they are just as perplexing today as ever Reason the Contours of Faith explores the wide ranging issues these questions raise from biblical interpretation and proofs for God s existence to the nature of religious conversion Its central purpose is to find an alternative to both fideism the idea that reason has nothing to do with faith and rationalism the conviction that reason has everything to do with it Part One Reason and the Contents of Faith argues that reason contributes in important but limited ways to our understanding of religion Part Two Reason and the Experience of Faith shows that reason can support religious commitment but never produces it **Reason and Faith** Michael Bergmann, Jeffrey E. Brower, 2016-01-07 The past fifty years have been an enormously fruitful period in the field of philosophy of religion and few have done more to advance its development during this time than Richard Swinburne His pioneering work in philosophy of religion is distinguished not only for the way in which it systematically develops a comprehensive set of positions within this field but also for the way in which it builds on and contributes to contemporary work in other fields such as metaphysics epistemology and philosophy of science This volume presents a collection of ten new essays in philosophy of religion that develop and critically engage themes from Swinburne s work Written by some of the leading figures in the field these essays focus on issues in both natural theology dealing with what can be known about God and his relation to the world independently of any particular religious tradition or revelation and philosophical theology reflecting critically on the doctrines associated with particular religious traditions The first six essays address topics familiar from natural theology faith theistic arguments and divine power The last four essays address topics bearing on philosophical theology atonement liturgy immortality and the nature of body and soul *Reason and Religion* Herman Philipse, 2022-04-28 Combines philosophical investigations concerning the truth of religious convictions with empirical research on the origins and functions of religious beliefs This book focuses on two core questions 1 How probable is it that any particular god exists 2 How should we account for the occurrence of religious beliefs in human societies *Reason in Faith* Adriaan Theodoor Peperzak, 1999 Postmodern reflections on the interface of philosophy and

religion pointing to ways each can learn from the other Christian Faith & Human Understanding Robert
Sokolowski, 2006-04 In this collection of essays renowned philosopher Robert Sokolowski illustrates how Christian faith is not
an alternative to reason but rather an enhancement of it *Library of Congress Subject Headings* Library of
