Recapitulation Paintings And Writings:

Lectures on the Art of Writing ... Interspersed with a great number of plates and examples ... Second edition

Joseph CARSTAIRS, 1822 *German Art History and Scientific Thought* Mitchell B. Frank, 2017-07-05 A fresh contribution to the ongoing debate between Kunstwissenschaft scientific study of art and Kunstgeschichte art history this essay collection explores how German speaking art historians of the late nineteenth and early twentieth century self consciously generated a field of study Prominent North American and European scholars provide new insights into how a mixing of diverse methodologies took place in order to gain a more subtle and comprehensive understanding of how art history became institutionalized and legitimized in Germany One common assumption about early art historical writing in Germany is that it depended upon a simplistic and narrowly defined formalism This book helps to correct this stereotype by demonstrating the complexity of discussion surrounding formalist concerns and by examining how German speaking art historians borrowed incorporated stole and made analogies with concepts from the sciences in formulating their methods In focusing on the work of some of the well known fathers of the discipline such as Alois Riegl and Heinrich Wölfflin as well as on lesser known figures the essays in this volume provide illuminating and sometimes surprising treatments of art history's prior and understudied interactions with a wide range of scientific orientations from psychology sociology and physiognomics to evolutionism and comparative anatomy **History Painting Reassessed** David Green, Peter Seddon, 2000 **Tal Sternagast. Twelve**

Paintings Michael Eissenhauer, Tal Sternagast, 2020-12-04 Berlin's Gemäldegalerie is known for its outstanding collection of European paintings from the thirteenth to eighteenth century Each chapter in this book is dedicated to one painting from the collection In the breadth of this idiosyncratic selection painting as it discovers itself becomes a medium for the formulation of modern subjectivity Each painting in focus unfolds its own making and its artistic concerns as they reflect contemporary issues today What are the paradoxes within which art is made by women How does the primordial drive to destroy works of art affect today's art discourse Where did the modern struggle of painting against the picture begin Why does the Wild Man from early German Renaissance still haunt us And why doesn't it matter whether Jan Vermeer used an optical device for his paintings Twelve Paintings highlights the currentness of the Old Masters **Conceptual Art and Painting** Charles

Harrison, 2001 In *Conceptual Art and Painting* a companion to his *Essays on Art and Language* Charles Harrison reconsiders Conceptual Art in light of renewed interest in the original movement and of the various forms of neo Conceptual art Publisher's description *Annual Report of the Trade of Canada (imports for Consumption and Exports)* Canada. Monthly Reports of the Department of Trade and Commerce of Canada Canada. Department of Trade and Commerce,1913 Agamben's Political Ontology of Nudity in Literature and Art Frances Restuccia,2019-05-13 This volume develops the central though neglected Agambenian concept of nudity along with its crucial political implications The book discovers within The Use of Bodies a philosophical path to Agamben s ontology of nudity as it is subtended by his notion of the messianic a dual temporality of form in motion reflected in the image of a whirlpool that is autonomous although no drop of water belongs to it separately Drawn from Paul and Benjamin rather than Derrida Agamben s messianic is elaborated in this study through its embodiment in literature Woolf s To the Lighthouse James s The Aspern Papers Brodsky s Watermark and Mann s Death in Venice in response to Agamben s insistence on the wedding of poetry and philosophy In particular Coetzee s Disgrace gives poetic form to Agamben s focus on the dissolution of the human animal border the salvation of the unsavable and nudity all to illustrate Agamben s Open without a closedness This text shows how art serves as the house of philosophy also by taking up the nude in visual art making the case that in comprising chronos and kairos the two messianic components of Agamben s ontology of nudity art demonstrates the constitution of form of life for the viewer Emphasizing Agamben s privileged non unveilability nudity this book finally examines two major missed encounters with Heidegger and Lacan philosophers of the veil Veiling to Agamben correlates with the sovereignty bare life structure of the exception which his ontology of nudity is meant to deactivate as there is no such thing as a bare life **Monthly Report of the Trade of Canada** Canada. Dominion Bureau of Statistics,1918 Reading Books and Prints as Cultural Objects Evanghelia Stead,2017-12-20 This book contributes significantly to book image and media studies from an interdisciplinary comparative point of view Its broad perspective spans medieval manuscripts to e readers Inventive methodology offers numerous insights into visual manuscript and print culture material objects relate to meaning and reading processes images and texts are examined in varied associations the symbolic representational and cultural agency of books and prints is brought forward An introduction substantiates methods and approaches ten chapters follow along media lines from manuscripts to prints printed books and e readers Eleven contributors from six countries challenge the idea of a unified field revealing the role of books and prints in transformation and circulation between varying cultural trends high and low Mostly Europe based the collection offers book and print professionals academics and graduates models for future research imaginatively combining material culture with archival data cultural and reading theories with historical patterns Commerce Du Canada, Exercice Budgétaire Clos ... Canada. Dominion Bureau of Statistics,1920 *Essays on Art and Language* Charles

Harrison, 2003-09-12 Critical and theoretical essays by a long time participant in the Art Language movement These essays by art historian and critic Charles Harrison are based on the premise that making art and talking about art are related enterprises They are written from the point of view of Art Language the artistic movement based in England and briefly in the United States with which Harrison has been associated for thirty years Harrison uses the work of Art Language as a central case study to discuss developments in art from the 1950s through the 1980s According to Harrison the strongest motivation for writing about art is that it brings us closer to that which is other than ourselves In seeing how a work is done we learn about its achieved identity we see for example that a drip on a Pollock is integral to its technical character whereas a drip on a Mondrian would not be Throughout the book Harrison uses specific examples to address a range of questions about the history theory and making of modern art questions about the conditions of its making and the nature of its public about the problems and priorities of criticism and about the relations between interpretation and judgment
