

At a second hearing on abandonment testimony was presented to show that only 26.6 percent of the railroad's revenue came from intrastate shipments, with the result that the yearly operating deficit would be around \$25,000 if the line were forced to continue for this traffic alone.¹²² P. H. Potter, the law examiner for the Railroad Commission, remarked at the hearing that there was little reason for the whole proceedings before the commission. He tendered the opinion that if the Railroad Commission forced intrastate operations alone, the railroad would lose so much money that the courts of the State would not uphold the decision, as they would consider it confiscation of property.¹²³ Evidently the railroad's owners reasoned similarly, for eighteen days before the hearings were held at Madison, the Mineral Point and Northern had run its last train.¹²⁴

The *Milwaukee Journal* wrote a little article about the scene at Mineral Point when the last train arrived. Under a heading, "Engine Chugs Home, Abandon Little Road," the article reported the statements of several members of the crew. The engineer remarked that the trip took six hours, the usual pace, and the master mechanic commented: "After a thing has been around 26 years, a person becomes attached to it. The people around here are sentimental about the MP&N, and I don't blame them. I feel kind of bad myself."

The people may have been sentimental, but no one was present for the last chance to ride the Mineral Point and Northern. The trip was made without passengers or freight. Only Assistant General Manager Martin and Traffic Manager R. E. Smart were on board with the crew for the last ride on the little railroad.¹²⁵

The property of the Mineral Point and Northern was sold at auction on June 14,

1930, on the courthouse steps at Dodgeville. There were no buyers of the whole property, but when it was divided into parcels, the rolling stock, rails, ties, tools, and bridges were sold as a unit for \$27,000 to L. B. Foster and Company of Chicago, who intended to junk the equipment. The stations and land were sold separately, and all the purchasers were given until January 1, 1931, to remove their property.¹²⁷

In September, 1930, the zinc oxide plant was closed, and Mineral Point became completely dependent upon agriculture as the basis for its economy. Wild flowers and long grasses slowly covered the mining slopes,¹²⁸ and the right of way of the Mineral Point and Northern became a twenty-six-mile strip of neglected land, a sorry tribute to days gone by.

During the twenty-five years of the Mineral Point and Northern operation, the zinc interests had not been concerned about the welfare of the farmers. The status of the farmer was a matter of indifference to the zinc operator, and the farmer probably felt little interest in the affairs of the mining segment of the economy. But when the zinc mines closed, the farmer began to realize the importance of the local industry to his life. It had been the industry that had sustained such services as the Mineral Point and Northern. The farmer protested at commission hearings, but he was to lose his case, for the economy had developed to a point at which the agrarian could no longer support such a convenience as a railroad without the substantial aid of industry. The local residents protested, but the Mineral Point and Northern was abandoned, just as countless other short line railroads were abandoned in the same era.

All that is left is the right of way, serving as a symbol of a venture that had converted a region's dreams into temporary reality.

In the Shadow of the Chinatis David W. Keller, 2019-01-31 Winner 2020 Al Lowman Memorial Prize for Best Book on Texas County or Local History There is a deep and abiding connection between humans and the land in Pinto Canyon, a remote and rugged place near the border with Mexico in the Texas Big Bend. Here the land assumes a certain primacy defined not by the ephemera of plants and animals but by the very bedrock that rises far above the silvery flow of Pinto Creek, looming masses that break the horizon into a hundred different vistas. Yet over time people managed to survive and sometimes even thrive in this harsh environment. *In the Shadow of the Chinatis* combines the rich narratives of history, natural history and archeology to tell the story of the landscape as well as the people who once inhabited it. Settling the land was difficult; staying on it even more so, but one family proved especially resilient. Rising above their meager origins, the Prietos eventually amassed a 12,000-acre ranch in the shadow of the Chinati Mountains to become the most successful of Pinto Canyon's early settlers. But starting with the tense years of the Great Depression, the family faced a series of tragedies: one son was killed by a Texas Ranger and another by the deranged son of Chico Cano, the Big Bend's most notorious bandit. Ultimately, growing rifts in the family forced the sale of the ranch, marking the end of an era. Bearing the hallmarks of an epic tragedy, the departure of the Prieto family signaled a transition away from ranching towards a new style of landownership based on a completely different model. Today, Pinto Canyon's scenic and scientific value increasingly overshadows the marginal economics of its past. *In the Shadow of the Chinatis* reveals a rich tapestry of interaction between humans and their environment, providing a unique examination of the Big Bend region and the people who call it home

