

RESEARCH APPROACHES: QUALITATIVE APPROACHES

Thematic Analysis, Grounded Theory, Content Analysis, Phenomenology, Case Studies

Qualitative research is a research approach that seeks to understand the meaning and experience of human phenomena. It is often used to explore complex issues that cannot be fully understood through quantitative methods. Qualitative research is characterized by its focus on understanding the subjective experiences of individuals and the social context in which they occur. It involves the collection and analysis of non-numerical data, such as interviews, focus groups, and observations. Qualitative research is often used to generate hypotheses and to explore new areas of research.

Researching Africas Past New Contributions From British Archaeologists

Peter Mitchell,Paul Lane

Researching Africa's Past New Contributions From British Archaeologists:

Researching Africa's Past Peter Mitchell, Anne Haour, John Henry Hobart, 2003 These seventeen papers were presented at a conference on African archaeology held at St Hugh's College Oxford in April 2002 The topics span nineteen countries from Morocco in the far northwest of the continent to Lesotho Madagascar and South Africa in the south from Mauritania in the west to Ethiopia and Kenya in the east Together they show the strength of research in African archaeology being undertaken at the present time by British based academics and the relevance of Africa to a whole range of archaeological debates including early hominid evolution and the recent appearance and expansion of our own species palaeoenvironmental reconstruction the early development of food production the development of metallurgy the formation of complex societies and the sociopolitical impacts of long distance trade

The Oxford Handbook of African Archaeology Peter Mitchell, Paul Lane, 2013-07-04 Africa has the longest and arguably the most diverse archaeological record of any of the continents It is where the human lineage first evolved and from where *Homo sapiens* spread across the rest of the world Later it witnessed novel experiments in food production and unique trajectories to urbanism and the organisation of large communities that were not always structured along strictly hierarchical lines Millennia of engagement with societies in other parts of the world confirm Africa's active participation in the construction of the modern world while the richness of its history ethnography and linguistics provide unusually powerful opportunities for constructing interdisciplinary narratives of Africa's past This Handbook provides a comprehensive and up to date synthesis of African archaeology covering the entirety of the continent's past from the beginnings of human evolution to the archaeological legacy of European colonialism As well as covering almost all periods and regions of the continent it includes a mixture of key methodological and theoretical issues and debates and situates the subject's contemporary practice within the discipline's history and the infrastructural challenges now facing its practitioners Bringing together essays on all these themes from over seventy contributors many of them living and working in Africa it offers a highly accessible contemporary account of the subject for use by scholars and students of not only archaeology but also history anthropology and other disciplines

The Oxford Handbook of the Archaeology and Anthropology of Hunter-Gatherers Vicki Cummings, Peter Jordan, Marek Zvelebil, 2014-04-24 For more than a century the study of hunting and gathering societies has been central to the development of both archaeology and anthropology as academic disciplines and has also generated widespread public interest and debate The Oxford Handbook of the Archaeology and Anthropology of Hunter Gatherers provides a comprehensive review of hunter gatherer studies to date including critical engagements with older debates new theoretical perspectives and renewed obligations for greater engagement between researchers and indigenous communities Chapters provide in depth archaeological historical and anthropological case studies and examine far reaching questions about human social relations attitudes to technology ecology and management of resources and the environment as well as issues of diet health and gender relations all central topics in hunter gatherer

research but also themes that have great relevance for modern global society and its future challenges The Handbook also provides a strategic vision for how the integration of new methods approaches and study regions can ensure that future research into the archaeology and anthropology of hunter gatherers will continue to deliver penetrating insights into the factors that underlie all human diversity *The Oxford Handbook of Wetland Archaeology* Francesco Menotti, Aidan O'Sullivan, 2013 This Handbook sets out the key issues and debates in the theory and practice of wetland archaeology which has played a crucial role in studies of our past Due to the high quantity of preserved organic materials found in humid environments the study of wetlands has allowed archaeologists to reconstruct people's everyday lives in great detail

Facing the Sea of Sand Barry Cunliffe, 2023 Northern Africa is dominated by the Sahara Desert stretching across the continent from the Atlantic Ocean to the Red Sea This book is about the people who lived around the edges of the Desert and the different ways in which they responded to its challenges establishing networks of communication across its expanse But the Sahara has not always been a desert From about 9000 BC the region began to enjoy a warm humid period allowing vegetation to flourish and wild animals to move in Humans soon followed practising pastoral economies but with the onset of harsher conditions once more around 3000 BC the desert reclaimed its own Since then fluctuations in climate have continued to affect the lives of people living around the desert fringes The communities occupying the North African Coast and in the Nile Valley have come under the influence of the states dominating the Near East and the Mediterranean but those living in the Sahel to the south of the desert have developed their own distinctive cultures The book tells the story of the growing links between the two worlds showing that Africa played a crucial part in the development of the Old World before it was drawn into the story of the New World **A Scientific Bibliography of the Drakensberg, Maloti and Adjacent**

