Rebuilding Community Policy And Practice In Urban Regeneration:

Rebuilding Community Joan Smith, 2001-10-10 Our poorest urban neighbourhoods experience economic and social difficulties that uniquely affect the lives of those who live there This volume examines the policies and initiatives now underway on both sides of the Atlantic to revitalize those areas With contributors from the US France and the UK the volume explains the nature of specific community building programmes and explores critical issues such as the role of partnerships and the importance of race and gender in urban regeneration

Urban Regeneration in the UK Andrew Tallon, 2009-08-21 Exploring the streets of London Manchester Belfast Edinburgh or Cardiff one cannot help but notice the striking transformations taking place in the urban landscapes This prominent regeneration of urban areas in the UK and around the world has become an increasingly important issue amongst governments and populations The growing concern has been a result of the impacts of the decline of cities since the collapse of manufacturing industries and the heightening of global competition A range of innovative approaches to tackle urban problems have been taken over many decades to attempt to regenerate the fortunes of towns and cities across the UK This text provides an accessible yet critical synthesis of urban regeneration in the UK incorporating key policies approaches issues and debates The central objective of the book is to place the historical and contemporary regeneration agenda into context Section one sets up the conceptual and policy framework for urban regeneration in the UK Section Two traces policies that have been adopted by central government to influence the social economic and physical development of cities including early municipal interventions in the late nineteenth century community focused urban policies of the late 1960s entrepreneurial property led regeneration of the 1980s and competition for urban funds in the 1990s The penultimate section illustrates the key thematic policies and strategies that have been pursued by cities themselves focusing particularly on improving economic competitiveness and tackling social disadvantage These approaches are contextualized by discussions covering for example urban competitiveness policies and the focus on sustainable urban regeneration The final section summarizes key issues and debates facing urban regeneration and speculates upon future directions Urban Regeneration in the UK blends the approaches taken by central government programmes and cities themselves in the regeneration process The latest ideas and examples from across disciplines and across the UK's urban areas are illustrated This book provides a comprehensive and up to date synthesis that will fill a significant gap in the current literature on regeneration and will be a tool for students as well as a seminal read for practitioners and researchers

Community Regeneration Masterplan Francesco Manfredi, Dario Costi, 2023-01-01 This book reports on a large research project on community regeneration which integrated the spatial social economic and organizational factors with the dimensions of sustainability resilience and participation Upon providing a detailed review on concepts of community and urban regeneration it analyses a set of successful case studies from 30 European cities which were selected by the authors from different rankings and awards Fifty seven key performance indicators and the results of

self assessment questionnaires are here introduced to allow a comparative study of best practices and eventually to outline 20 guidelines and 100 strategic actions for future community regeneration projects All in all this book offers extensive information and a source of inspiration for urban planners economists sociologists public administrators stakeholders and all those involved in the development and management of sustainable cities *Key Concepts in Community Studies* Tony Blackshaw,2010 This book is both insightful and engaging enriched with diverse and up to date readings Tony Blackshaw lays bare debates surrounding the uses and abuses of key concepts of community studies and breathes new life into community as theory and community studies as method Peter Bramham Leeds Metropolitan University I would highly recommend this book to any student who is studying communities and groups in society The book and chapters are structured in a way that students will find it easy to move from one theme to another to dip into relevant chapters when needed to gain a good understanding of concepts and how and why they are applied to individuals and communities The book encompasses both breadth and depth of key concepts and issues This book will be compulsory reading on our Community Studies degree Lesley Groom University of Bolton This book defines the current identity of community studies provides a critical but reliable introduction to its key concepts and is an engaging guide to the key social research methods used by community researchers and practitioners Concise but clear it caters for the needs of those interested in community studies by offering cross referenced accessible overviews of the key theoretical issues that have the most influence on community studies today It incorporates all of the important frames of reference including those which are theoretical research focused practice and policy oriented political concerned about the place of community in everyday life The extensive bibliographies and up to date guides to further reading reinforce the aim of the book to provide an invaluable learning resource Interdisciplinary in approach and inventive in its range of applications this book will be of value to students studying sociology social policy politics and community development **Tackling Social Exclusion** John Pierson,2003-09-02 The concept of social exclusion is a central focus of government policy and is rapidly moving to the core of practitioner activity This textbook shows how social workers can combat the social exclusion experienced by service users and at the same time promote social inclusion Tackling Social Exclusion covers the meanings of social exclusion and the common elements of practice needed to reverse it the skills needed when working with specific groups of people including children and families young people and vulnerable adults the neighbourhood dimension in social exclusion the link between race and ethnic minorities and social exclusion and the implications of the Macpherson Report for practice how service agencies can change their organisation to promote inclusion how to work with communities to effect change Each chapter is grounded in real practice examples and explores through activities case studies and exercises how the perspective of social exclusion is changing social work today Tackling Social Exclusion John H. Pierson,2009-10-16 The concept of social exclusion has been a central focus of government policy for the past ten years and is now at the core of much practitioner activity

