Recherches Archeologiques A La Magliana:

Commodus O. Hekster, 2021-11-15 The emperor Commodus AD 180 192 has commonly been portrayed as an insane madman whose reign marked the beginning of the end of the Roman Empire Indeed the main point of criticism on his father Marcus Aurelius is that he appointed his son as his successor Especially Commodus behaviour as a gladiator and the way he represented himself with divine attributes especially those of Hercules are often used as evidence for the emperor's presumed madness However this political biography will apply modern interpretations of the spectacles in the arena and of the imperial cult to Commodus reign It will focus on the dissemination and reception of imperial images and suggest that there was a method in Commodus madness *Image and Reality of Roman Imperial Power in the Third Century AD* Lukas de Blois, 2018-09-03 *Image and Reality of Roman Imperial Power in the Third Century AD* focuses on the wide range of available sources of Roman imperial power in the period AD 193 284 ranging from literary and economic texts to coins and other artefacts This volume examines the impact of war on the foundations of the economic political military and ideological power of third century Roman emperors and the lasting effects of this This detailed study offers insight into this complex and transformative period in Roman history and will be a valuable resource to any student of Roman imperial power *Fertility, Ideology, and the Cultural Politics of Reproduction at Rome* Angela Hug, 2023-05-15 Winner of the 2024 Outstanding Academic Titles award in Choice a publishing unit of the Association of College Research Libraries ACRL Winner of the 2024 Mark Golden Book Prize Roman women bore children not just for their husbands but for the Roman state This book is the first comprehensive study of the importance of fecunditas human fertility in Roman society c 100 BC AD 300 Its focus is the cultural impact of fecunditas from gendered assumptions about infertility to the social capital children brought to a marriage to the emperors exploitation of fecunditas to build and preserve dynasties Using a rich range of source material literary juristic epigraphic numismatic never before collected it explores how the Romans shaped fecunditas into an essential female virtue **Religion in the Roman Empire** Jörg Rüpke, Greg Woolf, 2021-10-06 The Roman Empire was home to a fascinating variety of different cults and religions Its enormous extent the absence of a precisely definable state religion and constant exchanges with the religions and cults of conquered peoples and of neighbouring cultures resulted in a multifaceted diversity of religious convictions and practices This volume provides a compelling view of central aspects of cult and religion in the Roman Empire among them the distinction between public and private cult the complex interrelations between different religious traditions their mutually entangled developments and expansions and the diversity of regional differences rituals religious texts and artefacts **Caligula** Anthony A. Barrett, 2015-03-05 The Roman Empire has always exercised a considerable fascination Among its numerous colourful personalities no emperor with the possible exception of Nero has attracted more popular attention than Caligula who has a reputation whether deserved or not as the quintessential mad and dangerous ruler The first edition of this book established itself as the standard study of Caligula It remains the only full

length and detailed scholarly analysis in English of this emperor's reign and has been translated into a number of languages. But the study of Classical antiquity is not a static phenomenon and scholars are engaged in a persistent quest to upgrade our knowledge and thinking about the ancient past. In the thirty years since publication of the original *Caligula* there have been considerable scholarly advances in what we know about this emperor specifically and also about the general period in which he functioned while newly discovered inscriptions and major archaeological projects have necessitated a rethinking of many of our earlier conclusions about early imperial history. This new edition constitutes a major revision and in places a major rewriting of the original text. Maintaining the reader-friendly structure and organisation of its predecessor it embodies the latest discoveries and the latest thinking seeking to make more lucid and comprehensible those aspects of the reign that are particularly daunting to the non-specialist. Like the original this revised *Caligula* is intended to satisfy the requirements of the scholarly community while appealing to a broad and general readership.

Bathing in Public in the Roman World

Garrett G. Fagan, 2002. An uninhibited glance into the extensive baths of Rome. *The Cambridge Manual of Latin Epigraphy*. Alison Cooley, 2012-09-13. This book explores how Latin inscriptions were used in the Roman world and makes them accessible to students today. *A Companion to Julius Caesar*. Miriam Griffin, 2015-07-21. A Companion to Julius Caesar

comprises 30 essays from leading scholars examining the life and afterlife of this great polarizing figure. Explores Caesar from a variety of perspectives: military genius, ruthless tyrant, brilliant politician, first-class orator, sophisticated man of letters, and more. Utilizes Caesar's own extant writings. Examines the viewpoints of Caesar's contemporaries and explores Caesar's portrayals by artists and writers through the ages.

Religious Convergence in the Ancient Mediterranean

Sandra Blakely, Billie Jean Collins, 2019-12-15. This volume brings together scholars in religion, archaeology, philology, and history to explore case studies and theoretical models of converging religions. The twenty-four essays offered in this volume, which derive from Hittite, Cilician, Lydian, Phoenician, Greek, and Roman cultural settings, focus on encounters at the boundaries of cultures, landscapes, chronologies, social class, and status; the imaginary and the materially operative. Broad patterns ultimately emerge that reach across these boundaries and suggest the state of the question on the study of convergence and the potential fruitfulness for comparative and interdisciplinary studies as models continue to evolve.

