Moutray, 2016-03-22 In eighteenth century literature negative representations of Catholic nuns and convents were pervasive Yet during the politico religious crises initiated by the French Revolution a striking literary shift took place as British writers championed the cause of nuns lauded their socially relevant work and addressed the attraction of the convent for British women Interactions with Catholic religious including priests and nuns Tonya J Moutray argues motivated writers including Hester Thrale Piozzi Helen Maria Williams and Charlotte Smith to reevaluate the historical and contemporary utility of religious refugees Beyond an analysis of literary texts Moutray s study also examines nuns personal and collective narratives as well as news coverage of their arrival to England enabling a nuanced investigation of a range of issues including nuns displacement and imprisonment in France their rhetorical and practical strategies to resist authorities representations of refugee migration to and resettlement in England relationships with benefactors and locals and the legal status of English nuns and convents in England including their work in recruitment and education Moutray shows how writers and the media negotiated the multivalent figure of the nun during the 1790s shaping British perceptions of nuns and convents during a time critical to their survival **Citoyennes** Annie Smart, 2011-12-23 In *Citoyennes* Annie Smart argues that many revolutionary and pre revolutionary works constructed a civic identity for women and portrayed the home as a site for both civic virtue and private subjectivity This interdisciplinary study offers a fresh interpretation of the role of women and the home in eighteenth century France and goes a long way to filling a gaping hole in the contemporary literature on the subject **French Opera 1730-1830: Meaning and Media** David Charlton, 2024-10-28 The majority of these collected essays date from 1992 onwards three of them having been specially expanded for this volume Drawing on recent archival research and new musicological theory they investigate distinctive qualities in French opera from early opéra comique to early grand opera Media is interpreted in terms of both narrative systems and practical theatre resources One group of essays identifies narrative systems in minuet scenes in the diegetic romance and in special uses of musical motives Another group concerns the theory and aesthetics of opera in which uses of metaphor help us interpret audience reception A third group focuses on orchestral and staging practices brought together in a new theory of the melodrama model linking various genres from the 1780s with the world of the 1820s French opera s relation with literature and politics is a continuing theme explored in writings on prison scenes Ossian and public private dramaturgy in grand opera David Charlton has written widely on French music and opera topics for over 25 years The selection of his articles presented here focuses on the period 1730-1830 when Paris was a hotbed of influential ideas in music and music theatre with many of these ideas taken up by foreign composers This volume assesses the French contribution to the development of Classical and Romantic styles and genres which has hitherto not received the attention it deserves

English feminists and their opponents in the 1790s William

Stafford, 2024-06-04 This fascinating book examines what sixteen radical and conservative famous and notorious British women wrote about their sex in the 1790s. It offers the most comprehensive survey of what they thought about their fellow women with regard to love, sexual desire, and marriage; their domestic roles and their engagement in the public sphere; and issues of gender and female abilities, including sensibility and genius. How contemporary reviewers divided women writers into unsexed and proper is investigated, as is the issue of whether they attempted to exclude women from certain kinds of writing. The book reveals the depth of female complaint but contends that women did not passively submit. Conservative and radicals alike sought to extend their sphere of activity to reform men, challenge gender stereotypes, and propose that a woman should be a self for herself and her God rather than for her husband.
