Networks of Refugees from Nazi Germany, 2016-08-01 This volume focuses on coalitions and collaborations formed by refugees from Nazi Germany in their host countries Exile from Nazi Germany was a global phenomenon involving the expulsion and displacement of entire families organizations and communities While forced emigration inevitable meant loss of familiar structures and surroundings successful integration into often very foreign cultures was possible due to the exiles ability to access and or establish networks By focusing on such networks rather than on individual experiences the contributions in this volume provide a complex and nuanced analysis of the multifaceted interacting factors of the exile experience This approach connects the NS exile to other forms of displacement and persecution and locates it within the ruptures of civilization dominating the twentieth and twenty first centuries Contributors are Dieter Adolph Jacob Boas Margit Franz Katherine Holland Birgit Maier Katkin Leonie Marx Wolfgang Mieder Thomas Schneider Helga Schreckenberger Swen Steinberg Karina von Tippelskirch Jörg Thuncke Jacqueline Vansant and Veronika Zwerger

Constructive Anarchy Jeff Shantz, 2016-05-23 Constructive Anarchy the result of more than a decade of direct study within a variety of anarchist projects provides the most wide ranging and detailed analysis of current anarchist endeavours The compelling discussions of anarchism and union organising anti poverty work and immigrant and refugee defence represent truly groundbreaking undertakings from a rising scholar of contemporary anarchism Organised to illustrate the development of the diversity of anarchist strategies and tactics over time the book begins with a discussion of alternative media projects before turning attention to anarchist involvement in broader community based movements Case studies include a discussion of anarchists and rank and file workplace organising anarchist anti borders struggles and No One Is Illegal movements in defence of immigrants and refugees since 9 11 and anarchist free schools and community centres Jeff Shantz's analysis demonstrates serious and grounded practices rooted in anarchist organising practices that may draw on previous traditions and practices but also innovate and experiment The varied selection of case studies allows the author to compare groups that are geared primarily towards anarchist and radical subcultures with anarchist involvement in more diverse community based coalitions an approach that is otherwise lacking in the literature on contemporary anarchism

Refugee Imaginaries Emma Cox, 2019-11-01 Charts new directions for interdisciplinary research on refugee writing and representation Places refugee imaginaries at the centre of interdisciplinary

exchange demonstrating the vital new perspectives on refugee experience available in humanities research. Brings together leading research in literary performance art and film studies digital and new media postcolonialism and critical race theory transnational and comparative cultural studies history anthropology philosophy human geography and cultural politics. The refugee has emerged as one of the key figures of the twenty first century. This book explores how refugees imagine the world and how the world imagines them. It demonstrates the ways in which refugees have been written into being by international law governmental and non governmental bodies and the media and foregrounds the role of the arts and humanities in imagining historicising and protesting the experiences of forced migration and statelessness. Including thirty two newly written chapters on representations by and of refugees from leading researchers in the field. **Refugee Imaginaries** establishes the case for placing the study of the refugee at the centre of contemporary critical enquiry. **Placeless People** Lyndsey Stonebridge, 2018-11-10. In 1944 the political philosopher and refugee Hannah Arendt wrote *On Violence* the word exile which once had an undertone of almost sacred awe now provokes the idea of something simultaneously suspicious and unfortunate. Today's refugee crisis has its origins in the political and imaginative history of the last century. Exiles from other places have often caused trouble for ideas about sovereignty law and nationhood. But the meanings of exile changed dramatically in the twentieth century. This book shows just how profoundly the calamity of statelessness shaped modern literature and thought. For writers such as Hannah Arendt Franz Kafka W H Auden George Orwell Samuel Beckett Simone Weil among others the outcasts of the twentieth century raised vital questions about sovereignty humanism and the future of human rights. **Placeless People** argues that we urgently need to reconnect with the moral and political imagination of these first chroniclers of the placeless condition. **Americans and the Holocaust** Daniel Greene, Edward Phillips, 2021-11-30. This edited collection of more than one hundred primary sources from the 1920s 1930s and 1940s including newspaper and magazine articles popular culture materials and government records reveals how Americans debated their responsibility to respond to Nazism. It includes valuable resources for students and historians seeking to shed light on this dark era in world history. **The Unwanted** Michael Robert Marrus, There have always been homeless people but only in the twentieth century have refugees become an important part of international politics seriously affecting relations between states. Since the 1880s the number of displaced persons has climbed astronomically with people scattered over vaster distances and for longer periods of time than ever before. Tracing the emergence of this new variety of collective alienation *The Unwanted* covers everything from the late nineteenth century to the present encompassing the Armenian refugees the Jews the Spanish Civil War migrants the Cold War refugees in flight from Soviet states and much more. Marrus shows not only the astounding dimensions of the subject but also depicts the shocking apathy and antipathy of the international community toward the homeless. He also examines the impact of refugee movements on Great Power diplomacy and considers the evolution of agencies designed to assist refugees noting outstanding successes and failures. *German Exile Politics* Lewis J.

Edinger,2023-11-15 The Social Democratic Executive Committee in the Nazi Era provides a comprehensive and deeply researched account of the German Social Democratic Party's SPD resistance during one of the most turbulent periods in modern history. As Germany's largest and most influential political party for decades, the SPD faced the unprecedented challenge of surviving Adolf Hitler's rise to power and the subsequent outlawing of the party in 1933. This book chronicles the party's efforts to reconcile its democratic and socialist ideals with the stark realities of Nazi repression. It delves into the internal struggles of its leadership, who sought to balance principled opposition with cautious pragmatism, and details how the SPD attempted to maintain organizational integrity amidst relentless Nazi propaganda, arrests, and bans on its press. From the fiery defiance of Otto Wels in the Reichstag to the establishment of a Representation Abroad in Prague, the narrative captures the courage, divisions, and ultimate dissolution of a movement fighting to uphold democracy in the face of totalitarianism. Through vivid storytelling and meticulous analysis, the book illuminates the moral and strategic dilemmas faced by the SPD as it confronted the Nazi regime. It paints a poignant picture of a party torn between loyalty to its democratic principles and the harsh political realities of the 1930s. The narrative reveals how the Nazis exploited internal divisions within the SPD, using both propaganda and terror to erode the party's influence. The book also explores the heartbreaking fate of the party's leaders, many of whom were arrested or driven into exile, and examines the broader implications of their struggle for the preservation of democracy. By chronicling the SPD's resistance, this volume offers a compelling reflection on the challenges of opposing authoritarian regimes and serves as a vital contribution to the study of political history during the Nazi era. It is funded by Knowledge Unlatched. *Refugees in Europe, 1919-1959* offers a new history of Europe's mid-20th century as seen through its recurrent refugee crises. By bringing together in one volume recent research on a range of different contexts of groups of refugees and refugee policy, it sheds light on the common assumptions that underpinned the history of refugees throughout the period under review. The essays foreground the period between the end of the First World War, which inaugurated a series of new international structures to deal with displaced populations, and the late 1950s, when Europe's home-grown refugee problems had supposedly been solved and attention shifted from the identification of an exclusively European refugee problem to a global one. Borrowing from E. H. Carr's *The Twenty Years' Crisis* (first published in 1939), the editors of this volume test the idea that the two post-war eras could be represented as a single crisis of a European-dominated international order of nation-states in the face of successive refugee crises, which were both the direct consequence of that system and a challenge to it.

Each of the chapters reflects on the utility and limitations of this notion of a forty years crisis for understanding the development of specific national and international responses to refugees in the mid 20th century Contributors to the volume also provide alternative readings of the history of an international refugee regime in which the non European and colonial world are assigned a central role in the narrative
