Rediscovering Hope Our Greatest Teaching Strategy:

Rediscovering Hope Richard L. Curwin,1992-01-01 Provides strategies for teacher to create an atmosphere of hope and success in the classroom **Discipline With Dignity for Challenging Youth** Richard Curwin,Allen Mendler,2004-01-01

Create positive change in your most challenging students with the help of practical strategies found in this resource Learn the five fundamental principles and seven goals that are the foundation of all effective discipline strategies The authors share proven practices for classroom discipline reveal reasons why students misbehave and offer 21 effective drug free ways to help students with ADHD **Creating a Democratic Climate for Kids** Mary Lou McCormick,2020-10-28

The principles of democracy freedom and the rights of individuals are taught from textbooks but the principles of autocracy and dictatorship are still practiced in most schools and homes It is no wonder our children feel unsettled defiant and even outright rebellious Many of our young people are growing up ignorant of and uncommitted to the great principles upon which our nation was founded The way to make children committed to our democratic way of life is to make them full participants in it This new guide is provided to assist educators and parents in making our schools and homes models of democracy giving our kids the freedom of choice and bestowing on them the basic rights of citizenship Parents and educators must unite as democratic leaders to guide coach and stimulate our young people to assume responsibility for themselves The future of our nation may depend on it **Character Matters** Thomas Lickona,2004-02-10

In Why Character Matters a leader in the character education movement and author of the landmark book Educating for Character Lickona now lays out 100 specific strategies that will help parents as well as teachers instill children with the values that will help them lead good and successful lives

Meeting Students Where They Live Richard L. Curwin,2010-04-15 Motivation and hope are two items in short supply in many urban schools But it doesn't have to be that way according to Richard L. Curwin Based on input from teachers across the United States and on his own personal experiences Curwin offers suggestions that every school can use to keep students in the classroom and looking toward a brighter future In Meeting Students Where They Live Curwin urges teachers and administrators in urban schools to move away from a focus on control uniformity lack of tolerance and ironclad rules toward an approach based on compassion understanding tolerance and safety for all Each chapter examines problems common to urban schools and offers comprehensive long reaching remedies plus concrete strategies for engaging troubled and hard to reach youth Meeting Students Where They Live explores ways to Welcome all students Build lessons that involve and engage Stay motivated and energized Design assignments that students will actually do and Use evaluation to encourage and build learning rather than defeat it Meeting Students Where They Live also includes classroom activity sheets submitted by teachers working in a variety of urban environments from inner city schools to a detention center **Discipline with**

Dignity Richard L. Curwin,Allen N. Mendler,Brian D. Mendler,2018-04-16 In this revised and updated 4th edition Discipline with Dignity provides in depth guidance for implementing a proven approach to classroom management that can help

students make better choices and teachers be more effective Emphasizing the importance of mutual respect and self control the authors offer specific strategies and techniques for building strong relationships with disruptive students and countering the toxic social circumstances that affect many of them including dysfunctional families gangs and poverty Educators at all levels can learn The difference between formal and informal discipline systems and when to use each The role of values rules and consequences How to address the underlying causes of discipline problems that occur both in and out of school What teachers can do to defuse or prevent classroom disruptions and disrespectful behavior without removing students from the classroom Why traditional approaches such as threats punishments and rewards are ineffective and what to do instead How to use relevance teacher enthusiasm choice and other elements of curriculum and instruction to motivate students How to reduce both teacher and student stress that can trigger power struggles With dozens of specific examples of student teacher interactions Discipline with Dignity illustrates what you can do and not do to make the classroom a place where students learn and teachers maintain control in a nonconfrontational way The goal is success for all in schools that thrive

Promoting Family Wellness and Preventing Child Maltreatment Isaac Prilleltensky, Geoffrey Brian Nelson, Leslea Peirson, 2001-01-01 Deals with the promotion of emotional well being in families and the prevention of child maltreatment Values policies and resources are examined as both facilitators of and barriers to effective action *Making Good Choices* Richard L. Curwin, 2003-02-11 This guidebook offers teachers eight ready to use strategies to help students make good choices for good behavior in the classroom as well as in the real world Handbook of Psychosocial Characteristics of Exceptional Children Vicki L. Schwean, Donald H. Saklofske, 2013-06-29 Research has documented the reciprocal effects of exceptionality and secondary psychosocial and behavioral characteristics This in depth handbook examines the categories of exceptionality most often described in educational behavioral and health practices Leading authorities from psychology education and medicine evaluate the key characteristics of particular exceptionalities from the vantage point of theory research assessment and intervention If Parents Cared Enough... Mary M. Hall-Rayford, 2012-09-10 Everyone knows by now or least thinks they know that a majority of students especially inner city students fall short on standardized tests in most public schools Media reports as well as government entities always infer that the fault of low student performance falls on the shoulders of the teachers Really Teachers have no control over the environment in which a child is raised Teachers have no control over whether parents read or do not read to their children Teachers have no control over district policies that do not add up to real school reform Teachers have no control over legislators who care more about politics than educating children So how is it that it is always the teachers fault that students do not perform well Student performance in schools excel when parents are actively engaged in creating and maintaining an environment that is conducive to learning raising children who are respectful and responsible getting involved in the business of learning in the schools with the local school board and in electing officials responsible for legislation regarding education
