**Rebels and Bureaucrats** John Israel, Donald W. Klein, 1974      Tools of War, Tools of State Robert Tynes, 2018-09-01  
Examines why many governments rebels and terrorist organizations are using children as soldiers Despite the supposed taboo against the practice many governments rebels and terrorist groups use children in war to spy and kill In Tools of War Tools of State Robert Tynes examines this complex problem demonstrating that the modern use of children in war is a tactical innovation He discusses how boys and girls on the battlefield bolster troop size create moral dilemmas and deepen the level of fear He also reveals how the practice has become an essential component for groups such as ISIS and al Shabaab in their state making projects Using statistical methods to analyze conflicts from 1987 to 2007 Tynes shows how widespread child soldier use is and confirms the theory that it is tactically advantageous Through historical analysis he explains how child soldiering developed out of Mao s protracted war theory and the militarization of youth during the twentieth century A case study of the civil war in Sierra Leone which details the brutality involved when children are forced to fight is included

**Youth** Kristin Mulready-Stone, 2014-11-27 In the late nineteenth and early twentieth centuries youth emerged as a new and important social force in many parts of the world In China the image of this new youth imprinted itself on Chinese consciousness and made clear to potential national leaders that future governments would not be able to ignore China's youth or expect them simply to step in line For this and other reasons the Chinese Communist Party CCP the Chinese Nationalist Party GMD and a string of War of Resistance era collaborationist governments all formed youth organizations in an effort to win youth over and harness their vitality and enthusiasm to further their agendas Mobilizing Shanghai Youth explores the similarities and differences among three youth organizations that were connected to Chinese political parties or governments in Shanghai spanning from the beginning of the May Fourth Movement just as youth began to emerge as a powerful social and political force in China to World War II when Nationalist Communist and Japanese forces were still competing for dominance It takes a comparative approach in exploring the similarities and differences trials and tribulations in how the Chinese Communist Party Chinese Nationalist Party and a series of collaborationist regimes sought to appeal to youth through the Communist Youth League the Three People's Principles Youth Corps and the China Youth Corps Focusing on Greater Shanghai allows a detailed exploration of the rise and fall of the original Communist Youth League and its connections to international communism The spotlight on Shanghai also yields the extraordinary finding that the Three People's Principles Youth Corps was a valuable asset to the Nationalist Party operating as a potent resistance organization in Japanese controlled Shanghai whereas branches in Nationalist controlled territory were factionalized dysfunctional and a terrible liability for the Party Most surprisingly the collaborationist China Youth Corps took the most practical and in some ways the most successful approach to mobilizing China's youth The result of exhaustive archival research this book will be of huge interest to students and scholars of Chinese history modern history Communism and the role of youth in revolution

loyalty over the trajectory of the Second Sino Japanese War Chinese Civil War and postwar Taiwan During the Sino Japanese War the Nationalists managed middle school refugee students by merging schools publishing and distributing updated textbooks and assisting students as they migrated to the interior with their principals and teachers In Taiwan the China Youth Corps CYC became a symbol of the regime s successful establishment Tracing Nationalist efforts to indoctrinate ideology and martial spirit Jennifer Liu investigates how GMD leaders Chiang Kai shek and his son Chiang Ching kuo tried to build support among young people in their efforts to stabilize Taiwanese society under their rule By comparing two key youth organizations the Three People s Principles Youth Corps in China and the CYC on Taiwan Liu uses education as a lens to analyze state building in modern China Liu s careful analysis of the inner workings of GMD youth organizations also illuminates the day to day operations of military training in gender segregated upper middle schools including how the government selected instructors and the skills taught to students According to Liu mandatory military training contributed to preventing major protest against the government but the policy was not without critics Intellectuals parents and students voiced their dissent at what they perceived as excessive control by a repressive government and a waste of resources interfering with academics The government mandated civics curriculum including government approved textbooks and standards reveals the characteristics and duties GMD officials believed modern citizens of the next generation should possess Through provisions for refugee students youth organizations military training and civics classes GMD secondary education policy played a critical role in the process of state building in both modern China and Taiwan Skillfully combining archival work in Nanjing and Taipei along with oral interviews with former students and CYC administrators instructors and members Liu offers a unique perspective toward a balanced assessment of Nationalist Party rule *Saving the Nation* Thomas H. Reilly, 2020 While Protestant Christians made up only a small percentage of China s overall population during the Republican period they were heavily represented among the urban elite Chinese Protestant elites adapted both the social message and practice of Christianity so that they were better able to contribute to the building of a New China *Saving the Nation* recounts the history of the Protestant elite and their struggle to strengthen and renew their nation *The Medieval Chinese Oligarchy* David C Johnson, 2019-09-10 Most modern scholars recognize that there were great differences between China s ruling elite in the middle and late traditional period many have called the period up through the T ang dynasty aristocratic in contrast to the more meritocratic and socially mobile age that followed But until now there has been no serious effort to discover how the social elite was defined in medieval times and who belonged to it David Johnson discusses in detail medieval definitions of the social elite and with the help of several manuscripts of the ninth century identifies the families that belonged to that class *Facing Japan* Parks M. Coble, 2020-03-17 In *Facing Japan* Parks M Coble focuses on how events that took place during the Japanese occupation of Manchuria from 1931 until war erupted in 1937 affected the Chinese government and public opinion Both in the places where incidents occurred and in other centres of power Japanese threats

attacks and economic demands pressed Nationalist China relentlessly and aroused popular indignation Throughout most of the period Chiang Kai-shek was trying to wrest control of China from all domestic rivals Aware that his army was inferior to Japan's his Nationalist government repeatedly made concessions in response to Japanese provocations Chiang busied himself with anti-Communist campaigns leaving others to take public responsibility for his unpopular appeasement policies For such crises as the Mukden Incident and the Japanese attack on Shanghai Coble examines the tension that Chiang's policy caused within the Kuomintang and the alternatives put forward by other major leaders both inside and outside the government To further explore the political complexities of the day Coble traces the actions of regional leaders and their constantly changing relations to the central government in Nanking reviews editorials of various newspapers and chronicles the actions of student organizations and patriotic associations

*Legacies of Childhood* Jon L. Saari, 2020-03-17 Jon L. Saari defines the generation of educated Chinese born around the turn of the twentieth century as the last to have the world of Confucian learning etched into their memories as schoolboys yet the first as a group to confront the intrusive Western world The legacies of growing up in a changing environment deeply affected this generation's responses to the further changes in the world they confronted as adults In the collapse of the Qing dynasty and the chaos of the early twentieth century traditional ideas of the self the nature of relationships in society and ethical behavior had to be reexamined and redefined To reconstruct what those who lived through and shaped this extraordinary period felt needed thought and became as children and adults Saari draws on autobiographical writings and his own interviews among the elderly on Taiwan and Hong Kong He interprets this material within its Chinese context but brings Western sociological anthropological and psychological insights to bear on it