Thoroughly updated this much needed second edition shows how social workers can combat the social exclusion experienced by service users and at the same time promote social inclusion. It clearly and accessibly demonstrates how concepts and theories of social exclusion can be used to improve practice. **Tackling Social Exclusion** covers social work perspectives and approaches promoting social inclusion contemporary issues such as preventative work with young children and families anti social behaviour and tensions relating to ethnicity immigration and faith the role of the voluntary sector and how service agencies can change their organisation to promote inclusion the skills needed when working with specific groups including children and families young people vulnerable adults and communities as well as new material on social exclusion in more rural areas. Each chapter is grounded in up to date practice examples and explores through activities case studies and exercises how the perspective of social exclusion is changing social work today.

Developing Coalfields Communities David Waddington, 2003-12-03. In 1998 following a sobering report by the Coalfields Task Force New Labour unveiled a 350 million package of measures to remedy coalfield deprivation and social exclusion. This book examines the impact of this investment in Warsop Vale a village which has starkly emphasised the negative consequences of coalfield decline.

Housing and Social Policy Peter Somerville, Nigel Sprigings, 2005. The chapters in this book each consider a specific social category such as class gender or disability and evaluate the experience and understanding of housing and social policy under these categories.

Urban Geography Tim Hall, 2006-04-18. More than simply examining the new geographical patterns forming within cities this third edition of *Urban Geography* also investigates the way geographers have sought to make sense of this urban transformation. Tim Hall critically synthesizes key literatures in the following areas: approaches to urban geography economic geography of the city urban policy new urban forms and landscapes impacts of urban change sustainability and the city. Hall's revised third

edition features enhanced pedagogy including boxed discussion points end of chapter research questions and an introductory chapter which outlines the importance of urban geography Additionally a new concluding chapter encourages students to apply what they have read to their own experiences of cities and helps them to apply these ideas to a dissertation An important volume this revised edition is an essential read for students and scholars of urban geography Social Capital Ed. K.R. Gupta,Prasenjit Maiti,2008 **Tackling Poverty and Social Exclusion** John H. Pierson,2016-04-20 In our highly unequal Britain poverty and social exclusion continue to dominate the lives of users of social work and social care services At the same time spending cuts and welfare reform have changed the context within which services are delivered The third edition of this unique textbook seeks to capture the complexity and diversity of practice relating to social exclusion as social workers adapt to this challenging environment Tackling Poverty and Social Exclusion prepares practitioners to engage directly with the social and personal circumstances facing excluded individuals and their families The volume Explains the development of the concept of social exclusion as a framework for understanding the impact of poverty and other deprivations on users lives and outlines five building blocks for combating exclusion in practice Locates practice within social work values of fairness and social justice while acknowledging the many challenges to those values Includes individual chapters on excluded children and families young people and adults with chapters also on practice in disadvantaged neighbourhoods and rural communities Discusses inclusionary practice in relation to racism as well as refugees and asylum seekers Throughout the book encourages students and practitioners to think through the range of approaches perspectives and value choices they face To facilitate engagement each chapter includes up to date practice examples case studies and specific questions for readers to reflect on *Producing Welfare* Chris Miller,2017-05-02 This book is about the organization and delivery of welfare services a subject that is currently the focus of hot debate as successive governments seek to modernize public services in response to recent social economic and political change Written specifically for a student readership it provides a critical and contemporary exploration of the organizational models processes and structures associated with different approaches to welfare including traditional post war approaches and the new right Particular emphasis is given to the formulation and implementation of policy under the current British Labour government

