Handbook of Multicultural Perspectives on Stress and Coping Paul T. P. Wong, Lilian C. J. Wong, 2007-02-15 Has the developing world developed modern concepts of stress Are coping methods the same around the globe Such questions are not simple to answer and until recently few knew to ask them In recent years Western psychologists have recognized that their prevailing views of psychology do not always translate worldwide and that no culture has a monopoly on either stress or coping The Handbook of Multicultural Perspectives on Stress and Coping was created to address this realization This unique volume moves beyond simple comparisons of behaviors in other countries by clarifying critical concepts in stress and coping analyzing and synthesizing vast amounts of global data and identifying constructs and methodologies necessary for meaningful cross cultural research An international multiethnic panel of forty five contributors presents elegant studies of stress survival and resilience as cultures evolve and countries interact including Personal transformation as a coping strategy Psychological skills that enhance intercultural adjustment Individual versus collectivist values in coping Buddhist and Taoist traditions in coping The cumulative effects of historical environmental and political stressors on nations in the Middle East Specific cross cultural perspectives from Latino American families to Canadian aboriginal peoples to minority university students The editors have assembled a vital store of knowledge raising crucial implications for clinicians working with immigrant international populations and evaluating the current state of theory research and assessment The Handbook documents major steps toward scientific advancement and human understanding Planning and Control Processes Across the Life Span Margie E. Lachman, 1993 *The Oxford Handbook of Political Psychology* Leonie Huddy, David O. Sears, Jack S. Levy, 2003-07-31 Political psychology applies what is known about human psychology to the study of politics It examines how people reach political decisions on topics such as voting party identification and political attitudes as well as how leaders mediate political conflicts and make foreign policy decisions The Oxford Handbook of Political Psychology gathers together a distinguished group of scholars from around the world to shed light on these vital questions Focusing first on political psychology at the individual level attitudes values decision making ideology personality and then moving to the collective group identity mass mobilization political violence this fully interdisciplinary volume covers models of the mass public and political elites and addresses both domestic issues and foreign policy Now with new material providing an up to date account of cutting edge research within both psychology and political science this is an essential reference for scholars and students interested in the intersection of the two fields **Research in Personnel and Human Resources Management** M. Ronald Buckley, Anthony R. Wheeler, John E. Baur, Jonathon R. B. Halbesleben, 2022-10-04 Volume 40 of Research in Personnel and Human Resources Management offers several original scholarly contributions written by thought leaders in the field of human resources management **Perceived Control, Motivation, & Coping** Ellen A. Skinner, 1995-02-08 At every point in the life span individual differences in a sense of control are strong predictors of motivation coping success and

failure in a wide range of life domains What are the origins of these individual differences how do they develop and what are the mechanisms by which they exert such influence on psychological functioning This book draws on theories and research covering key control constructs including self efficacy learned helplessness locus of control and attribution theory Ellen A Skinner discusses such issues as the origins of control in social interactions environmental features that promote or undermine control developmental change in the mechanisms by which experiences of control have their effects on action and the implications for intervening into the competence system including interventions for people in uncontrollable circumstances Written at a level appropriate for upper division undergraduates the book can serve as a supplement to the social and personality development course as well as a core text for motivation educational psychology or clinical courses at the graduate level This book won't be the first one on the topic but it will be the first one that professionals and graduate students turn to whenever they want a definitive opinion on complex questions of control or an idea for cutting edge research on the topic of motivation coping and control
