**The Crystal Spheres of the Illuminati** Adam Weishaupt,2013-01-25 700 years ago religion made much more sense to people than it does now It was part of a coherent worldview linking all of the knowledge of the world then available including the science and cosmology of the time Religion nowadays seems rather ridiculous because the modern paradigm of scientific materialism has destroyed the link between humanity and the divine order To be religious in the past wasn t stupid now it is This book explores the ancient Greek and medieval cosmology that supported the view that Earth was specially created by God The crystal spheres of the heavens with Earth at the centre were beautiful wondrous and inspiring They fitted in perfectly with ideas of spirituality angels and astrology This is one of a series of books by the Pythagorean Illuminati designed to reveal the absurdity and untenability of the Abrahamic religions in the modern scientific era
