Rebecca and Rowena William Makepeace Thackeray, 1850 **Literary Awakenings** Ronald Koury, 2017-02-02 During the past thirty years the editors of the Hudson Review have observed a trend among some of the best literary essayists and reviewers to situate their criticism in a deeply personal manner as opposed to the theoretical technocratic work being produced in many literary and academic publications Over time the Hudson Review became a home for this kind of accessible memoirist writing *Literary Awakenings* collects eighteen essays published over the last three decades that celebrate the writer's relationship with literature one that is deeply shaped by experience and remembrance The essays gathered here recall disparate awakenings to the influence of literature and discoveries of the many ways in which it enriches nearly every aspect of our lives Antonio Muñoz Molina describes his education as a writer and a citizen as a form of protest against Franco's totalitarian regime in Spain Drawing upon Huckleberry Finn Wendell Berry meditates on the impulse to escape that literature often invokes and Judith Pascoe's tribute to Clarissa confesses to the appeal of reading select literature that initiates one into an exclusive coterie of people What unites these diverse contributions is the joy of appreciation the pleasures of engaging with literature

Secondary Heroines in Nineteenth-century British and American Novels Jennifer Camden, 2010 Taking up works by Samuel Richardson James Fenimore Cooper Sir Walter Scott and Catharine Maria Sedgwick among others Jennifer B Camden examines the role of secondary heroines in early British and American novels By showing that they are a site for the displaced anxieties produced by the national ideals proffered in the novel Camden offers an important intervention into the ways in which early novels use character to further ideologies of race class sex and gender *Hampton's Magazine*, 1910 **Audacious Kids** Jerry Griswold, 2014-11-01 The definitive book length study of the great classics of American children's literature now updated for a new century Outstanding Book of the Year Award Children's Literature Association Often called the Golden Age of Children's Books the years stretching from the Civil War to World War I were a remarkable epoch in juvenile literature an era when the best authors on both sides of the Atlantic wrote some of their finest work primarily for children In *Audacious Kids* Jerry Griswold provides a groundbreaking and lucid study of twelve of these classic American children's tales including such time honored stories as *Little Women* *Tom Sawyer* *The Secret Garden* and *The Wizard of Oz* Griswold's most remarkable insight is that fundamentally these twelve books all tell essentially the same story a child is orphaned makes a journey is adopted and harassed by adults and eventually triumphs over them and comes into his or her own Griswold a leading figure in the study of children's literature also reveals that these tales emphasize motifs that are distinctly American such as positive thinking concern with health and the concealment of sex and violence and he shows how these secular parables replaced religion with psychology and preached gospels of emotional self control and optimism In this revised edition which is aimed at students scholars and general readers Griswold has updated the text throughout and added a new preface introduction and select bibliography *CHILDREN'S*

Douglas Fairbanks and the American Century John C. Tibbetts, James M. Welsh, 2014-06-02 Douglas Fairbanks and the American Century brings to life the most popular movie star of his day, the personification of the Golden Age of Hollywood. At his peak in the teens and 1920s, the swashbuckling adventurer embodied the new American century of speed, opportunity, and aggressive optimism. The essays and interviews in this volume bring fresh perspectives to his life and work, including analyses of films never before examined. Also published here for the first time in English is a first-hand production account of the making of Fairbanks's last silent film, *The Iron Mask*. Fairbanks (1883-1939) was the most vivid and strenuous exponent of the American Century, whose dominant mode after 1900 was the mass marketing of a burgeoning democratic optimism at home and abroad. During those first decades of the twentieth century, his satiric comedy adventures shadow-boxed with the illusions of class and custom. His characters managed to combine the American easterner's experience and pretension and the westerner's promise and expansion. As the masculine personification of the Old World aristocrat and the New World self-made man tied to tradition yet emancipated from history, he constructed a uniquely American aristocrat striding into a new age and sensibility. This is the most complete account yet written of the film career of Douglas Fairbanks, one of the first great stars of the silent American cinema and one of the original United Artists, comprising Fairbanks, Mary Pickford, Charlie Chaplin, and D. W. Griffith.

John C Tibbetts and James M Welsh's text is especially rich in its coverage of the early years of the star's career from 1915 to 1920 and covers in detail several films previously considered lost

The Secular Scripture and Other Writings on Critical Theory, 1976-1991 Northrop Frye, 2006-12-15 Northrop Frye's *The Secular Scripture* was first

published in 1976 and was soon recognized as one of his most influential works reflecting an extensive development of Frye's thoughts about romance as a literary form. This new edition in the Collected Works of Northrop Frye series brings *The Secular Scripture* together with thirty shorter pieces pertaining to literary theory and criticism from the last fifteen years of Frye's life. Frye's study illuminates the enduring attraction and deep human significance of the romance genre in all its forms. He provides a unique perspective on popular fiction and culture and shows how romance forms have by their very structural and conventional features an ability to address both specific social concerns and deep and fundamental human concerns that span time and place. In distinguishing popular from elite culture, Frye insists that they are both ultimately two aspects of the same human compulsion to create in the face of chaos. The additional late writings reflect Frye's sense at the time that he was working toward some kind of final statement which eventually saw the light of day only months before his death as *Words with Power* (1990).

The Secular Scripture Northrop Frye, 1976. Reassesses the tradition and individual works of Western romance from ancient Greece to the present as constituting an imaginative universe in which man moving between the idyllic and demonic functions as a scriptural hero.
