Mountain brought Proulx international recognition but their success merely confirms what literary critics have known for some time Proulx is one of the most provocative and stylistically innovative writers in America today She is at her best in the short story format and the best of these are to be found in her Wyoming trilogy in which she turns her eye on America's West both past and present Yet despite the vast amount of print expended reviewing her books there has been nothing published on the Wyoming Stories There is appetite for such a work the plethora of critical work on McCarthy's Border Trilogy indicates that the reinvention of the West is a subject for serious academic study Provided by publisher *Cag-Arizona-1st Edition* Lawrence W. blue an overnight revolution provoked by the bland pop music that immediately preceded it and created through the white appropriation of music till then played only by and for black audiences In *Before Elvis* Birnbaum daringly argues a more complicated history of rock s evolution from a heady mix of ragtime boogie woogie swing country music mainstream pop and rhythm and blues a melange that influenced one another along the way from the absorption of blues and boogies into jazz and pop to the integration of country and Caribbean music into rhythm and blues Written in an easy style *Before Elvis* presents a bold argument about rock s origins and required reading for fans and scholars of rock n roll history