Imperial Women of Rome Mary Taliaferro Boatwright, 2021 Using all available sources Boatwright explores the constraints and activities of the women of Rome's imperial families from 35 BCE to 235 CE Livia Agrippina the Younger Julia Domna and others feature in this richly illustrated investigation of change continuity historical contingency and personal agency in imperial women's pursuits and representations

The Pantheon Tod A. Marder, Mark Wilson Jones, 2015-06-17 The Pantheon is one of the most important architectural monuments of all time Thought to have been built by Emperor Hadrian in approximately AD 125 on the site of an earlier Agrippan era monument it brilliantly displays the spatial pyrotechnics emblematic of Roman architecture and engineering The Pantheon gives an up to date account of recent research on the best preserved building in the corpus of ancient Roman architecture from the time of its construction to the twenty first century Each chapter addresses a specific fundamental issue or period pertaining to the building together the essays in this volume shed light on all aspects of the Pantheon's creation and establish the importance of the history of the building to an understanding of its ancient fabric and heritage its present state and its special role in the survival and evolution of ancient architecture in modern Rome

Empty Tomb, Apotheosis, Resurrection John Granger Cook, 2018-09-06 Back cover In this work John Granger Cook argues that there is no fundamental difference between Paul's conception of the resurrection body and that of the Gospels and the resurrection and translation stories of antiquity help explain the willingness of Mediterranean people to accept the Gospel of a risen savior

State Correspondence in the Ancient World Karen Radner, 2014-01-21 State Correspondence in the Ancient World introduces the reader to the state correspondences of centralized states and empires of the Mediterranean and the Middle East from the 15th century BC to the 6th century AD and analyses their role in ensuring the stability of these

geographically extensive state systems *Urban Religion* Jörg Rüpke, 2020-02-24 So far religion has been seen as cause for dramatic developments in the history of cities it has contributed to the monumentalisation of centres and or has given importance to ex centric places Very recently anthropologists have been discovering religion in the contemporary global city But still awaiting historical investigation is the specific urban character of religious ideas practices and institutions and the role of urban space shaping this very religion in the course of history The time span from the Hellenistic age to Late Antiquity was crucial in the establishment of concepts and institutions of religion and witnessed extended waves of urbanisation Rome being central to this In addressing this problem this book fills a significant gap in the scholarship on urban religion across time Taking seriously the proposition that space is condition medium and outcome of social relations the development of urban religion in lived urban space and urban culture or urbanity offers a lens onto processes of religious change that have been neglected for the history of religion and for the study of urbanism The key thesis is that city space engineered the major changes that revolutionised religions This stimulating book makes use of archaeology and history to address religion as an essential component of urban life in both the past and the present With a strong basis in the ancient Mediterranean as well as an insightful view of modern urban life R pke emphasizes that the practice and performance of religion at the everyday level is as essential in the creation of an urban ethos as the grand temples and institutions promulgated by the elite Monica L Smith author of *Cities The First 6 000 Years* J rg R pke offers a characteristically original and learned series of reflections on some of the many ways in which the history of religions and the history of cities might be entangled *Urban Religion* offers no single overarching thesis but it is consistently thought provoking and suggests many intriguing lines of investigation for the future Greg Woolf Institute of Classical Studies London **The Lure of the Arena** Garrett G. Fagan, 2011-02-17 Were the Romans who watched brutal gladiatorial games all that different from us This book argues they were not Ovid and the Fasti Geraldine Herbert-Brown, 1994-02-03 The *Fasti* is a poetical calendar of the Roman year written by Ovid between AD 4 16 Dr Herbert Brown s new research illuminates the poem as a unique contemporary source for our understanding of the politics and culture of the Augustan period including the revival of religion Ovid himself who was banished in AD 8 is revealed as a fascinating and ambivalent commentator **A Cultural History of the Senses in Antiquity** Jerry Toner, 2014-10-23 The ancient world used the senses to express an enormous range of cultural meanings Indeed the senses were functionally significant in all aspects of ancient life often in ways that were complex and interconnected Antiquity was also a period where the senses were experienced vividly cities stank statues were brightly painted and literature made full use of sensory imagery to create its effects In a steeply hierarchical world with vast differences between the landed wealthy the poor and the slaves the senses played a key role in establishing and maintaining boundaries between social groups but the use of the senses in the ancient world was not static New religions such as Christianity developed their own way of using the senses acquiring unique forms of sensory related symbolism in processes which were slow and often contested The aim of

this volume is to provide an overview of these structures and developments and to show how their study can yield a more nuanced understanding of the ancient world A Cultural History of the Senses in Antiquity presents essays on the following topics the social life of the senses urban sensations the senses in the marketplace the senses in religion the senses in philosophy and science medicine and the senses the senses in literature art and the senses and sensory media Crises and the Roman Empire O. Hekster,G. de Kleijn,Daniëlle Slootjes,2007-06-30 This volume presents the proceedings of the seventh workshop of the international thematic network Impact of Empire which concentrates on the history of the Roman Empire It focuses on the impact that crises had on the development and functioning of the Roman Empire from the Republic to Late Imperial times **The Pantheon** ,
