Reasonable Faith The Scientific Case For Christianity:

Reasonable Faith Jay L. Wile,1997 **Reasonable Faith: The Scientific Case for Christianity** Audio CD,2006-08-09

In this CD Dr Wile lays out a complete argument for the validity of the Christian faith He begins with the scientific evidence that demonstrates the existence of God Based on his arguments the listener will quickly realize that science unerringly points to the existence of a supernatural creator He then uses medical science and historical science to demonstrate quite clearly that the Creator is the God of the Bible after listening to this tape you will understand that the Christian faith can be backed up with scientific evidence This is a recorded presentation based on the book *Reasonable Faith* it is NOT the book on CD

Reasonable Faith William Lane Craig,2008 This updated edition by one of the world s leading apologists presents a systematic positive case for Christianity that reflects the latest work in the contemporary hard sciences and humanities Brilliant and accessible *Unreasonable Faith* James Fodor,2022-06-29 He has written or edited more than 30 books his arguments for God and Jesus are frequently cited by Christian apologists around the world and he has severely overstated his case through a series of blatant mischaracterizations and philosophical blunders You may have heard of William Lane Craig a professor of philosophy at Talbot School of Theology who is known for debating atheists but even if you haven t you have probably heard his arguments through followers and fans He is known for painting faith as the reasonable road and falsely claiming that he can prove the validity of his religion From his work attempting to show evidence for Jesus resurrection to his development of the Kalam cosmological argument for the existence of God Craig is respected among his peers on the Christian side of the religious spectrum But is that deserved What s at the core of these arguments Are they philosophically sound More importantly is this *Unreasonable Faith* an excellent destruction of W L Craig s entire apologetics Cogently argued and factually accurate this is required reading for anyone keen to question the soundness of anything W L Craig has argued over the decades Which makes it an invaluable resource for refuting Christian apologetics generally Richard Carrier author on the historicity of Jesus This book should be required reading for anyone who is proposing to debate William Lane Craig on the existence of God It should also be something that those who debate Craig on that topic advertise this book gives an accurate idea of the amount of material that needs to be provided to begin to address the usual panoply of arguments that Craig puts forward in a debate Professor Graham Oppy Monash James Fodor has a graduate degree in physics at the University of Melbourne and is a research assistant in structural biology at Monash University With a keen interest in philosophy he writes for the *Rationalist* magazine on various subjects in religion and epistemology As president of the University of Melbourne Secular Society he has engaged in numerous discussions and public debates concerning religion with a focus on secular morality and the evidence for the resurrection of Jesus He also has a keen interest in effective altruism and computational neuroscience **The Study of Science and Religion** Carl Reinhold Brakenhielm,2018-06-06 The main aim of this book is to contribute to the relationship between science and religion This book aims to do constructive

theological work out of a particular cultural context The point of departure is contemporary Swedish religion and worldviews One focus is the process of biologization i e how the worldviews of the general public in Sweden are shaped by biological science Is there a gap between Swedes in general and the perceptions of Swedish clergy The answer is based on sociological studies on science and religion in Sweden and the United States Furthermore the book contains a study of Swedish theologians from Nathan Soderblom to the present Archbishop Antje Jackelen and their shifting understanding of the relation between science and religion The philosophical aspects of this relation are given special consideration What models of the relation inform the contemporary scholarly discussion Are science and religion in conflict separate or in mutual creative interaction

Coming to Faith Through Dawkins Alister McGrath, Denis Alexander, 2023-08-29 Richard Dawkins Christian evangelist Editors Denis Alexander and Alister McGrath gather other intelligent minds from around the world to share their startling commonality Richard Dawkins and his fellow New Atheists were instrumental in their conversions to Christianity Despite a wide range of backgrounds and cultures all are united in the fact that they were first enthusiasts for the claims and writings of the New Atheists But each became disillusioned by the arguments and conclusions of Dawkins causing them to look deeper and with more objectivity at religious faith The fallacies of Christianity Dawkins warns of simply don't exist Spending time in this fascinating and powerful book is like being invited to the most interesting dinner party you've ever attended Listen as twelve men and women from five different countries across a variety of professions philosophers artists historians engineers scientists and more explain their journeys from atheism to faith In the end you may come away having reached the same conclusion authentic Christian faith is in fact more intellectually convincing and rational than New Atheism Lucid as well as exhilarating and wide ranging Rupert Shortt Von Hugel Institute University of Cambridge and author of *God Is No Thing* Many people including nonbelievers like me have found Dawkins's strident atheism upsetting to the point of offensive I would never have thought that as *Coming to Faith Through Dawkins* shows in wonderful detail for some Dawkins's rantings were the spur to Christian faith Michael Ruse Professor of Philosophy Emeritus University of Guelph Ontario This is a novel book real life stories of people who have actually come to faith not in spite of but through Richard Dawkins It must be his own worst nightmare William Lane Craig Houston Christian University

Blomberg and extensive recommended resources *Behold the Man: Essays on the Historical Jesus* represents a wide ranging interdisciplinary engagement with historical Jesus studies