Lowlands Rodney Moffett, 2021-04-19 This bibliography includes scientific articles on the Drakensberg Maloti and Adjacent Lowlands published between 1808 and 2019 Although focusing on material appearing in accredited journals there is such a wealth of information in the form of unpublished yet traceable reports documents presentations and dissertations these are also included The bibliography has two parts a complete list arranged alphabetically and the same references arranged in 33 different disciplines These range from Palaeobotany with 17 entries to Rock Art with 502 entries *Consumption, Trade and Innovation* Marijke Van der Veen, 2011 AD 1 250 Myos Hormos and again during ca **Aksum and Nubia** George Hatke, 2013-01-07 Aksum and Nubia assembles and analyzes the textual and archaeological evidence of interaction between Nubia and the Ethiopian kingdom of Aksum focusing primarily on the fourth century CE Although ancient Nubia and Ethiopia have been the subject of a growing number of studies in recent years little attention has been given to contact between these two regions Hatke argues that ancient Northeast Africa cannot be treated as a unified area politically economically or culturally Rather Nubia and Ethiopia developed within very different regional spheres of interaction as a result of which the Nubian kingdom of Kush came to focus its energies on the Nile Valley relying on this as its main route of contact with the

outside world while Aksum was oriented towards the Red Sea and Arabia In this way Aksum and Kush coexisted in peace for most of their history and such contact as they maintained with each other was limited to small scale commerce Only in the fourth century CE did Aksum take up arms against Kush and even then the conflict seems to have been related mainly to security issues on Aksum s western frontier Although Aksum never managed to hold onto Kush for long much less dealt the final death blow to the Nubian kingdom as is often believed claims to Kush continued to play a role in Aksumite royal ideology as late as the sixth century Aksum and Nubia critically examines the extent to which relations between two ancient African states were influenced by warfare commerce and political fictions Online edition available as part of the NYU Library s Ancient World Digital Library and in partnership with the Institute for the Study of the Ancient World ISAW *Handbook of Pleistocene Archaeology of Africa* Amanuel Beyin,David K. Wright,Jayne Wilkins,Deborah I. Olszewski,2023-08-17 This handbook showcases an Africa wide compendium of Stone Age archaeological sites and methodological advances that have improved our understanding of hominin lifeways and biogeography in the continent The focal time spans the Pleistocene Epoch c 2 5 million 11 700 years ago during which important human traits such as obligate bipedalism that freed the hands to engage in creative activities a large brain relative to body size language and social complexity developed in the general forms that they are found today The handbook is the first of its kind and it is expected to play a significant role in human evolutionary research by Collating the African Stone Age record which exists in a fragmented state along the lines of national boundaries and colonial experiences Showcasing emerging conceptual and methodological advances in African Pleistocene archaeology Providing reference datasets for teaching and researching African prehistory Making Africa s Stone Age record accessible to researchers and students based in Africa who may not have access to journal publications where most new field discoveries are published The Handbook features 128 chapters of which 116 are site entries grouped by the host countries and presented in an alphabetical order A number of those site related entries examine multiple archaeological localities lumped under specific projects or study areas The rest of the contributions deal with methodological topics such as luminescence and radiocarbon dating field data recovery lithic analysis micromorphology and hominin fossil and zooarchaeological records of Pleistocene Africa The introductory chapter provides an historical overview of the development of Stone Age Paleolithic archaeology in Africa beginning in the mid 19th century and paleoenvironmental and chronological frameworks commonly used to structure the continent s Pleistocene record By making a good amount of African Stone Age literature accessible to researchers and the public we wish to promote interest in human evolutionary research in the continent and elsewhere Awarded the 2025 The Best Book Award by The Society of Africanist Archaeologists *Afrikas Horn* Walter Raunig,Steffen Wenig,2005 Im Fr hjahr 1906 fand die von Kaiser Wilhelm II entsandte Deutsche Aksum Expedition statt die unter Leitung des deutschen Orientalisten Enno Littmann 1875 1958 stand Schon 1913 wurden die Ergebnisse zu denen erste systematische Ausgrabungen in Aksum die Dokumentation von Kirchen und Kl stern die Aufnahme

Babel Unbound Lesley Cowling, Carolyn Hamilton, 2020-05-01 In this timely original and sophisticated collection writers from the Global South demonstrate that forms of publicness are multiple mobile and varied The notion that societies mediate issues through certain kinds of engagement is at the heart of imaginings of democracy and often centers on the ideal of the public sphere But this imagined foundation of how we live collectively appears to have suffered a dramatic collapse across the world with many democracies apparently unable to solve problems through talk or even to agree on who speaks in what ways and where In the 10 essays in this timely original and sophisticated collection writers from southern Africa combine theoretical analysis with the examination of historical cases and contemporary developments to demonstrate that forms of publicness are multiple mobile and varied They propose new concepts and methodologies to analyse how public engagements work in society Babel Unbound examines charged examples from the Global South such as the centuries old Timbuktu archive Nelson Mandela as a powerful absent presence in 1960s public life and the challenges to the terms of contemporary debate around the student activism of rhodesmustfall and feesmustfall These show how issues of public discussion span both archive and media verbal debates in formal spaces and visual performances that circulate in unpredictable ways
