Indira Gandhi and the Years That

Transformed India Srinath Raghavan, 2025-05-30 Indira Gandhi's ascent as prime minister of India in 1966 was entirely unforeseen But she soon emerged as one of the most powerful political leaders of her times who transformed the world's largest democracy She served as prime minister for a remarkable fifteen years leaving behind a complex and deeply controversial legacy In this fascinating account Srinath Raghavan tells the story of Indira Gandhi's political career and the momentous changes that India experienced under her leadership From her tentative start in high office to her remarkable electoral victories the dark days of the Emergency of 1975-77 and her assassination at the hands of her bodyguards in 1984 Raghavan sheds new light on her politics and government as well as on her adversaries and critics He shows how the 1970s were the hinge on which the history of the country turned and how Indira Gandhi transformed the new postcolonial nation into the India of today

Shaping India's New Destiny Jagmohan, 2010-04-25 In this book the author in the backdrop of his vast and varied experience looks at the major challenges confronting the country after about six decades of her tryst with destiny The analysis done indicates how these challenges have arisen how deep rooted infirmities of the Indian state and society have remained untackled how a leadership with a great vision and will has not emerged at various levels of public life and how the current culture of superficiality has prevented the nation from perceiving the dangers that lie ahead But the book is not restricted to analysis alone Nor does it limit itself to viewing the fall out of India's failed tryst with destiny It offers a new architecture for reshaping this destiny and looking forward to another tryst Shri Jagmohan with his characteristic candour observes The light of freedom about which Jawaharlal Nehru spoke so eloquently on the night of August 14-15 1947 was too weak to pierce through the darkness created by the heaps of garbage which India had collected in her courtyards during the long period of her social and cultural degeneration

Crisis of environment and climate change Jagmohan, 2008

Triumphs and Tragedies of Ninth Delhi Jagmohan, 2015-10-01 In this insightful book

Jagmohan recounts the moments of triumphs and tragedies which he came across during his long and eventful date with Delhi's development from Jawaharlal Nehru's time till date. His narration and analysis of these moments in the context of larger forces that have remained embedded in the post 1947 India bring under sharp focus a number of fundamental questions that need in depth consideration of national leadership of all hue and colour. Why did Nehru despite his grand vision of a beautiful and balanced growth of Delhi extend only a weak implementational hand when it came to actualizing that vision on the ground? How was it that while most of her senior party leaders of Delhi lambasted the author and his colleagues for launching a drive to implement some of the clearance redevelopment projects Ms Indira Gandhi experienced a sense of thrill and pride when the results of that drive surfaced on the ground and enhanced the image of the Republic and its Capital especially in early 1980s the years of hosting ASIAD NAM CHOGAM? Why were the few remnants of Gandhian Truth which were seen in Prime Minister Morarji Desai's stand regarding Master Plan schemes butchered by his Home Ministry bureaucratic caucus and the Shah Commission? How was it that when in accordance with pre Emergency decision of the Central Government and unanimous resolution of the Delhi Municipal Corporation the government owned slums of Turkman Gate were cleared it was given a communal colour and subjected to the most diabolical campaign of calumny known to contemporary Indian history? What led Prime Minister A B Vajpayee a nobility oriented statesman to act against his own beliefs and change author's portfolio of Urban Development? Why did Mrs Sonia Gandhi Shieela Dikshit regime think that its principal plank for winning Delhi State Assembly Elections and Lok Sabha Elections should be a large reward to those who had ravaged with impunity the landscape of Delhi in form of thousands of unauthorized colonies? And why could not rival political parties think of any plan other than competitive negativity? How is it that We the People hardly ask ourselves In what type of Delhi do we want to live and what type of legacy do we wish to bequeath to posterity and to our children and grand children? Do we want our city to become junk yard of unauthorized constructions mirroring civic and moral chaos? Was inaction on the part of the Election Commission to check the existence of an unhealthy clientistic relationship between the land grabber illegal builder voters and those seeking their votes justifiable? The author has many other posers which extend to the infected ethos of Indian State Society and Civilization. Nor does the author limit himself to questions and posers. He points to the way out outlining a broad strategy of action.

Soul And Structure Of Governance In Indi , Remaking Cities (Routledge Revivals) Alison Ravetz,2013-10-08 This book published in 1980 is an iconoclastic account of one of the pillars of the welfare state British town and country planning between 1945 and 1975 Always a fine balance between central control and market forces it was challenged by strains within and between the environmental professions and protest by people dispossessed or alienated by re shaped urban environments Remaking Cities critiques the export of western style planning to the developing world and reviews initiatives rooted in different understandings of growth appearing in those years Nearly forty years on many of the same issues beset us notably the depressingly familiar inner city problem despite countless reports funds and programmes But now our infrastructure and services once publicly owned are privatised and fragmented and local government progressively relegated The very core of planning development control is being pared in a struggle to regain the growth which led to our current crisis This gives fresh importance to the need for new modes of creating liveable sustainable environments emphasised in this important work
