Rogues and Scholars James Stourton, 2025-02-04 A colorful and fast moving account of how postwar London became the global center of the art market a story of Impressionist masterpieces dodgy dealers and ground breaking financial transactions On October 15 1958 Sotheby's of Bond Street staged an event sale of seven Impressionist paintings belonging to Erwin Goldschmidt three Manets two Cezannes one Van Gogh and a Renoir Kirk Douglas Anthony Quinn and Somerset Maugham were there as celebrity guests The seven lots went for 781 000 at the time the highest price for a single sale The event established London as the world center of the art market and Sotheby's as an international auction house It began a shift in power from the dealers to the auctioneers and paved the way for Impressionist paintings to dominate the market for the next forty years Sotheby's had pulled off a massive coup by capturing the Impressionist market from Paris and New York and now began its inexorable rise opening offices all over the world A huge expansion of the market followed accompanied by rocketing prices colorful scandals and legal dramas London transformed itself from a fusty place of old master painting sales to a revitalized center of contemporary art crowned by the opening of Tate Modern in 2000 The Tate Modern successfully united new and mostly foreign money in London with the art world offering its patrons a ready made sophisticated social milieu alongside dealers in contemporary art In a vibrant and briskly paced style James Stourton tells the story of the London art market from the immediate postwar period to the turn of the millennium While Sotheby's is the lynchpin of this story Stourton populates his narrative with a glorious rogue's gallery of eccentric scholars clever amateurs brilliant emigrants and stylish grandees with a flair for the deal **Analytical Psychology in Exile** C. G. Jung, Erich Neumann, 2025-07-22 Two giants of twentieth century psychology in dialogue C G Jung and Erich Neumann first met in 1933 at a seminar Jung was conducting in Berlin Jung was fifty seven years old and internationally acclaimed for his own brand of psychotherapy Neumann twenty eight had just finished his studies in medicine The two men struck up a correspondence that would

continue until Neumann's death in 1960. A lifelong Zionist, Neumann fled Nazi Germany with his family and settled in Palestine in 1934 where he would become the founding father of analytical psychology in the future state of Israel. Presented here in English for the first time are letters that provide a rare look at the development of Jung's psychological theories from the 1930s onward as well as the emerging self-confidence of another towering twentieth-century intellectual who was often described as Jung's most talented student. Neumann was one of the few correspondence partners of Jung's who was able to challenge him intellectually and personally. These letters shed light on not only Jung's political attitude toward Nazi Germany, his alleged anti-Semitism, and his psychological theory of fascism, but also his understanding of Jewish psychology and mysticism. They affirm Neumann's importance as a leading psychologist of his time and paint a fascinating picture of the psychological impact of immigration on the German Jewish intellectuals who settled in Palestine and helped to create the state of Israel. Featuring Martin Liebscher's authoritative introduction and annotations, this volume documents one of the most important intellectual relationships in the history of analytical psychology.

Philanthropists and Foundation Globalization Joseph Kiger, 2017-07-28 The modern American foundation as an instrumentality for charitable and philanthropic giving is in many ways a unique and complex social-economic-political institution. This is particularly the case for foundations with large assets. As a social phenomenon, the foundation has deep roots in the past. At the beginnings of any degree of civilization, charitable giving and rudimentary forms of foundations emerge. This is the case in many regions of the world. The pattern is consistent: once enough property or wealth beyond primitive human needs is accumulated, some of it begins to be set aside for what the donors of such wealth consider worthwhile purposes. The serious literature contributing greatly to public perception of philanthropy and foundations has been relatively sparse. Much of what is available is quantitative and statistical in nature. There has been limited objective attention to the motives or reasons spurring individual philanthropists to engage or not to engage in creating foundations. Such motivation needs historical and comparative analysis. Major investigations and studies of foundations, together with ancillary national, regional, and international organizations to facilitate such study, have received spotty consideration. *Philanthropists and Foundation Globalization* addresses three interrelated aspects of foundation history. First, it reviews biographical/historical profiles of the founding philanthropists and their heirs engaged in international giving. Second, it discusses major governmental and non-governmental investigations and studies of foundations, including domestic ones and also foreign ones in which U.S. participants have played a prominent role spanning the period 1912 to the present. Third, it chronicles foundation developments and activities in Europe at the close of the twentieth century. The volume provides a

historical account of some U S foundations international activity in a particular region in a specific time period and their a

Sherry,2010-10-25 Carl Gustav Jung has always been a popular but never a fashionable thinker His ground breaking theories about dream interpretation and psychological types have often been overshadowed by allegations that he was anti Semitic and a Nazi sympathizer Most accounts have unfortunately been marred by factual errors and quotes taken out of context this has been due to the often partisan sympathies of those who have written about him This book provides a more accurate and comprehensive account of Jung s controversial opinions about art politics and race In War and Peace Guy
