Reflections On The Christ Myth:

Reflections on the Christ Myth Revilo Pendleton Oliver, 1998 **Thinking Through Myths** Kevin Schilbrack, 2003-09-02
Embracing a radical balance between myths illusory and functional status these eight outstanding essays from leading academics deconstruct problems of rationality imagination and narrative to trace the influence of myth in our own beliefs

The Identity of Jesus Christ, Expanded and Updated Edition Hans W. Frei, 2013-11-19 This is a book about Jesus of Nazareth It is not a book about story nor about narrative theology Hans Frei was not a theologian of story or of narrative in any general way and this book is neither about the narrative quality of our existence and the gospel's relation to that quality nor about the narrative shape of the Scriptures as a whole and the call on us to place ourselves within that narrative Rather this is a book about the way in which Jesus of Nazareth's identity is rendered by the Gospels largely the Synoptic Gospels particularly the Gospel of Luke and especially in the passion and resurrection sequences by means of a certain kind of narrative from the Foreword by Mike Higon

Alfred Loisy and the Making of History of Religions Annelies Lannoy, 2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857-1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F Cumont M Mauss or J G Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890-1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions

The Christ Impulse Rudolf Steiner, 2014 Christ will reappear but in a higher reality than the physical one in a reality which we will only see if we have first acquired a sense and understanding of spiritual life Inscribe in your hearts what anthroposophy should be a preparation for the great epoch of humanity which lies ahead of us Rudolf Steiner's teachings of Christ and in particular what he refers to as the Christ impulse are unique Christ he says is an objective universal force existing independently of Christian churches and confessions and working for the whole of humanity The impulse that Christ brought to earth acts for the advancement of all people irrespective of religion creed or race Speaking in Berlin whilst still a representative of the largely eastern oriented Theosophical Society Rudolf Steiner presents multifaceted perspectives on the Christ impulse based on his independent spiritual research from the vast cycles of time preceding Christ's incarnation and the preparation for his coming to the actual physical embodiment of Christ in Palestine in Jesus of Nazareth some two

thousand years ago Steiner also describes how Christ will influence the future development of the earth and humanity In his opening lecture Rudolf Steiner discusses the nature of the Bodhisattvas and their role in relation to Christ and human evolution The Bodhisattvas are the great teachers of humanity incarnating in human form during their passage through the various cycles of cultural development and are intimately involved in preparing the work of the Christ impulse In other lectures Steiner addresses subjects as diverse as the Sermon on the Mount in relation to the development of the faculty of conscience and the current duality of male and female microcosm and its correspondence in the cosmos macrocosm The latter phenomenon is related to initiation within the Germanic and Egyptian mysteries which reach their higher unity in Christian initiation Among the myriad other themes that emerge here are the introduction of the I or self in human development and its essential connection to Christ the preparation of the Christ impulse through the Jahveh religion and the law of Moses the meaning of the Ten Commandments and the new clairvoyance in relation to the appearance of Christ in the etheric

True Myth James W Menzies,2015-02-26 True Myth examines the meaning and significance of myth as understood by C S Lewis and Joseph Campbell and its place in the Christian faith in a technological society C S Lewis defined Christianity and being truly human as a relationship between the personal Creator and his creation mediated through faith in his son Jesus The influential writer and mythologist Joseph Campbell had a different perspective understanding Christianity as composed of mythical themes similar to those in other religious and secular myths While accepting certain portions of the biblical record as historical Campbell taught the theological and miraculous aspects as symbolic as stories in which the reader discovers what it means to be human today In contrast Lewis presented the theological and the miraculous in a literal way Although Lewis understood how one could see symbolism and lessons for life in miraculous events he believed they were more than symbolic and indeed took place in human history In True Myth James W Menzies skilfully balances the two writers differing approaches to guide the reader through a complex interaction of myth with philosophy media ethics history literature art music and religion in a contemporary world

Reparations and the Theological Disciplines Michael Barram,Drew G. I. Hart,Gimbiya Kettering,Michael J. Rhodes,2023-10-10 Historically many churches and theologians defended and supported race based slavery and subsequent forms of racial hierarchy and violence The essays in Reparations and the Theological Disciplines argue that it is urgent that the theological disciplines engage the issue of reparations by revisiting Scripture and our theological traditions The time is now for remembrance reckoning and repair

Myth-Busting in Science and Religion Jim Slagle,2025-07-14 Science and religion is one of those subjects where everyone knows a lot of things that just ain't so This is because of the numerous urban legends about how the two fields have interacted historically and how they do so today These false beliefs are ubiquitous in Western civilization especially in academia prompting many people to oversimplify the issues This book corrects many of these urban legends and confusions involving premodern cosmology the alleged persecution or even martyrdom of scientists for discoveries that challenged the religious status quo

the history and nature of biological evolution the potential discovery of rational extraterrestrial life and whether miracles would somehow conflict with the laws that science has discovered As one might expect reality turns out to be much more complex than the stories suggest **Redescribing Christian Origins** Ronald Dean Cameron, Merrill P. Miller, 2004 These essays challenge the traditional picture of Christian origins Making use of social anthropology they move away from traditional assumptions about the foundations of Christianity to propose that its historical beginnings are best understood as reflexive social experiments **The Historical Jesus and the Christ of Faith** George Demetron, 2017-01-11 The Historical Jesus and the Christ of Faith examines the conflicting views of Marcus Borg and N T Wright on the long standing question of the relationship between the life and times of Jesus of Nazareth and the Christ of faith as depicted in the New Testament Demetron has created a study designed to supplement and expand on the discussion laid out in Borg s and Wright s widely read The Meaning of Jesus Two Views While the author is more empathetic to Wright s emphasis on the continuities between the Jesus of history and the Christ of faith as illuminated throughout the New Testament he is critical of Wright s overemphasis on history In placing his interpretive emphasis on the revelatory dynamic of the canonical Scripture and the Great Tradition of Christian orthodoxy Demetron calls for a fourth quest for the historical Jesus that starts from a position firmly rooted in biblical faith and works backwards in search of historical roots In this he draws on the Pauline vision of God reconciling the world to himself in Christ 2 Cor 5 19 as his underlying hermeneutics In exploring the broad range of issues that underpins the continuity discontinuity question Demetron has provided a resource designed to span a wide audience from Christian adult study groups interested in tackling books like The Meaning of Jesus to graduate level seminary students and professors
