James Fodor, 2022-06-29 He has written or edited more than 30 books his arguments for God and Jesus are frequently cited by Christian apologists around the world and he has severely overstated his case through a series of blatant mischaracterizations and philosophical blunders You may have heard of William Lane Craig a professor of philosophy at Talbot School of Theology who is known for debating atheists but even if you haven t you have probably heard his arguments through followers and fans He is known for painting faith as the reasonable road and falsely claiming that he can prove the validity of his religion From his work attempting to show evidence for Jesus resurrection to his development of the Kalam cosmological argument for the existence of God Craig is respected among his peers on the Christian side of the religious spectrum But is that deserved What s at the core of these arguments Are they philosophically sound More importantly is this Unreasonable Faith an excellent destruction of W L Craig s entire apologetics Cogently argued and factually accurate this is required reading for anyone keen to question the soundness of anything W L Craig has argued over the decades Which makes it an invaluable resource for refuting Christian apologetics generally Richard Carrier author on the historicity of Jesus This book should be required reading for anyone who is proposing to debate William Lane Craig on the existence of God It should also be something that those who debate Craig on that topic advertise this book gives an accurate idea of the amount of material that needs to be provided to begin to address the usual panoply of arguments that Craig puts forward in a debate Professor Graham Oppy Monash James Fodor has a graduate degree in physics at the University of Melbourne and is a research assistant in structural biology at Monash University With a keen interest in philosophy he writes for the Rationalist magazine on various subjects in religion and epistemology As president of the University of Melbourne Secular Society he has engaged in numerous discussions and public debates concerning religion with a focus on secular morality and the evidence for the resurrection of Jesus He also has a keen interest in effective altruism and computational neuroscience

Waltman, 2023-04-06

Why does God seem so hidden obscure and silent Why doesn't he make himself known in a more explicit way to those who dispute his existence This line of questioning presents a perplexing conundrum for Christian theologians On the one hand Christians affirm that God's revelation of himself is sufficient but on the other hand it appears that some genuine seekers remain unconvinced of his existence In recent decades philosopher J L Schellenberg has proposed an argument for atheism that attempts to exploit this apparent contradiction This book offers a new take by approaching the conversation using a Trinitarian theological lens The character of Trinitarian love shapes the way God communicates in pursuit of relationships Namely God desires spiritually oriented communal divine human relationships and this endeavor necessarily entails hiddenness This work proposes five spiritual criteria that an individual must meet to be open to having a relationship with the triune God and these are the criteria that atheists have failed to consider Articulating these five is exactly what is needed to resolve the vexing theological puzzle of divine hiddenness **Christian Apologetics** Alister E. Renewing Philosophy of Religion Paul Draper, J. L. Schellenberg, 2018-01-26 This book is animated by a shared conviction that philosophy of religion needs to change thirteen new essays suggest why and how The first part of the volume explores possible changes to the focus of the field The second part focuses on the standpoint from which philosophers of religion should approach their field In the first part are chapters on how an emphasis on faith distorts attempts to engage non western religious ideas on how philosophers from different traditions might collaborate on common interests on why the common presupposition of ultimacy leads to error on how new religious movements feed a naturalistic philosophy of religion on why a focus on belief and a focus on practice are both mistaken on why philosophy's deep axiological concern should set much of the field's agenda and on how the field might

contribute to religious evolution The second part includes a qualitative analysis of the standpoint of fifty one philosophers of religion and also addresses issues about humility needed in continental philosophy of religion about the implausibility of claiming that one's own worldview is uniquely rational about the Moorean approach to religious epistemology about a Spinozan middle way between insider and outsider perspectives and about the unorthodox lessons we could learn from scriptures like the book of Job if we could get past the confessional turn in recent philosophy of religion The goal of the volume is to identify new paths for philosophers of religion that are distinct from those travelled by theologians and other scholars of religion
