Willow Creek History Marcia Penner Freedman,2013-04-16 It s the same Willow Creek that flows into Bass Lake and moves through five powerhouses generating twenty seven kilowatts of electricity for California It s the same Willow Creek that rises at eight thousand feet in the Sierra Forest crashes through narrow granite canyons and meanders through serene mountain passes on its journey to its confluence with the San Joaquin River twenty five miles below Logging railroads have carried their loads alongside and over Willow Creek Native tribes made their homes along its banks Each year thousands of people swim and boat and fish in its waters In this history of Willow Creek local author Marcia Penner Freedman shares the amazing story of these moving waters and the people whose lives have been touched by Willow Creek

Reading Shaver's Creek Ian Marshall,2018-02-16 What does it mean to know a place What might we learn about the world by returning to the same place year after year What would a long term record of such visits tell us about change and permanence and our place in the natural world This collection explores these and related questions through a series of reflective essays and poems on Pennsylvania s Shaver s Creek landscape from the past decade Collected as part of The Ecological Reflections Project a century long effort to observe and document changes to the natural world in the central Pennsylvanian portion of the Appalachian Forest these pieces show how knowledge of a place comes from the information and perceptions we gather from different perspectives over time They include Marcia Bonta s keen observations about how

humans knowingly and unknowingly affect the landscape Scott Weidensaul's view of the forest as a battlefield and Katie Fallon describing the sounds of human and nonhuman life along a trail Together these selections create a place based portrait of a vivid ecosystem during the first decade of the twenty first century Featuring contributions by nationally known nature writers and local experts Reading Shaver's Creek is a unique complex depiction of the central Pennsylvania landscape and its ecology We know the land and creatures of places such as Shaver's Creek are bound to change throughout the century This book is the first step to documenting how In addition to the editor contributors to this volume are Marcia Bonta Michael P Branch Todd Davis Katie Fallon David Gessner Hannah Inglesby John Lane Carolyn Mahan Jacy Marshall McKelvey Steven Rubin David Taylor Julianne Lutz Warren and Scott Weidensaul *Structure, Litho-orogenic Units, and Postorogenic Basin Fill by Reflection Profiling: California Continental Borderland* David G.