A History of the Methodist Church in Great Britain, Volume Four Rupert E. Davies, A. Raymond George, Gordon Rupp, 2017-06-14 With this volume, the publication of *A History of the Methodist Church in Great Britain* comes to its appointed end. The project of writing it was initiated by the Methodist Conference of 1953, and the lapse of time since then has made it possible to include at appropriate points the results of the continuing research into the origins and nature of Methodism, but the chance and changes of this mortal life, which are bound to impinge on the progress of so complex an enterprise together with the heavy involvement of all the contributors in ecclesiastical, ecumenical and academic affairs, have made this period much longer than the General Editors would have wished. From the Preface

Why Did Ancient States Collapse? Malcolm Levitt, 2019-09-05 Rooted in agriculture, sedentism and population growth, ancient states were fragile and prone to collapse. There is an ongoing debate about the importance, nature and even existence of state-wide collapse. This book investigates why ancient states collapsed and examines to what extent inequality contributed to their downfall

Das vorliegende Buch ist die erste zusammenfassende historische Gesamtdarstellung der Baustatik vom 16. Jahrhundert bis heute über die Reihe edition Bautechnikgeschichte. Mit erstaunlicher Dynamik hat sich die Bautechnikgeschichte in den vergangenen Jahrzehnten zu einer höchst lebendigen international vernetzten und viel beachteten eigenständigen Disziplin entwickelt. Auch wenn die nationalen Forschungszugänge unterschiedliche Akzente setzen, eint sie doch das Bewusstsein, dass gerade die inhaltliche und methodische Vielfalt und das damit verbundene synthetische Potenzial die Stärke des neuen Forschungsfeldes ausmachen. Bautechnikgeschichte erschließt neue Formen des Verstehens von Bauen zwischen Ingenieurwesen und Architektur, zwischen Bau und Kunst, Technik und Wissenschaftsgeschichte. Mit der edition Bautechnikgeschichte erhält die neue Disziplin erstmals einen Ort für die Publikation.

The Mountbattens Andrew Lownie, 2021-09-07 The intimate story of a unique marriage spanning the heights of British glamour and power that descends into infidelity, manipulation and disaster through the heart of the twentieth century. DICKIE MOUNTBATTEN A major figure behind his nephew Philip's marriage to Queen Elizabeth II and instrumental in the royal family taking the Mountbatten name, he was Supreme Allied Commander of South East Asia during World War II and the last Viceroy of India. EDWINA MOUNTBATTEN Once the richest woman in Britain and a playgirl who enjoyed numerous affairs, she emerged from World War II as a magnetic and talented humanitarian worker who was loved throughout the world. From British high society to the South of France, from the battlefields of Burma to the Viceroy's House, *The Mountbattens* is a rich and filmic story of a powerful partnership revealing the truth behind a carefully curated legend. Was Mountbatten one of the outstanding leaders of his generation or a man over-promoted because of his royal birth, high level connections, film star looks and ruthless self-promotion? What is the true story behind controversies such as the Dieppe Raid and Indian Partition, the love affair between Edwina and Nehru and Mountbatten's assassination in 1979?

Gandhi and the Caste Question in Colonial India Shashi Bhushan Upadhyay, 2025-06-06 This book comprehensively surveys and critically analyses Gandhi's ideas on caste and untouchability. It emphasizes the fact that Gandhi was a considerable thinker who had seminal ideas on the caste question. As an intellectual history, this book is not just a study of his ideas but also of what he practised. It narrates his lifelong struggle against untouchability since his South African days and focuses on his distinctive understanding of the caste question which differed sharply from that of his contemporaries, both on the right and the left. The book also critically analyses and questions the attribution of strategy to Gandhi with regard to both the nationalist and anti-untouchability movements. The volume will be of great interest to scholars and researchers of history, caste and discrimination studies and South Asian studies.

Reason, Community and Religious Tradition Scott Matthews,2017-10-05 This title was first published in 2001 Reason Community and Religious Tradition examines key questions about the relationship of rationality to its contexts by tracing the

early history of the so called ontological argument The book follows Anselm s Proslogion from its origins in the private devotional context of an eleventh century monastery to its reception in the public and adversarial contexts of the friars schools in the thirteenth century Using unpublished manuscript evidence from the Dominican and Franciscan schools at Oxford Paris and Bologna in the thirteenth century Matthews argues that the debate over Anselm s argument embodied the broader religious differences between the Franciscan and Dominican communities By comparing the most famous figures of the period with their lesser known contemporaries Matthews argues that the Friars thought as communities and developed as traditions as they developed their arguments This book will interest anyone concerned with the nature of rationality and its relationship to communities and traditions and what this entails for rational debate across cultural divides In particular it offers a fresh perspective on traditional approaches to the rationality of religion and religious belief