Architectural Regeneration Aylin Orbasli,Marcel Vellinga,2020-08-03 A comprehensive and detailed overview of the active regeneration rehabilitation and revitalisation of architectural heritage The combined processes of globalisation urbanisation environmental change population growth and rapid technological development have resulted in an increasingly complex dynamic and interrelated world in which concerns about the meaning of cultural heritage and identity continue to grow As the need for culturally and environmentally sustainable design grows the challenge for professionals involved in the management of inherited built environments is to respond to this ever changing context in a critical dynamic and creative way Our knowledge and understanding of the principles approaches and methods to sustainably adapt existing buildings and

places is rapidly expanding Architectural Regeneration contributes to this knowledge base through a holistic approach that links policy with practice and establishes a theoretical framework within which to understand architectural regeneration It includes extensive case studies of the regeneration rehabilitation and revitalisation of architectural heritage from around the world Different scales and contexts of architectural regeneration are discussed including urban suburban rural and temporary At a time when regeneration policy has shifted to the recognition that heritage matters and that the historic environment and creative industries are a vital driver of regeneration an increasing workload of architectural practices concerns the refurbishment adaptive re use or extension of existing buildings As a result this book is ideal for undergraduate and graduate students of architecture historic conservation urban and environmental design sustainability and urban regeneration as well as for practitioners and decision makers working in those fields

Spiritual Care in Everyday Nursing Practice

Janice Clarke, 2013-05-31 As changes in technology policy and management put an increasing emphasis on processes and procedures in nursing and health care how do we continue to make room for compassion the ancient human value that calls most nurses to the profession In Spiritual Care in Everyday Nursing Practice Janice Clarke argues that it is compassionate care of the whole person body and soul which is at the heart of nursing practice

that values the individual and respects their dignity Rather than seeing spiritual care as an addition to what nurses already do this new approach considers it a natural part of compassionate care which doesn't present the nurse with an extra ambiguous burden to deal with Providing a brief historical introduction to the concept of spirituality Clarke examines the ways in which our spiritual life a source of strength and meaning can be influenced by factors such as age illness and suffering and mental illness as well as our religious beliefs Providing a practical guide to talking about and working with spirituality she explores how nurses might imbue all their practice including the physical aspects of care from use of touch to helping patients to move bathe and eat with an attention to spiritual needs A timely accessible and practical introduction to a concept that is under explored in contemporary nursing literature this book will be of great value to students and professionals alike

Community Planning Stephanie B. Kelly, 2004-10-08 Community Planning is an introductory interdisciplinary planning textbook This working text uses an integrated text and lab manual approach where theoretical concepts are integrated with practical applications and case studies

Production and Use of Urban Knowledge Hans Thor Andersen, Robert Thomas Atkinson, 2013-06-13 This book provides new insights on cities and the nature of urban development and the role of knowledge management in urban growth It considers how knowledge informs policies and supports decision making and can assist in addressing the drivers of urban change The way that knowledge is produced and used in urban development is analysed with examples drawn from a range of European countries This book illustrates how the development and implementation of policies for urban areas can draw on knowledge management even as the knowledge economy itself stimulates the evolution of the city as a place of innovation and creativity Whilst knowledge grows in importance so do urban issues particularly in economic and political contexts at both European and national levels These essays explore growth in the range of knowledge available in urban contexts the ways to generate new knowledge from a wide range of stakeholders and how these can make an effective contribution to decision making processes in urban development The attractiveness of cities and surrounding areas to knowledge based forms of industry and investment and the competitiveness and performance of cities are a matter of major concern for national governments In a sense it has become too important to leave to city politicians and it is a topic requiring sustained reflection This book gives the reader a detailed understanding of the issues involved and prompts further reflections

Alternative Currency Movements as a Challenge to Globalisation? Peter North, 2018-02-06 Over the past 15 years local money networks which are essentially trading networks using a community created currency have emerged in countries as far apart as Argentina Australia and New Zealand Canada and the US continental Europe and Japan They range from Local Exchange Trading Schemes UK to Time Dollars US Green Dollars New Zealand Australia and Canada Trading Circles Hungary Barter Networks Argentina and Talents Germany Drawing on an ethnographic case study of alternative currency movements in Manchester UK this book provides an analysis of the motivations aims successes and failures of alternative currency networks It also raises questions

such as the contribution of the alternative currency movement to current debates about alternatives to neoliberalism While it is theoretically informed critical and grounded in fieldwork it is also sympathetic to the political aims of the protagonists and cognisant of the non economic benefits that arise from their development
