1500-1900 " MeliaBelli Bose,2017-07-05 Women Gender and Art in Asia c 1500 1900 brings women s engagements with art into a pan Asian dialogue with essays that examine women as artists commissioners collectors and subjects from India Southeast Asia Tibet China Korea and Japan from the sixteenth to the early twentieth century The artistic media includes painting sculpture architecture textiles and photography The book is broadly concerned with four salient questions How unusual was it for women to engage directly with art What factors precluded more women from doing so In what ways did

women's artwork or commissions differ from those of men. And what were the range of meanings for woman as subject matter. The chapters deal with historic individuals about whom there is considerable biographical information. Beyond locating these uncommon women within their socio-cultural milieus, contributors consider the multiple strands that twined to comprise their complex identities and how these impacted their works of art. In many cases the woman's status as wife, mother, widow, ruler, or concubine and multiple combinations thereof as well as her religion and lineage determined the media, style, and content of her art. *Women, Gender, and Art in Asia c. 1500-1900* adds to our understanding of works of art, their meanings, and functions.

Kuan-yin Chün-fang Yü, 2001-03-22. By far one of the most important objects of worship in the Buddhist traditions, the bodhisattva Avalokitesvara is regarded as the embodiment of compassion. He has been widely revered throughout the Buddhist countries of Asia since the early centuries of the Common Era. While he was closely identified with the royalty in South and Southeast Asia, and the Tibetans continue to this day to view the Dalai Lamas as his incarnations in China, he became a she, Kuan-yin, the Goddess of Mercy, and has a very different history. The causes and processes of this metamorphosis have perplexed Buddhist scholars for centuries. In this groundbreaking comprehensive study, Chün-fang Yü discusses this dramatic transformation of the male Indian bodhisattva Avalokitesvara into the female Chinese Kuan-yin from a relatively minor figure in the Buddha's retinue to a universal savior and one of the most popular deities in Chinese religion. Focusing on the various media through which the feminine Kuan-yin became constructed and domesticated in China, Yü thoroughly examines Buddhist scriptures, miracle stories, pilgrimages, popular literature, and monastic and local gazetteers as well as the changing iconography reflected in Kuan-yin's images and artistic representations to determine the role this material played in this amazing transformation. The book eloquently depicts the domestication of Kuan-yin as a case study of the indigenization of Buddhism in China and illuminates the ways this beloved deity has affected the lives of all Chinese people down the ages.

Ryōgen and Mount Hiei Paul Groner, 2002-06-30. Ryōgen and Mount Hiei focuses on the transformation of the Tendai School from a small and impoverished group of monks in the early ninth century to its emergence as the most powerful and influential school of Japanese Buddhism in the last half of the tenth century, a position it would maintain throughout the medieval period. This is the first study in a Western language of the institutional factors that lay behind the school's success. At its core is a biography of a major figure behind this transformation, Ryōgen (912-985). The discussion, however, extends well beyond a simple biography, as Ryōgen's activities are placed in their historical and institutional context. Unlike the recluses and eccentrics that have so often attracted Western readers of Buddhism, Ryōgen was a consummate politician and builder. Because he lost his major monastic sponsor at an early age, he was forced to find ways to advance his career with little support. His activities reveal much about the path to success for monks during the tenth century. Skill in debate, the performance of Esoteric Buddhist ritual, and strategic alliances with powerful lay and monastic figures were important to his advance. In 966, Ryōgen was appointed head of the Tendai School and served until his death.

nineteen years later He has been vilified at times for his loyalty to his own faction within Tendai at the expense of other groups Careful analysis of the political and social factors behind his attitudes however places his activities in their appropriate context The study concludes with a discussion of the ordinations and roles of nuns during the early Heian period An examination of Ryogen s close relation with his mother helps define the ambiguities of a school that prohibited women from the precincts of its temple yet performed rituals to insure safe childbirth and frequently attracted their patronage A number of primary sources are translated in the appendices
