Rebuilding Central Park; a management and restoration plan E. BARLOW ROGERS, 1987

New York City's Central Park Louise Chipley Slavicek, 2009 New York City's Central Park is the most visited urban park in the United States with more than 25 million visitors each year Designed in 1857 by the man who would become America's most famous landscape architect Frederick Law Olmsted and his partner Calvert Vaux Central Park was intended to provide New Yorkers with a serene and scenic rural refuge from the noise and bustle of city life Yet transforming the rocky swampy park site into the rolling meadows lush woodlands and pristine lakes would prove an extremely time consuming and labor

intensive endeavor Thousands of workers drained marshes blasted away boulders and planted a quarter billion trees flowers and shrubs to create the 843 acre green oasis in the heart of Manhattan as envisioned by Olmsted and Vaux The Park and the People Roy Rosenzweig, Elizabeth Blackmar, 1992 Delineate the politicians business people artists immigrant laborers and city dwellers who are the key players in the tale In tracing the park s history the writers also give us the history of New York They explain how squabbles over politics taxes and real estate development shaped the park and describe the acrimonious debates over what a public park should look like what facilities it should offer and how it should accommodate the often incompatible **Computer Human Interaction** Masood Masoodian, Steve Jones, Bill Rogers, 2005-03-01 APCHI 2004 was the sixth Asia Pacific Conference on Computer Human Interaction and was the first APCHI to be held in New Zealand This conference series provides opportunities for HCI researchers and practitioners in the Asia Pacific and beyond to gather to explore ideas exchange and share experiences and further build the HCI network in this region APCHI 2004 was a truly international event with presenters representing 17 countries This year APCHI also incorporated the fifth SIGCHI New Zealand Symposium on Computer Human Interaction A total of 69 papers were accepted for inclusion in the proceedings 56 long papers and 13 short papers Submissions were subject to a strict double blind peer review process The research topics cover the spectrum of HCI including human factors and ergonomics user interface tools and technologies mobile and ubiquitous computing visualization augmented reality collaborative systems internationalization and cultural issues and more APCHI also included a doctoral consortium allowing 10 doctoral students from across the globe to meet and discuss their work in an interdisciplinary workshop with leading researchers and fellow students Additionally five tutorials were offered in association with the conference Saving Central Park Elizabeth Barlow Rogers, 2018-05-15 The story of how one woman s long love affair with New York s Central Park led her to organize its rescue from a state of serious decline returning it to the beautiful place of recreational opportunity and spiritual sustenance that it is today Elizabeth Barlow Rogers opens with a quick survey of her early life a middle class upbringing in Texas college at Wellesley marriage a master s degree in city planning at Yale And then her move to New York where she starts a family and when she finds being a mother and a housewife is not enough pours herself into the protection and enhancement of the city s green spaces Interwoven into her own story is a comprehensive history of Central Park its design and construction as a scenic masterpiece the alterations of each succeeding era the addition of numerous facilities for sports and play and finally the anything goes phase of the 1960s and 70s which was often fun but nearly destroyed the park The two narratives continue to entwine as she finds a job in the administration of Central Park founds the Central Park Conservancy and transforms both the park and herself a transformation that has led to the writing of her many books to travels that have taken her to parks and gardens around the world and to solidifying the prestige of one of New York s most conspicuous landmarks CRM , 2006 The Bridges of Central Park Jennifer C. Spiegler, Paul M. Gaykowski, 2006 The bridges of Central Park are whimsically elegant and practical in their efficiency

Straddling great rock formations roads bridle trails footpaths and waterways more than 50 ornate bridges and arches enable over 60 miles of pathways to fit neatly within a 1 3 square mile recreational space on Manhattan Island Frederick Law Olmsted and Calvert Vaux s competition winning Greensward Plan of 1857 enabled Central Park to become the first landscaped public urban park in America Architects Vaux and Jacob Wrey Mould designed the bridges including some of America s oldest cast iron spans These graceful structures provide breathtaking vistas and unique venues for visitors and artisans alike Standing inconspicuously in most cases and with bold pronouncement in others they are thoughtfully placed to assure a timeless beauty and ongoing utility Built at great expense and well integrated with the surrounding natural and engineered terrain park bridges continue to circulate horseback riders pedestrians and horse drawn carriages effortlessly through the man made haven The Bridges of Central Park celebrates the beauty and dimension of these structures which provide relief for crowded paths and are frequently subjects of the photographer s eye *The Central Park* Cynthia S. Brenwall, Martin Filler, 2019-04-16 A pictorial history of the development of New York City s Central Park from conception to completion Drawing on the unparalleled collection of original designs for Central Park in the New York City Municipal Archives Cynthia S Brenwall tells the story of the creation of New York s great public park from its conception to its completion This treasure trove of material ranges from the original winning competition entry to meticulously detailed maps to plans and elevations of buildings some built some unbuilt to elegant designs for all kinds of fixtures needed in a world of gaslight and horses to intricate engineering drawings of infrastructure elements Much of it has never been published before A virtual time machine that takes the reader on a journey through the park as it was originally envisioned The Central Park is both a magnificent art book and a message from the past about what brilliant urban planning can do for a great city **Who Cleans the Park?** John Krinsky, Maud Simonet, 2017-03-24 America s public parks are in a golden age Hundreds of millions of dollars both public and private fund urban jewels like Manhattan s Central Park Keeping the polish on landmark parks and in neighborhood playgrounds alike means that the trash must be picked up benches painted equipment tested and leaves raked Bringing this often invisible work into view however raises profound questions for citizens of cities In *Who Cleans the Park* John Krinsky and Maud Simonet explain that the work of maintaining parks has intersected with broader trends in welfare reform civic engagement criminal justice and the rise of public private partnerships Welfare to work trainees volunteers unionized city workers sometimes working outside their official job descriptions staff of nonprofit park conservancies and people sentenced to community service are just a few of the groups who routinely maintain parks With public services no longer being provided primarily by public workers Krinsky and Simonet argue the nature of public work must be reevaluated Based on four years of fieldwork in New York City *Who Cleans the Park* looks at the transformation of public parks from the ground up Beginning with studying changes in the workplace progressing through the public private partnerships that help maintain the parks and culminating in an investigation of a park s contribution to urban real estate

values the book unearths a new urban order based on nonprofit partnerships and a rhetoric of responsible citizenship which at the same time promotes unpaid work reinforces workers domination at the workplace and increases the value of park side property Who Cleans the Park asks difficult questions about who benefits from public work ultimately forcing us to think anew about the way we govern ourselves with implications well beyond the five boroughs The Regeneration of Public Parks Ken Fieldhouse, Jan Woudstra, 2012-12-06 The Urban Parks Programme financed by the Heritage Lottery Fund has sparked a new enthusiasm for the regeneration of Britain's parks This unique reference book gives a valuable overview of all the elements of public park design It emphasizes our parks diversity and richness and offers practical guidance as to their renovation and future care It is essential reading for all those involved in the design upkeep and regeneration of public parks
